*The Dilemma of Consent to International Arbitration in Investment Agreements without a Forum* Fernando Tupa, 2023-02-17 Fernando Tupa addresses the sometimes overlooked yet fundamental principle that consent to international arbitration is forum specific and explores its significance and practical consequences for investment tribunals The author proposes that if there is only consent in principle to international arbitration by the host State in an investment agreement due to the lack of a forum or the unavailability of the forum contemplated therein a foreign investor would not be entitled to unilaterally initiate an investment claim against the host State under said agreement absent a subsequent agreement between the foreign investor and the host State on an arbitral forum He also draws some conclusions and warns against the dangerous consequences of ignoring this basic principle      *International Organizations and the Promotion of Effective Dispute Resolution* , 2019-06-26 This second volume of the AIIB Yearbook of International Law examines the role of international organizations in promoting effective dispute resolution It is divided into five parts to reflect a series of overarching themes and relationships Firstly international arbitration s effectiveness and affinity with multilateral institutions Second international organizations as proponents of the norms of dispute resolution Third the dispute resolution mandates of international organizations Fourth the role of dispute resolution and economic development Together this diversity of perspectives offers convincing evidence that effective dispute resolution is a precondition to successful economic development and that international organizations have an essential role to play in promoting both The fifth part presents the 2018 AIIB Law Lecture given by Georg Nolte Chair of the International Law Commission on the subject of International Organizations in the Recent Work of the International Law Commission and the 2018 AIIB Legal Conference Report

Cambridge Compendium of International Commercial and Investment Arbitration Stefan Kröll, Andrea K. Bjorklund, Franco Ferrari, 2023-03-02 The Compendium like an encyclopedia contains entries for most of the foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the commonalities as well as the differences between commercial and investment arbitration whether and where cross fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in promoting the creation of a culture of international arbitration that considers commercial arbitration and investment arbitration as part of a whole but with certain

distinct features particular to each      Arbitration Clauses and Third Parties Asli Arda,2023-07-18 This is the first book to focus on the legal question of the incorporation of arbitration clauses even though this issue constitutes a common problem that arises frequently in practice Arbitration Clauses and Third Parties compares different branches of law namely shipping reinsurance and construction where the legal notion of incorporation is often implemented It evaluates how the differences and peculiarities of the said branches of law impact the outcome of the incorporation of arbitration clauses and therefore why a one size fits all approach should be avoided The book provides both an in depth legal analysis of the incorporation of arbitration clauses as well as the legal position of the third parties regarding arbitration agreements and a detailed evaluation of the relevant case law It further offers a unique comparative analysis of English law and Singapore law with regards to the incorporation of arbitration clauses and features recent case law on the issue from both jurisdictions Moreover the book explores the status of third parties to arbitration and a wide range of legal situations in which arbitration clauses bind third parties This book will be directly of interest to lawyers and professionals in arbitration reinsurance construction and shipping as well as to relevant academic courses      **CSR and Codes of Business Ethics in the USA, Austria (EU) and China and their Enforcement in International Supply Chain Arbitrations** Adolf Peter,2021-02-23 This book analyzes the implementation of CSR reporting and codes of business conduct and ethics in the legal systems of the USA Austria and China and their enforcement in international supply chain arbitrations The book demonstrates that long term profit maximization is increasingly intertwined with corporate ethics and CSR policies In order to prevent window dressing and greenwashing certain control mechanisms and legal standards are required along the entire supply chain This book introduces an ethics and CSR system recommending a reward based whistleblowing mechanism internal oversight by a CSR and Ethics Committee comprised of independent board members and at least one sustainability expert and an external independent and comprehensive assurance of CSR reports provided by auditing firms or newly formed governmental agencies consisting of certified CSR experts The author emphasizes the significance for supply chain leaders to ensure contractual enforcement of their codes of business ethics and conduct along the supply chain Against this background the author created a comprehensive fictitious case scenario covering a supply chain dispute arising from the breach of the supply chain leader s code of business conduct and ethics by a lower tier supply chain member The author acknowledges the fact that in most of the cases the governing law of international supply chain contracts is English law or law based on English law Thus the author discusses potential contractual claims for damages arising from a loss of profits caused by a loss of reputation resulting from violations of core provisions of the chain leader s supplier code of conduct pursuant to English law As international supply chain disputes usually involve more than two parties and international arbitration is the ideal means for the resolution of these disputes the book compares the arbitration rules for consolidations and joinders of some of the most significant international arbitration institutions SIAC ICC AIAC ICDR VIAC CIETAC and HKIAC The book is directed at

legal practitioners legislators of various jurisdictions board members of corporations ethics and compliance officers academics researchers and students It is the author's main goal that the book serves as an inspirational source for the establishment or the improvement of a corporate ethics and CSR system preventing window dressing and greenwashing and covering the entire supply chain Furthermore it is intended that students develop a deeper understanding for the enforcement of corporate ethics and CSR policies
