A Handbook of Civil War Bullets and Cartridges James E. Thomas, Dean S. Thomas, 1996-01-01      Battles of the Red River War J. Brett Cruse, 2017-08-03 Battles of the Red River War unearths a long buried record of the collision of two cultures In 1874 U S forces led by Col Ranald S Mackenzie carried out a surprise attack on several Cheyenne Comanche and Kiowa bands that had taken refuge in the Palo Duro Canyon of the Texas panhandle and destroyed their winter stores and horses After this devastating loss many of these Indians returned to their reservations and effectively brought to a close what has come to be known as the Red River War a campaign carried out by the U S Army during 1874 as a result of Indian attacks on white settlers in the region After this operation the Southern Plains Indians would never again pose a coherent threat to whites expansion and settlement across their ancestral homelands Until now the few historians who have undertaken to tell the story of the Red River War have had to rely on the official records of the battles and a handful of extant accounts letters and journals of the U S Army participants Starting in 1998 J Brett Cruse under the auspices of the Texas Historical Commission conducted archeological investigations at six battle sites In the artifacts they unearthed Cruse and his teams found clues that would both correct and complete the written records and aid understanding of the Indian perspectives on this clash of cultures Including a chapter on historiography and archival research by Martha Doty Freeman and an analysis of cartridges and bullets by Douglas D Scott this rigorously researched and lavishly illustrated work will commend itself to archeologists military historians and scientists and students and scholars of the Westward Expansion

Scott, Peter Bleed, Stephen Damm, 2015-01-26 On a chilly January morning in 1872 a special visitor arrived by train in North Platte Nebraska Grand Duke Alexis of Russia had already seen the cities and sights of the East New York Washington and Niagara Falls and now the young nobleman was about to enjoy a western adventure a grand buffalo hunt His host would be General Philip Sheridan and the excursion would include several of the West s most iconic characters George Armstrong Custer Buffalo Bill Cody and Spotted Tail of the Brul Sioux The Royal Buffalo Hunt as this event is now called has become a staple of western lore Yet incorrect information and misconceptions about the excursion have prevented a clear understanding of what really took place In this fascinating book Douglas D Scott Peter Bleed and Stephen Damm combine archaeological and historical research to offer an expansive and accurate portrayal of this singular diplomatic event The authors focus their investigation on the Red Willow Creek encampment site now named Camp Alexis the party s only stopping place along the hunt trail that can be located with certainty In addition to physical artifacts the authors examine a plethora of primary accounts such as railroad timetables invitations to balls and dinners even sheet music commemorating

the visit to supplement the archaeological evidence They also reference documents from the Russian State Archives previously unavailable to researchers as well as recently discovered photographs that show the layout and organization of the camp Weaving all these elements together their account constitutes a valuable product of the interdisciplinary approach known as microhistory *Finding Sand Creek* Jerome A. Greene, Douglas D. Scott, 2013-07-17 The 1864 Sand Creek Massacre is one of the most disturbing and controversial events in American history While its historical significance is undisputed the exact location of the massacre has been less clear Because the site is sacred ground for Cheyenne and Arapaho Indians the question of its location is more than academic it is intensely personal and spiritual In 1998 the National Park Service under congressional direction began a research program to verify the location of the Sand Creek site The team consisted of tribal members Park Service staff and volunteers and local landowners In *Finding Sand Creek* the project's leading historian Jerome A. Greene and its leading archeologist Douglas D. Scott tell the story of how this dedicated group of people used a variety of methods to pinpoint the site Drawing on oral histories written records and archeological fieldwork Greene and Scott present a wealth of evidence to verify their conclusions Greene and Scott's team study led to legislation in the year 2000 that established the Sand Creek Massacre National Historic Site *Dark Canyon Ranchería Apache/military Battle Site, Lincoln National Forest, New Mexico* Christopher D.
