A History Of The Ancient Southwest:

A History of the Ancient Southwest Harold Sterling Gladwin, 1965 *A History of the Ancient Southwest* Stephen H. Lekson, 2009 According to archaeologist Stephen H. Lekson much of what we think we know about the Southwest has been compressed into conventions and classifications and orthodoxies. This book challenges and reconfigures these accepted notions by telling two parallel stories: one about the development, personalities, and institutions of Southwestern archaeology and the other about interpretations of what actually happened in the ancient past. While many works would have us believe that nothing much ever happened in the ancient Southwest, this book argues that the region experienced rises and falls, kings and commoners, war and peace, triumphs and failures. In this view, Chaco Canyon was a geopolitical reaction to the Colonial Period; Hohokam expansion and the Hohokam Classic Period was the product of refugee Chacoan nobles chased off the Colorado Plateau by angry farmers. Far to the south, Casas Grandes was a failed attempt to create a Mesoamerican state, and modern Pueblo people with societies so different from those at Chaco and Casas Grandes deliberately rejected these monumental hierarchical episodes of their past. From the publisher: The second printing of *A History of the Ancient Southwest* has corrected the errors noted below. SAR Press regrets an error on Page 72, paragraph 4, also Page 275, note 2, regarding absolute dates. 50,000 dates was incorrectly published as half a million dates. Also, P. 125, lines 13-14: Between 21,000 and 27,000 people lived there should read Between 2,100 and 2,700 people lived there.

The Oxford Handbook of American Indian History Frederick E. Hoxie, 2016. The Oxford Handbook of American Indian History presents the story of the indigenous peoples who lived and live in the territory that became the United States. It describes the major aspects of the historical change that occurred over the past 500 years with essays by leading experts, both Native and non-Native, that focus on significant moments of upheaval and change, place-based histories of major centers of indigenous occupation, and overviews of major aspects of Indian community and national life.

A Diné History of Navajoland Klara Kelley, Harris Francis, 2019-10-22. For the first time, a sweeping history of the Diné that is foregrounded in oral tradition. Authors Klara Kelley and Harris Francis share Diné history from pre-Columbian time to the present using ethnographic interviews in which Navajo people reveal their oral histories on key events such as Athabaskan migrations, trading and trails, Diné clans, the Long Walk of 1864, and the struggle to keep their culture alive under colonizers who brought the railroad, coal mining, trading posts, and finally, climate change. The early chapters, based on ceremonial origin stories, tell about Diné forebears. Next come the histories of Diné clans from late pre-Columbian to early post-Columbian times and the coming together of the Diné as a sovereign people. Later chapters are based on histories of families, individuals, and communities and tell how the Diné have struggled to keep their bond with the land under settler encroachment, relocation, loss of land-based self-sufficiency through the trading post system, energy resource extraction, and climate change. Archaeological and documentary information supplements the oral histories, providing a comprehensive investigation of Navajo history and offering new insights into their twentieth-century

Harrod, 2017-09-20 Taking a bioarchaeological approach this book examines the Ancestral Pueblo culture living in the Four Corners region of the United States during the late Pueblo I through the end of the Pueblo III period AD 850 1300 During this time a vast system of pueblo villages spread throughout the region creating what has been called the Chaco Phenomenon named after the large great houses in Chaco Canyon that are thought to have been centers of control Through a bioarchaeological analysis of the human skeletal remains this volume provides evidence that key individuals within the hierarchical social structure used a variety of methods of social control including structural violence to maintain their power over the interconnected communities

A Study of Southwestern Archaeology Stephen H. Lekson, 2018 In this volume Steve Lekson argues that for over a century southwestern archaeology got the history of the ancient Southwest wrong Instead he advocates an entirely new approach one that separates archaeological thought in the Southwest from its anthropological home and moves to more historical ways of thinking Focusing on the enigmatic monumental center at Chaco Canyon the book provides a historical analysis of how Southwest archaeology confined itself how it can break out of those confines and how it can proceed into the future Lekson suggests that much of what we believe about the ancient Southwest should be radically revised Looking past old

preconceptions brings a different Chaco Canyon into view More than an eleventh century Pueblo ritual center Chaco was a political capital with nobles and commoners a regional economy and deep connections to Mesoamerica By getting the history right a very different science of the ancient Southwest becomes possible and archaeology can be reinvented as a very different discipline Provided by publisher **The Archaeology and History of Pueblo San Marcos** Ann F.
