A Leftist Ontology Carsten Strathausen, 2009 Rich with analyses of concepts from deconstruction systems theory and post Marxism with critiques of fundamentalist thought and the war on terror this volume argues for developing a philosophy of being in order to overcome the quandary of postmodern relativism Undergirding the contributions are the premises that ontology is a vital concept for philosophy today that an acceptable leftist ontology must avoid the kind of identity politics that has dominated recent cultural studies and that a new ontology must be situated within global capitalism *Latin American Perspectives on Global Development* Samuel Ernest Harrington, Mahmoud Masaeli, Rico Sneller, 2019-01-17 Although as a vast subcontinent Latin America reflects diverse perspectives of life senses of identity cultural and spiritual outlooks its constituting countries share a specific history of resistance against the prevalent patterns of global development However Latin America presents newer accounts of development understood as genuine views on human well being derived from a sense of its own specific identity In an emerging renaissance emphasizing human flourishing as the ultimate goal Latin America is shifting gears towards an ethical perspective on global development Distinct here is an emphasis on philosophy theology literature arts music and cinema as fertile terrains depicting how the subcontinent must draw its own unique picture of development Today it is undergoing a diverse cultural philosophical and spiritual growth and holds exciting potential to be aligned with and contribute to the contemporary debates around the ethics of global development This book discusses Latin American perspectives against the backdrop of the mainstream view of development which portrays economic growth as development It also looks at historical context cultural diversity cultural richness and the complex philosophy of life in the Latin American perspective to address the subcontinent's deep cultural heritage the depiction of its identity and its philosophy of life Additionally this book discusses how the causes of inequality and malaises such as social crime can be eliminated and more importantly how the prosperity and economic social and human development of the subcontinent and the world in general may be improved

Catastrophe and Redemption Jessica Whyte, 2013-12-01 Offers a striking new reading of Agamben's political thought and its implications for political action in the present Challenging the prevalent account of Agamben as a pessimistic thinker Catastrophe and Redemption proposes a reading of his political thought in which the redemptive element of his work is not a curious aside but instead is fundamental to his project Jessica Whyte considers his critical account of contemporary politics his argument that Western politics has been biopolitics since its inception his critique of human rights his argument that the state of exception is now the norm and the paradigmatic significance he attributes to the concentration camp and shows that it is in the midst of these catastrophes of the present that Agamben sees the possibility of a form of profane redemption Whyte outlines the importance of potentiality in his attempt to formulate a new politics examines his relation to Jewish and Christian strands of messianism and interrogates the new forms of praxis that he situates within contemporary commodity culture taking Agamben's thought as a call for the

system of philosophy *Women's Writing in Colombia* Cherilyn Elston, 2016-12-20 Winner of the Montserrat Ord ez Prize 2018 This book provides an original and exciting analysis of Colombian women's writing and its relationship to feminist history from the 1970s to the present In a period in which questions surrounding women and gender are often sidelined in the academic arena it argues that feminism has been an important and intrinsic part of contemporary Colombian history Focusing on understudied literary and non literary texts written by Colombian women it traces the particularities of Colombian feminism showing how it has been closely entwined with left wing politics and the country's history of violence This book therefore rethinks the place of feminism in Latin American history and its relationship to feminisms elsewhere challenging many of the predominant critical paradigms used to understand Latin American literature and culture *The Russian Revolution as Ideal and Practice* Thomas Telios, Dieter Thomä, Ulrich Schmid, 2019-06-22 This volume aims to commemorate criticize scrutinize and assess the undoubted significance of the Russian Revolution both retrospectively and prospectively in three parts Part I consists of a palimpsest of the different representations that the Russian Revolution underwent through its turbulent history going back to its actors agents theorists and propagandists to consider whether it is at all possible to revisit the Russian Revolution as an event With this problematic as a backbone the chapters of this section scrutinize the ambivalences of revolution in four distinctive phenomena sexual morality religion law and forms of life that pertain to the revolution's historicity Part II concentrates on how the revolution was retold in the aftermath of its accomplishment not only by its sympathizers but also its opponents These chapters not only bring to light the ways in which the revolution triggered critical theorists to pave new paths of radical thinking that were conceived as methods to overcome the revolution's failures and impasses but also how the Revolution was subverted in order to inspire reactionary politics and legitimize conservative theoretical undertakings Even commemorating the Russian Revolution then still poses a threat to every well established political order In Part III this volume interprets how the Russian Revolution can spur a rethinking of the idea of revolution Acknowledging the suffocating burden that the notion of revolution as such entails the final chapters of this book ultimately address the content and form of future revolution's It is therein in such critical political thought and such radical form of action where the Russian Revolution's legacy ought to be sought and can still be found *The Tears of Sovereignty* Philip Lorenz, 2013-06-26 *The Tears of Sovereignty* is a comparative study of the representation of the concept of sovereignty in paradigmatic plays of early modern English and Spanish drama It argues that baroque drama produces the critical terms through which contemporary philosophical criticism continues to think through the problems of sovereignty today **Avocado Dreams** Ana Patricia Rodríguez, 2025-11-04 For more than four generations Salvadorans have made themselves at home in the greater Washington D C metropolitan area and have transformed the region contributing their labor ingenuity and culture to the making of a thriving but highly neglected and overlooked community In *Avocado Dreams* Ana Patricia Rodríguez draws from her own positionality as a Salvadoran transplant to examine the construction of the

unique Salvadoran cultural imaginary made in the greater D C area Through a careful reading of the creative works of local writers performers artists and activists Rodr guez demonstrates how the people have remade themselves in relation to the cultural ethnoracial and sociolinguistic diversity of the area She discusses how Salvadoran people have developed unique intergenerational Salvadore idades manifested in particular speech and symbolic acts ethnoracial embodiments and local identity formations in relation to the diverse communities most notably Black Washingtonians who co inhabit the region This timely and relevant work not only enriches our understanding of Salvadoran diasporic experiences but also contributes significantly to broader discussions on migration identity and cultural production in the United States *Economies of Scale* Ann Keniston,2023-12-15 This book offers the first sustained study of the ways 21st century North American poems engage with financialization It argues that recent poems about economics not only discuss but enact concerns with containment and agency essential to the contemporary financialized economy by manipulating the seemingly old fashioned figures of synecdoche the representation of the whole by the part and prosopopeia or personification Its four body chapters offer in depth readings of the work of eleven formally culturally and thematically diverse contemporary U S and Canadian poets who variously consider labor consumerism debt and the derivative form the Coda reads several recent poems about reparations in terms of an emerging tendency to emphasize the historical racialized and ethical contexts of contemporary economics As the book explores financialization s representation in recent poetry it redresses arguments that poetry is irrelevant to contemporary culture Sexual Culture in Germany in the 1970s Janin Afken,Benedikt Wolf,2019-12-11 This book is the first attempt to present a comprehensive picture of LGBT culture in the two German states in the 1970s Starting from the common view of the decade between the moderation of the German anti sodomy law in 1968 East and 1969 West and the first documented case of AIDS 1982 as a golden age for queer politics and culture this edited collection traces the way this impression has been shaped by cultural production The chapters ask What exactly made the 1970s a legendary decade What was its revolutionary potential and what were its path breaking political and aesthetic strategies Which elements movements and memories had to be marginalized in order to facilitate the historical construction of the legendary decade Exploring the complex picture of gay lesbian and to a lesser extent trans cultures from this time the volume provides fascinating insights into both canonized and marginalized texts and films from and about the decade The Actuality of Communism Bruno Bosteels,2014-11-01 One of the rising stars of contemporary critical theory Bruno Bosteels discusses the new currents of thought generated by figures such as Alain Badiou Jacques Rancire and Slavoj Zizek who are spearheading the revival of interest in Communism Bosteels examines this resurgence of Communist thought through the prism of speculative leftism an incapacity to move beyond lofty abstractions and thoroughly rethink the categories of masses classes and state Debating those questions with writers including Roberto Esposito and Alberto Moreiras Bosteels also provides a vital account of the work of the Bolivian Vice President and thinker lvaro Garca Linera Theory That Matters Kacper Bartczak,Małgorzata

Myk,2014-08-11 Covering an impressive scope of subjects in literary and cultural theory from Freud Heidegger and Barthes to Fish Rorty and Bhabha Theory That Matters offers a welcome up to date assessment of the state of the discipline Such a recapitulation serves as a point of departure for the examinations of the new practices across the arts and media and of the innovative interpretative tools suggested by these practices The contributors take their examples from an amazing variety of contexts and thus prove that the very dynamics of theory is a fascinating phenomenon Succeeding several recent anthologies that have cast doubt on the aims of theory the present volume launches its defence and at the same time demonstrates that this is not to be achieved at the expense of praxis The book clearly shows that theory owes its currency to its multiple functions among others as a procedure of interpretation a vehicle for philosophical reflection and a formulation of an ideological stance Marek Paryz Associate Professor Institute of English Studies University of Warsaw Editor of the Polish Journal for American Studies

The Surplus of Culture Ewa Borkowska,Tomasz Burzyński,2011-07-12 This multifaceted volume presents the elusive surplus of culture in the spotlight of theory and academic practice Despite its overtly economic implications the concept alludes to the added value of sense common sense and nonsense which is represented as languages of irony irrationality and absurdity potentially subverting traditional and mainstream regimes of culture Consequently the moment of surplus is inherent in critical interpretation in which supposedly well entrenched notions suddenly reveal their implicitly shattering and subversive nature The surplus of culture dwells at the risky intersection of untamed interpretation and tradition It is the space of the third in which literary canons are re visited

language reveals its hidden political agendas the Orient reclaims its own cognitive perspective and established structures of cognition are questioned in the tragic comic gesture of insight The volume is a must for scholars and researchers in the fields of cultural studies literature and arts as well as literary theory

Anecdotal Evidence Sean Cubitt, 2020 Ecocritique is a practice of radical questioning as essential to the critical armoury as feminism and postcolonialism have become Like them it extends beyond judgements about texts with clear ecological themes demonstrating the significance of ecocriticism for any advanced understanding of cultural forms Anecdotal method is ecocritical because it focuses on encounters concentrated moments of crisis when social ordering and ecological forces clash The anecdote's power to produce events meanings and history forms a methodological entry to aesthetic politics Anecdotal Evidence provides an outline of the need for and principles of anecdotal method a case study of eco critical themes in Hollywood films shaped by the Global Financial Crisis and a confrontation with mass image databases of social and streaming media that due to their scale and organisation appear at first immune to anecdotal method Only because the environment has a history is it possible to intervene environmentally Because we continually misrecognise the historical production of environments the first task of ecocritique is to bring our formative concept of ecology into crisis Its final task will be to achieve the good life for everything connected by the historical implication of humans in ecology and ecology in humans No politics can be undertaken in our times except through media ecocritical humanities have a key role in rethinking ecopolitics in the 21st century

Maeve Brennan Edward O'Rourke, 2024-10-30 This book explores the intricate interplay between physical spaces and psychological landscapes in the works of Irish American author Maeve Brennan Brennan's writing is now classed amongst the most important of twentieth century Irish women's fiction having undergone a significant reclamation and reappraisal in the 30 years since her death Single and childfree for most of her life Brennan eschewed the securities of family and home experiencing an otherness that she shared with her fellow New Yorkers many of them left she wrote hanging on to a city half capsized most of them still able to laugh as they cling to the island that is their life's predicament It is a suitably ambiguous expression for a writer who cultivated an interstitial existence whose stories inhere within a dream cycle of reiterative pasts and whose works augment and elevate the canon of radical Irish fiction
