eService-Learning Jean R. Strait, Katherine

Nordyke, 2023-07-03 This book serves as an introduction to using online teaching technologies and hybrid forms of teaching for experiential learning and civic engagement Service learning has kept pace neither with the rapid growth in e learning in all its forms nor with the reality that an increasing number of students are learning online without exposure to the benefits of this powerful pedagogy Eservice learning electronic service learning combines service learning and on line learning and enables the delivery of the instruction and or the service to occur partially or fully online Eservice learning allows students anywhere regardless of geography physical constraints work schedule or other access limitations to experience service learning It reciprocally also equips online learning with a powerful tool for engaging students In eservice learning the core

components of service learning and reflection may take a different form due to the online medium for example reflection often occurs through discussion board interactions journals wikis or blogs in an eservice learning course Moreover the service though still community based creates a world of opportunities to connect students with communities across the globe as well as at their very own doorstep This book introduces the reader to the four emerging types of eservice learning from Extreme EService Learning XE SL classes where 100% of the instruction and 100% of the service occur online to three distinct forms of hybrid where either the service or the instruction are delivered wholly on line with students for instance providing online products for far away community partners or in which both are delivered on site and online It considers the instructional potential of common mobile technologies phones tablets and mobile reading devices The authors also address potential limitations such as technology challenges difficulties sustaining three way communication among the instructor community partner and students and added workload The book includes research studies on effectiveness as well as examples of practice such drafting grants for a community partner an informational technology class building online communities for an autism group and an online education class providing virtual mentoring to at risk students in New Orleans from across the country

RIA Federal Tax Handbook ,2009 Popular Science ,2007-05 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
