When It Rains Rains 1 By Lisa De Jong:

Cada vez que llueve Lisa de Jong, 2015-02-23 Un historia cautivadora de amor amistad y superación Te enamorarás de sus protagonistas El amor ser la salvación de Kate Kate Alexander es una adolescente que vive en Carrington un tranquilo pueblo de Estados Unidos donde sueña con acabar el instituto e ir a la universidad Pero una noche lluviosa su vida cambia de forma dolorosa y ya nada vuelve a ser igual Cuenta con el apoyo incondicional de su gran amigo Beau Bennett compañero de infancia Pero él quiere algo más y Kate no puede dárselo tampoco puede contarle lo que ocurrió aquella noche Sencillamente está paralizada Cuando Beau se marcha a la universidad Kate se siente muy sola Hasta que llega Asher Hunt un joven de ojos seductores y sonrisa arrogante que le hará olvidar el dolor que la ha mantenido cautiva durante tanto tiempo A pesar de los consejos de la gente Kate no puede evitar acercarse y abrirse a él Será la esperanza que necesita Su salvación O la volverá a herir *Chronicle of the Horse*, 1989-04 **Forest Governance** Jessica Stubenrauch, Felix Ekardt, Katharina Hagemann, Beatrice Garske, 2022-04-22

This book analyses and develops overarching concepts for forest policy and forest governance and includes a detailed investigation into the historical discussion on forests It examines opportunities and limits for negative emissions in a sector that like peatlands appears significantly less ambivalent compared to highly technical large scale forms of climate geoengineering The analysis shows that the binding climate and biodiversity targets under international law are much more ambitious than most people assume Measured against that the volume critically reviews the potentials of afforestation and reforestation for climate mitigation which is often presented as the new saviour to fulfil the commitments of the Paris Agreement and to reach climate neutrality in the future It becomes clear that ultimately only biodiverse and thus resilient forests can function as a carbon sink in the long term The volume shows that the existing European and international forest governance approaches fail to comply with these targets and insights Furthermore the book develops a bundle of policy measures Quantity governance systems for livestock farming fossil fuels and similar drivers of deforestations represent the most important approach They are most effective when not directly targeting forests due to their heterogeneity but central damaging factors With regard to the dominant regulatory and subsidy based governance for forests we show that it remains necessary to supplement these quantity governance systems with certain easily graspable and thus controllable regulatory and subsidy regulations such as a regulatory protection of old growth forests with almost no exceptions extension of the livestock to land ratio established in organic farming to all farming far reaching restriction of bioenergy use to certain residues flanked by import bans and a national and international complete conversion of all agricultural and forest subsidies to public money for public services to promote nature conservation and afforestation in addition to the quantity control systems **A Faith of Their Own** Lisa Pearce, Melinda Lundquist Denton, 2011-01-07

Adding to the contributions made by *Soul Searching* and *Souls in Transition* two books which revolutionized our understanding of the religious lives of young Americans Lisa Pearce and Melinda Lundquist Denton here offer a new portrait

of teenage faith Drawing on the massive National Study of Youth and Religion's telephone surveys and in depth interviews with more than 120 youth at two points in time the authors chart the spiritual trajectory of American adolescents and young adults over a period of three years Turning conventional wisdom on its head the authors find that religion is an important force in the lives of most though their involvement with religion changes over time just as teenagers themselves do Pearce and Denton weave in fascinating portraits of actual youth to give depth to mere numerical rankings of religiosity which tend to prevail in large studies One teenager might rarely attend a service yet count herself profoundly religious another might be deeply involved in a church's social world yet claim to be not like deep into the faith They provide a new set of qualitative categories Abiders Assenters Adapters Avoiders and Atheists quoting from interviews to illuminate the shading between them And with their three year study they offer a rich understanding of the dynamic nature of faith in young people's lives during a period of rapid change in biology personality and social interaction Not only do degrees of religiosity change but so does its nature whether expressed in institutional practices or personal belief By presenting a new model of religious development and change illustrated with compelling personal accounts of real teenagers Pearce and Denton offer parents scholars and religious leaders a new guide for understanding religious development in teens

Handbook of Megacities and Megacity-Regions Danielle Labbé, André Sorensen, 2020-09-25 Exploring the importance of megacities and megacity regions as one of the defining features of the 21st century this Handbook provides a clear and comprehensive overview of current thinking and debates from leading scholars in the field Highlighting major current challenges and dimensions of megaurbanization chapters form a thematic focus on governance planning history and environmental and social issues supported by case studies from every continent

Marburg- and Ebolaviruses Elke Mühlberger, Lisa L. Hensley, Jonathan S. Towner, 2017-12-23 This volume provides an overview of recent advances in our understanding of the biology of marburg and ebolaviruses It focuses on four essential areas 1 ecology outbreaks and clinical management 2 disease pathogenesis and protection 3 virus replication inside the cell and 4 molecular tools for virus study and taxonomy For 50 years these viruses have spilled over sporadically and without warning from their wildlife reservoirs often causing major outbreaks and high fatalities The consequences can be devastating with a clear potential for global reach as demonstrated by the 2013 West African outbreak of Ebola virus which led to over 28 000 reported cases across three continents and more than 11 000 deaths Given the international threat posed by these viruses the pace and scope of basic research have also greatly intensified ranging from studies of virus emergence epidemiology antiviral countermeasures and human disease to detailed mechanistic studies of virus entry replication virion assembly and protein structure Written by internationally respected experts this book will appeal to a wide audience and be a valuable resource for basic researchers clinicians and advanced students alike

the Ancient World Lisa Hau, Ian Ruffell, 2016-11-03 This collection of essays investigates histories in the ancient world and the extent to which the producers and consumers of those histories believed them to be true Ancient Greek historiographers repeatedly stressed the importance of truth to history yet they also purported to believe in myth distorted facts for nationalistic or moralizing purposes and omitted events that modern audiences might consider crucial to a truthful account of the past Truth and History in the Ancient World explores a pluralistic concept of truth one in which different versions of the same historical event can all be true or different kinds of truths and modes of belief are contingent on culture Beginning with comparisons between historiography and aspects of belief in Greek tragedy chapters include discussions of historiography through the works of Herodotus Xenophon and Ktesias as well as Hellenistic and later historiography material culture in Vitruvius and Lucian's satire Rather than investigate whether historiography incorporates elements of poetic rhetorical or narrative techniques to shape historical accounts or whether cultural memory is flexible or manipulated this volume examines pluralities of truth and belief within the ancient world and consequences for our understanding of culture ancient or otherwise
