Wordsworth and the Zen Mind John G. Rudy, 1996-03-28 This book demonstrates that Zen thought and art provide both a generative and a formative context for understanding the spirituality of the English poet William Wordsworth 1770-1850 Combining methods of modern literary scholarship with the philosophical initiatives of the Kyoto School the text crosses disciplines as well as cultures offering a nonmonotheistic nonpantheistic philosophical ground upon which to study what Wordsworth calls the tranquil soul and the one Presence that underlies the great whole of life Anticipating a variety of audiences the discourse progresses from general introductory level discussions of Zen philosophy and literature to the more technical philosophical idiom of the Kyoto School employing intertextual readings of a variety of Wordsworthian and Zen documents to broaden and deepen the East West dialogue as it has been unfolding since the pioneering work of D T Suzuki and Kitaro Nishida An important aspect of this study is its twofold purpose to situate Wordsworth more centrally in the evolving global community of intercultural and interreligious communication and to demonstrate the unique flexibility and universality of Zen as a medium of spiritual growth and aesthetic understanding

The Measure of Things David Edward Cooper, 2002 Philosophers both western and eastern have long been divided between humanists for whom man is the measure of things and their opponents who claim that there is a way in principle knowable and describable that the world anyway is independent of human perspectives and interests The early chapters of *The Measure of Things* chart the development of humanism from medieval times through the Renaissance Enlightenment and Romantic periods to its most sophisticated

twentieth century form existential humanism Cooper does not identify this final position with that of any particular philosopher though it is closely related to those of Heidegger Merleau Ponty and the later Wittgenstein Among the earlier figures discussed are William of Ockham Kant Herder Nietzsche and William James Having rejected attempts by contemporary advocates of modest or non metaphysical realism to dissolve the opposition between humanism and its absolutist rival Cooper moves on to an adjudication of that rivalry Prompted by the pervasive rhetoric of hubris that the rivals direct against one another he argues in an original manner that the rival positions are indeed guilty of lack of humility Absolutists whether defenders of The Given or scientific realists exaggerate our capacity to ascend out of our engaged perspectives to an objective account of the world Humanists conversely exaggerate our capacity to live without a sense of our subjection to a measure independent of our own perspectives The only escape Cooper maintains from the impasse reached when humanism and absolutism are both rejected lies in a doctrine of mystery There is a reality independent of the human contribution but it is necessarily ineffable Drawing in a novel way upon the Buddhist conception of emptiness and Heidegger's later writings the final chapters defend the notion of mystery distinguish the doctrine advanced from that of transcendental idealism and propose that it is only through appreciation of mystery that measure and warrant may be provided for our beliefs and conduct

Zen & the Beat Way Alan Watts, 2012-01-13 When Jack Kerouac wrote about Zen in *Dharma Bums* he was echoing the sentiments of the Beat generation who found in Zen credence for a way of life unencumbered by the limits of square society And it was Alan Watts who first wrote and spoke about Zen and Eastern culture in terms accessible to mainstream Western audiences Through his popular radio series *Way Beyond the West* Alan Watts brought listeners a delightful and practical side of Zen which he prescribed as a cure for education and culture By the early sixties his radio programs were renowned for their synthesis of Eastern wisdom and everyday life Several of these radio talks have been selected and edited by Mark Watts Alan's oldest son to introduce a new generation to Zen and the Beat Way Through this collection we see influences of D T Suzuki C G Jung Gary Snyder and others Specific chapters discuss Zen influences on traditional Japanese and Chinese arts and explore the celebrated concept of the controlled accident within the rich tradition of Zen aesthetics Also included is *Return to the Forest* an essay that explores the works of Joseph Campbell on the earliest Beat tradition

From Blavatsky to Krishnamurti: "It is Finished" Al Boag, 2025-09-16 This book highlights some important continuities as well as differences between the teachings of Helena Petrovna Blavatsky 1831-1891 co founder of the Theosophical Society in 1875 and Krishnamurti Jiddu 1895-1986 the Theosophist who was trained to be the World Teacher Until now very little has been written of the importance to Blavatsky of an esoteric eschatology and Christology and their relation to the secret core of her Path of Initiation the practice of an occult breathless meditation Similarly scholarly research has overlooked the evidence that Krishnamurti eviscerated the secret core of Blavatsky's teaching with his own esoteric interpretation of it which exists in his published work as the camouflaged core of his teaching Offering a fresh appraisal this

work draws on careful exploration of the primary source material of Blavatsky and Krishnamurti as well as his Theosophical mentors Annie Besant 1847 1933 and Charles Webster Leadbeater 1854 1934 It will be of particular interest to students and scholars of esotericism new religious movements and the history of religions Earth's Insights J. Baird Callicott, 1994-11-15

The environmental crisis is global in scope yet contemporary environmental ethics is centered predominantly in Western philosophy and religion Earth's Insights widens the scope of environmental ethics to include the ecological teachings embedded in non Western worldviews J Baird Callicott ranges broadly exploring the sacred texts of Islam Hinduism Jainism Taoism Confucianism and Zen Buddhism as well as the oral traditions of Polynesia North and South America and Australia He also documents the attempts of various peoples to put their environmental ethics into practice Finally he wrestles with a question of vital importance to all people sharing the fate of this small planet How can the world's many and diverse environmental philosophies be brought together in a complementary and consistent whole
