Utopia Thomas More,Gilbert Burnet,2018-06-13 Thomas More s classic of political philosophy depicts an island society where all residents lives in harmony with one another Published in 1516 Utopia sees Sir Thomas More advances many tenets of what he views to be a perfect society His use of the word utopia as the name of the harmonious island nation he writes about entered the popular vernacular and is now used to describe any society where life is perfect for all of its inhabitants More describes the social customs means of transport a lack of private property trust between residents who do not lock their doors a simple spartan lifestyle free of ostentation a welfare state free health care a priesthood permitted to marry and gender equality when it comes to matters of work Those who commit crime are sentenced to slavery with slaves also imported to carry out domestic duties in Utopia s households *The Utopia of Sir Thomas More* Sir Thomas More (Saint),1895 Thomas More's Utopia Thomas More,2019-05-22 Utopia is a work of fiction and political philosophy by Thomas More The book is a frame narrative primarily depicting a fictional island society and its religious social and political customs There is no private property on Utopia with goods being stored in warehouses and people requesting what they need There are also no locks on the doors of the houses which are rotated between the citizens every ten years Agriculture is the most important job on the island Every person is taught it and must live in the countryside farming for two years at a time with women doing the same work as men Parallel to this every citizen must learn at least one of the other essential trades weaving mainly done by the women carpentry metalsmithing and masonry There is deliberate simplicity about these trades for instance all people wear the same types of simple clothes and there are no dressmakers making fine apparel All able bodied citizens must work thus unemployment is eradicated and the length of the working day can be minimised the people only have to work six hours a day although many willingly work for longer More does allow scholars in his society to become the ruling officials or priests people picked during their primary education for their ability to learn All other citizens are however encouraged to apply themselves to learning in their leisure time Slavery is a feature of Utopian life and it is reported that every household has two slaves The slaves are either from other countries or are the Utopian criminals These

criminals are weighed down with chains made out of gold The gold is part of the community wealth of the country and fettering criminals with it or using it for shameful things like chamber pots gives the citizens a healthy dislike of it It also makes it difficult to steal as it is in plain view The wealth though is of little importance and is only good for buying commodities from foreign nations or bribing these nations to fight each other Slaves are periodically released for good behaviour Jewels are worn by children who finally give them up as they mature Other significant innovations of Utopia include a welfare state with free hospitals euthanasia permissible by the state priests being allowed to marry divorce permitted premarital sex punished by a lifetime of enforced celibacy and adultery being punished by enslavement Meals are taken in community dining halls and the job of feeding the population is given to a different household in turn Although all are fed the same Raphael explains that the old and the administrators are given the best of the food Travel on the island is only permitted with an internal passport and any people found without a passport are on a first occasion returned in disgrace but after a second offence they are placed in slavery In addition there are no lawyers and the law is made deliberately simple as all should understand it
