The Index of Middle English Prose Linne R. Mooney,2007 The Library of Trinity College Cambridge contains the largest collection of medieval manuscripts of any college in Great Britain and one of the most important collections in the world The subjects contained therein cover the whole range of topics usual to medieval manuscripts with the single bias being that the majority were produced in Britain Particularly noteworthy are Wycliffite translations of the Bible sermons and Wycliffite tracts three manuscripts containing Nicholas Love s *Mirror of the Blessed Life of Ihesu Crist* and major collections of devotional texts Trinity is also rich in medieval scientific manuscripts many of which came through Roger Gale s interest in this field they include a number of large medical manuscripts whose

compilers were apparently trying to bring together much of the current knowledge of the day from tracts by such men as John of Arderne and Gilbertus Angelicus with recipes for treatments under a single cover The collection also contains major compilations of alchemical tracts historical and legal material and unique Middle English translations of classical and early medieval texts Finally a number of known Middle English texts not previously thought to be in the Trinity Collection are identified opening new areas for study of Trinity s manuscripts especially the medical and scientific texts which have much to tell of scientific learning in England in the later middle ages LINNE R MOONEY is Associate Professor of English at the University of Maine and a former graduate of the Center for Medieval Studies at Toronto
