Assessing the Young Learners' Progress Nicole Hahn, 2007-07 Seminar paper from the year 2005 in the subject English Pedagogy Didactics Literature Studies grade 2.0 University of Wuppertal course Teaching English to very young children 10 entries in the bibliography language English abstract In 1999 Rea Dickens and Rixon conducted a survey about the relationship between assessment and learning 120 European teachers and teacher trainers were asked if the main purpose of their assessment was to help their teaching and 97% answered in the affirmative Rea Dickens and Rixon examined afterwards what the teachers really assessed and how they did so They found a strong mismatch between curricular aims pedagogy and test content Cameron Lynne Teaching languages to very young learners Cambridge University press 2001 page 217 The assessment focused mainly on the children's achievements but neglected on other curricular aims such as language and social awareness The assessment of young learners should serve teaching by providing feedback on the children's learning progress so that the content and the difficulty of subsequent teaching units can be effectively adjusted to

the learners needs This paper offers the reader an overview about the theoretical ideas and principles which should be kept in mind when implementing an assessment Furthermore the guidelines of lower Saxony are introduced They illustrate the expectations of the German school system towards assessment in class Afterwards the paper gives an overview about psycholinguistic tests such as Blitztest and F Test Additionally the paper answers the question of origin and purpose of the Cambridge Young Learners Test Finally material which should support the teacher in the efficiency assessment of the pupils is represented considering the example of Ginger

Successful Teacher: Personality and Other Correlates Elena Mirela Samfira,Tiberiu Sandu Dughi,Jesus de la Fuente,2023-11-08 The question of what makes a good teacher has been asked by practitioners policymakers and researchers Teachers are important drivers of student success in the immediate term such as academic success Nowadays the education process is influenced by various factors which can all have a strong effect on the quality of teaching and learning Having the intention to create high quality teaching and learning it is very important to clearly determine what those factors are and what kind of effect they have on the education process Different teacher characteristics and competencies have been distinguished in the literature as being relevant predictors of their instructional quality Even though educational psychology has emphasized the significance of the personality role in the education process the empirical evidence on the relationship between teacher characteristics and instructional quality is not yet conclusive Certainly there is much more to find out

Challenges and Innovations in Speaking Assessment Larry Davis,John M. Norris,2024-09-19 The assessment of second language speaking ability has played a central role in the evolution of language testing theory and practice Educational Testing Service ETS has been a primary innovator in all dimensions of speaking assessment since the 1970s addressing critical challenges through the advent of new test designs scoring practices and measurement technologies to make especially large scale standardized testing of speaking ability a reality This volume presents a sample of key ETS research and development efforts related to speaking assessment over the years The contributors highlight diverse contributions to conceptualizing the speaking construct designing speaking test tasks scoring speech samples marshalling technologies for test delivery and automated scoring and developing end to end speaking assessment procedures The first part emphasizes how some of the earliest large scale speaking assessments were designed and put into practice The second part features research and development related to speaking assessments in the TOEIC and TOEFL testing suites emphasizing their validity and scoring The third part introduces research based innovations in testing new and more nuanced speaking constructs and in using automated scoring of speech to address diverse assessment needs The volume will appeal to language testing professionals and test score users in illuminating how ETS has influenced the development of speaking assessment as well as pointing to multiple directions for future research and practice

Investigations in Teaching and Learning Languages Danuta Gabryś-Barker,Ewa Piechurska-Kuciel,Jerzy Zybert,2014-07-08 The book presents most recent investigations into foreign language teaching and learning discussed by

prominent scholars in the field A wide variety of topics ranges from theoretical approaches to foreign language instruction to a discussion of findings of empirical research in language learning and pedagogy The theoretical part of the volume tackles issues which constitute the backbone to the understanding of the processes involved in language development learning and teaching and thus contribute to applied research The empirical articles in Parts Two and Three of the volume report on studies focusing on such important issues as various dimensions of awareness language cross cultural competence or affectivity and specific methodologies implemented in different educational settings such as for instance dyslexic learners or in teacher training programmes

Language and Learning in Multilingual Classrooms Elizabeth Coelho,2012-06-25

This book is a research based practical guide for educators who work with students whose linguistic and cultural background is different from their own Illustrated with many practical examples of classroom activities projects and teaching strategies the book is also an introduction to immigrant education for school administrators and educational planners in communities or regions that are in the process of developing plans and programs for newcomer students Although the focus is on first generation immigrant children many of the recommended approaches and instructional strategies described in this book can be used or adapted for use with second generation children and historical linguistic and cultural minorities such as children from Aboriginal communities in North America or children of Roma background in Europe
