

Bear and Chook

By Lisa Shanahan, Illustrated by Emma Quay.

'What do you want to be when you grow up?' Chook asked Bear. As Bear tries out a variety of occupations they all end up disastrously. So Bear decides he just wants to be an Old Bear when he grows up - that is, until tomorrow's adventures start!

Introducing the Book

Ask the children what they want to be when they grow up. Show the children the front cover of *Bear and Chook* by Lisa Shanahan and Emma Quay. What do you think this book is going to be about? What type of bear can you see on the cover? Where would you usually find this bear? Could a bear and a chook live in the same place?

Show the children the title page. Why do you think the illustrator has drawn Bear and Chook without their heads on this page? Do you think it is a good idea?

Read to the end of the first double page spread - '... builder'. What does a builder do? What does a builder wear? What tools does he/she use? Do you know the names of any famous builders? Could being a builder be dangerous? How? Record the children's responses under the heading 'builder'.

Read to 'By a wing,' shivered Chook. Do you think Bear would make a good builder? Why not? Read to - 'I wouldn't mind being an explorer, though.' What does an explorer do? What does an explorer wear? What tools does he/she use? Where does an explorer explore? Do you know the names of any famous explorers? Could being an explorer be dangerous? How? Record the children's responses.

Read to the end of 'By a tail feather,' shivered Chook. Do you think Bear would make a good explorer? Why not? Read to 'I wouldn't mind being an sea captain, though.' What does a sea captain do? What does a sea captain wear? What type of boat could a sea captain use? Where could a sea captain sail? Do you know the names of any famous sea captains? Could being a sea captain be dangerous? Record the children's responses. Do you think Bear will make a good sea captain? Why or why not? What do you think is going to happen next to Bear and Chook? What do you think Bear will choose to be next?

Annals of the Boodeys in New England Robert Boodey Caverly, 1880 Effective Task Instruction in the First Year of School Ilana Mushin, Rod Gardner, Claire Gourlay, 2021-11-29 It is well recognised that classroom teaching is highly complex and that teachers must navigate and negotiate myriad interactions just within a lesson in order to manage the learning opportunities of their students What is less well recognised is precisely how these interactions are managed in real time during actual classroom interactions This book is designed as an original close up account of processes by which children learn to become school learners in their first year of school unpacking some of the recognised complexity of busy classrooms to hone in on what teachers and children do and how learning takes place Using the tools of conversation analysis the authors unpack a range of pedagogical interactions between teachers and children during normal class focusing on procedural instructions and the outcomes of instructed activities By including transcripts of recordings of classes in schools located in diverse communities it is possible to see which aspects of classroom interaction may be impacted by external factors such as children's language or cultural background and which aspects are applicable regardless of such factors The chapters examine teacher instructions and children's behaviour during instructions and during task performance in whole class and small group interactions Effective Task Instruction in the First Year of School brings forward a much needed wealth of knowledge into how to teach children in the first year of schooling and beyond in a way that is accessible for practising teachers student teachers as well as education researchers

The Engine Michael Rachkovsky, 2017-05-31 The philosophical foundation of this novel is the idea that love and aesthetic sense are the most important products of the biological evolution on Earth and maybe even in the Universe Love is the only engine the source and the meaning of human existence and survival in our complex dark and often cruel world When beautiful and talented journalist Michelle Rosen meets geneticist Sam Levitin neither can imagine the exponentially developing and powerful passion that will dramatically transform their lives Their deep and intense affection for each other will see them drawn into the miraculous transcendental spiritual world From Michelles seeming mystical abilities to Sams extraordinary achievement at getting his dog the Saint Bernard Chook to speak both will begin to unravel the amazing mysterious connections that will become the framework of their new experience They will begin to uncover the next step in human evolution and attempt to breach the veil separating us from the Kingdom of the God of Love
