Beating The System Using Creativity To Outsmart Bureaucracies:

Beating the System Russell L. Ackoff, Sheldon Rovin, 2005-06-12 When was the last time you dealt with a bureaucracy the phone company an airline a hospital school or government agency and got what you wanted without weaving through a maze of infuriating hand offs Have you found these systems to be utterly indifferent to the inconvenience or hardship they cause Russell Ackoff and Sheldon Rovin say Enough is enough They have extensively studied organizational systems how they function and malfunction what drives them and where their weaknesses are Here they share both perversely entertaining anecdotes about the abuse of individuals by various bureaucracies and detail the creative and deeply satisfying approaches these people used to get even Best of all they offer successful strategies and tactics you can use to pinpoint the weakness of any system and exploit it to your advantage

Lead with Imagination Brian Paradis, 2019-02-05 We have moved past the Information Age and are now living in the Imagination Age Intuitive and creative thinking skills are as valuable as hard skills and are unique to each one of you You have these innate skills all you have to do is unleash them Join up What does imagination have to do with leadership Ever since he was in college Brian Paradis has been intrigued by the question What does imagination have to do with leadership For thirty years he studied this puzzle as he honed his business and leadership skills and one thing became crystal clear imagination has a powerful influence on leadership The compelling combination of leader imagination an opportunity to unleash all kinds of potential The world is increasingly complex knowledge is advancing at an unfathomable rate and the problems in our world seem unsolvable Organizations are in near constant and disruptive transition and the cultures that define them are disconnected disaffected and divisive Too many leaders show up to work wondering if any of it matters We are smarter than any generation in history but that isn t the problem The problem is imagination is not advancing at the same pace But where there s a closed door there s an open window of opportunity for those willing to walk through to take a risk and see what others don t Lead with Imagination promises three returns on your investment of time from reading it You will be inspired by the possibilities and strengthened against the challenges You will gain power and confidence to imagine create and innovate We are all born with innate imagination and curiosity learn how to use it You will release your fullest potential and help release the potential of those you lead We all learned as kindergarteners to assimilate quickly by giving the teacher society the desired answer and to fit in That colored our thinking from that moment forward and restricted our thinking and use of imagination But now it s time to color outside the lines
