Science Experiences for the Early Childhood Years Jean Durgin Harlan, Mary S. Rivkin, 2008 Core text for Science in Early Childhood and Science in the Elementary School courses The ninth edition of Science Experiences for the Early Childhood Years is written during recurrent national anxiety about science education Since the 1957 launch of Sputnik concern has pervaded the overlapping circles of education business labor and government The United States is afraid of losing its high standard of living to countries that have more citizens or are more desperately hard working or whose children both score higher on international math and science tests and pursue science technology engineering and mathematics careers with more frequency The aim of this book is to help new teachers be both informed in science and strong in their belief that science is great for children a master discipline that naturally facilitates attention to math and reading

Scientifica David Sang, Peter Ellis, Derek McMonagle, 2004 Bring your science lessons to life with Scientifica Providing just the right proportion of reading versus doing these engaging resources are differentiated to support and challenge pupils of varying abilities
