Bear Bones & Feathers Louise Halfe, 2022 **A Matter of Spirit** Susan McCaslin, 1998 The suggestion is here that soul making is the true vocation of the poet Poetry is personal speech on universal experience and in this selection of poems the individual approach to the sacred is emphasized over any adherence to orthodoxy or doctrine In this anthology spiritual traditions of East and West are filtered through the personal vision of sixteen contemporary Canadian poets These poets are joined together not by faith and similar belief but in each following their own path to truth Their poems and stories and editor Susan McCaslin's insightful introduction illuminated fundamental themes of spiritual life that resonated in each of us

Indigenous Women and Feminism Cheryl Suzack, Shari M. Huhndorf, Jeanne Perreault, Jean Barman, 2011-01-01 Can the specific concerns of Indigenous women be addressed within current mainstream feminist and post colonial discussions Indigenous Women and Feminism Politics Activism Culture proposes that a dynamic new line of inquiry Indigenous feminism is necessary to truly engage with the crucial issues of cultural identity nationalism and decolonization particular to Indigenous contexts Through the lenses of politics activism and culture the questions at the heart of this collection What is at stake in conceptualizing Indigenous feminism How does feminism relate to Indigenous claims to land and sovereignty What lessons can we learn from the past How do Indigenous women engage ongoing violence and social and political marginalization cross disciplinary national academic and activist boundaries to explore deeply the unique political and social positions of Indigenous women A vital and sophisticated discussion these timely essays will change the way we think about modern feminism and Indigenous women

Bear Bones & Feathers Louise Bernice Halfe, 1994-04-03 Among her healing arts are Native symbolism and history the memories of her childhood on the reserve and her own dark brand of humour Like Tomson Highway and Thomas King Halfe is actively involved in reclaiming the long overlooked Native comedic tradition Her poems about the erosion of old ways the terrors of residential school and the pain inflicted by alcoholism abound with satiric portraits and shared jokes yet pierce the heart with their truthfulness Her angriest poems infused with dark humour are written in a Cree inflected English she calls her grassroots tongue It is with this voice that she comes to terms with the legacy of Catholicism in the moving poems ten hail mary's and dear poop

Bare Bones Kathy Reichs, 2003-07-01 World class forensic anthropologist and New York Times bestselling author Kathy Reichs explores international endangered species trafficking in this electrifying new thriller that brings Temperance Brennan back to her home base in North Carolina where several sets of bones both human and animal lead her on a terrifying hunt for a killer It's a summer of sizzling heat in Charlotte where Dr Temperance Brennan forensic anthropologist for the North Carolina medical examiner looks forward to her first vacation in years A romantic vacation She's almost out the door when the bones start appearing A newborn's charred remains turn up in a woodstove The mother Tamela Banks hardly more than a child herself has disappeared Did she kill her infant or is an innocent teenager also about to become a victim A small plane crashes in a North Carolina cornfield on

a sunny afternoon Both pilot and passenger are burned beyond recognition Was it pilot error Something more sinister And what is the mysterious black substance covering the bodies Most puzzling of all are the bones discovered at a remote farm outside Charlotte What has Tempe's dog Boyd unearthed The remains seem to be of animal origin but Tempe is shocked when she gets them to her lab With help from a special detective friend Tempe must investigate a poignant and terrifying case that comes at the worst possible moment Is it time for emotional commitment Will she have the chance to find out Everything must wait on the bones What story do they tell Why are the X rays and DNA so perplexing Who is trying to keep Tempe from the answers Someone is following her Someone is following Katy That someone must be stopped before it's too late With the riveting authenticity that only world class forensic anthropologist Kathy Reichs can bring to her fiction *Bare Bones* asks important questions and thrills us to its pulsating end Fresh from the success of *Grave Secrets* Reichs proves once again that she is the consummate crime writing star

Writing Lovers Méira Cook, 2005-04-22 In writings by the French post structuralists rhetorical tropes such as speechlessness fragmentation and deflection testify to the writer's difficulty in broaching the subject of love Similarly Cook shows that love poetry proceeds out of a profound failure of language resulting from the opacity of discourse its lack of neutrality or the fugitive transparency of reference *Writing Lovers* also explores race ethnicity age and sexual identity within the context of the passionate excesses of amatory discourse

That's Raven Talk Mareike Neuhaus, 2011 Annotation A reading strategy for orality in North American Indigenous literatures that is grounded in Indigenous linguistic traditions

So Chill in the Bones Daniel C. Joneikies, 2014-03 This work covers a spectrum of not only raw emotion but that of fancy and fantasy Something a little macabre and eerie while weaving some fractals of beauty yet maintaining its integrity as a work of mental stimulation something for people to sink their imaginations into Some are life based observations and moments of shame shame from human action in this world and the environment's inhabitants other than ourselves A work of fiction and hopefully some shivers and dark rooted dread

Writing in Dust Jenny Kerber, 2011-03-17 *Writing in Dust* is the first sustained study of prairie Canadian literature from an ecocritical perspective Drawing on recent scholarship in environmental theory and criticism Jenny Kerber considers the ways in which prairie writers have negotiated processes of ecological and cultural change in the region from the early twentieth century to the present The book begins by proposing that current environmental problems in the prairie region can be understood by

examining the longstanding tendency to describe its diverse terrain in dualistic terms either as an idyllic natural space or as an irredeemable wasteland It inquires into the sources of stories that naturalize ecological prosperity and hardship and investigates how such narratives have been deployed from the period of colonial settlement to the present It then considers the ways in which works by both canonical and more recent writers ranging from Robert Stead W O Mitchell and Margaret Laurence to Tim Lilburn Louise Halfe and Thomas King consistently challenge these dualistic landscape myths proposing alternatives for the development of more ecologically just and sustainable relationships among people and between humans and their physical environments Writing in Dust asserts that reading environmentally can help us to better understand a host of issues facing prairie inhabitants today including the environmental impacts of industrial agriculture resource extraction climate change shifting urban rural demographics the significance of Indigenous understandings of human nature relationships and the complex often contradictory meanings of eco cultural metaphors of alien invasiveness hybridity and wildness

Modeling Ships and Space Craft Gina Hagler,2012-10-09 Modeling Ships and Space Craft The Science and Art of Mastering the Oceans and Sky begins with the theories of Aristotle and Archimedes moving on to examine the work of Froude and Taylor the early aviators and the Wright Brothers Goddard and the other rocket men and the computational fluid dynamic models of our time It examines the ways each used fluid dynamic principles in the design of their vessels In the process this book covers the history of hydrodynamic aero and fluid theory and its progression with some very accessible science examples including seminal theories Hydrodynamic principles in action are also explored with examples from nature and the works of man This is a book for anyone interested in the history of technology specifically the methods and science behind the use of scale models and hydrodynamic principles in the marine and aeronautical designs of today
