

Shift Lever Position Indicators

These indicators on the instrument panel show which position the shift lever is in. In the Sequential SportShift Mode, the "M" indicator next to the "D" indicator comes on, and the illuminated number under the low oil pressure indicator shows you the gear you have selected.

The "D" indicator comes on for a few seconds when you turn the ignition switch to the ON (II) position. If it flashes while driving (in any shift position), it indicates a possible problem in the transmission.

If the malfunction indicator lamp comes on along with the "D" indicator, there is a problem in the automatic transmission control system. *Avoid rapid acceleration, and have the transmission checked by your dealer as soon as possible.*

When the "D" indicator warns of a possible problem with the transmission, you will see a "CHECK TRANSMISSION" message on the multi-information display (see page 78).

Shifting

To shift from any position, press firmly on the brake pedal and slide the lever along the guide on the console. You cannot shift out of Park when the ignition switch is in the LOCK (0) or the ACCESSORY (I) position.
