

Abstract: This study examined the effects of a 12-week, 100% bodyweight resistance training program on the muscle strength, body composition, and cardiovascular fitness of sedentary, middle-aged men. The program was designed to be performed at home, with no equipment other than a resistance band. The program was performed three times per week, with one day of rest between sessions. The program consisted of three sets of 10 repetitions of each exercise, with a 30-second rest between sets. The exercises were performed in a circuit, with no rest between exercises. Clinical Infectious Diseases Study Guide Joseph Domachowske, Manika Suryadevara, 2020-08-05 This book is meticulously designed for the busy student trainee or seasoned physician looking to enhance or refresh skills in infectious diseases. It is intended to provide a solid resource for students and physicians in need of a concise yet comprehensive background of the material. Each chapter begins with a summary of the topic, a brief case description, definitions, critical teaching points, and tables, figures, photos, and other visual materials to reinforce learning. The chapters take a systems-based approach to infections before concluding with the essentials of diagnostic microbiology to leave users with a practical toolkit for real world clinics. Authored by two expert educators and dual infectious diseases and pediatrics specialists. **Clinical Infectious Diseases Study Guide** is the only updated study guide designed for medical students, fellows, residents, and trainees who need a strong foundation in infectious diseases. This includes infectious disease specialists in both adult and pediatric care, various internal medicine subspecialists, and hospitalists.
