

GRANT APPLICATION GUIDELINES

PAST invites applications for grants, bursaries, conferences and publications from researchers, educators and post-graduate students at African institutions in support of projects involving palaeo-anthropology, palaeontology, prehistoric archaeology and cognate disciplines. Five categories of funding are available:

- 1) Post-graduate degree support
- 2) Technical training and capacity support
- 3) Young African scientist development
- 4) Research project support
- 5) Conference and publication support. Deadlines for all applications are quarterly and it is up to the applicant to apply in good time.

Deadlines are: 01 February; 01 May; 01 August; 01 November. Where possible results will be communicated within 3 months of deadline date.

Grants are made to the institution with whom the applicant is affiliated. Applicants from countries outside of Africa will be considered only for projects within Africa and with significant long-term association with a relevant African institution, including collaboration with Africa-based scientists. In addition, such applicants must provide reasons why their research is not supported by their own institutions. Applications from organisations with interests in the above-mentioned fields of origin sciences may also be considered. We also support scientific conferences, workshops and academic publications in these areas. Non-African applicants for degree support will be considered but are not a high priority. Each application is considered individually and PAST does not enforce strict directives as each case has its own merit. Therefore, if you are unsure whether your application qualifies for consideration, please contact the CEO.

- Progress reports are due BEFORE renewal applications, and at the end of your project.
- Applicants must complete the application form after reading the application guidelines (available on website). Incomplete or incorrectly completed applications will automatically be rejected. Applications with unnecessary additions (photos or sketches) will also be rejected.
- In the application form the project details should state the research problem explicitly, justify its importance, and describe how the problem will be addressed. For students, please also provide a brief statement on the manner in which the work covered by this proposal will contribute to the development or completion of your thesis research. Provide a research schedule, and a brief statement on the logistical and administrative (e.g., permits) feasibility of the work. Do not include photos or sketches unless crucial.
- Applications must be accompanied by a supporting letter from the African institution involved. For students, a supporting letter from the academic supervisor and/or the head of department is required.
