TF201 Series

ASUS is devoted to creating environment-friendly products/ packagings to safeguard consumers' health while minimizing the impact on the environment. The reduction of the number of the manual pages complies with the reduction of carbon emission.

For the detailed user manual and related information, refer to the user manual included in the device or visit the ASUS Support Site at <http://support.asus.com/>

Charging Your Batteries

If you intend to use battery power, be sure to fully charge your battery pack before going on long trips. Remember that the power adapter charges the battery pack as long as it is plugged into the computer and an AC power source. Be aware that it takes much longer to charge the battery pack when the Eee Pad is in use.

Remember to fully charge the battery (8 hours or more) before first use and whenever it is depleted to prolong battery life. The battery reaches its maximum capacity after a few full charging and discharging cycles.

Airplane Precautions

Ask an airline personnel if you want to use your Eee Pad onboard an aircraft. Most airlines have restrictions for using electronic devices. Most airlines allow electronic use only between and not during takeoffs and landings.

There are three main types of airport security devices: X-ray machines (used on items placed on conveyor belts), magnetic detectors (used on people walking through security checks), and magnetic wands (hand-held devices used on people or individual items). You can send your Eee Pad through airport X-ray machines. But do not send your Eee Pad through airport magnetic detectors or expose it to magnetic wands.

thermal stresses owing to a hot spot in a rectangular strip - Apr 16 2023

web jun 23 2021 abstract the thermal stresses for the plane stress problem of a circular hot spot in an infinitely long straight strip of rectangular cross section are derived by a fourier integral approach the hot spot is located on the longitudinal center line of the strip and its radius is such that the boundary of the hot spot is tangent to both edges of the strip the
