Michael Glenn Maness,2010-12 Witch Politics in Early Modern Europe (1400-1800) Stephan Quensel,2023-06-26 Why does an entire society believe that there are witches who must be burned What roles did the emerging state the professions of clerics and jurists and the public involved play in each case And how could this project be completed From a sociological point of view the findings of recent international research on witches provide a model of a more general highly ambivalent pastoral attitude according to which a shepherd has to care for the welfare of his flock as well as for its erring sheep The first main part describes the clerical initial situation which developed the Dominican demonological model of witchcraft on the basis of the still dominant magico religious mentality in the 15th century A model according to the second part of the book which then in the course of the 16th century in Western Europe increasingly fell into the hands of the not so innocent jurists From there it developed into a legal witch persecution that realized the early European witch model from the village witch to the mass persecutions to the late child witches The third part describes how witch persecutions slowly became less important towards the end of the 17th century as a general witchcraft politics game in the transition from a confessional state to a court civil service state **Evangelical Magazine and Gospel Advocate** ,1834 Gnomologia Thomas Fuller,1732
