The Mind Of Stalin A Psychoanalytic Study By Daniel Rancour Laferriere:

The Mind of Stalin Daniel Rancour-Laferriere,1988 *Stalin in Russian Satire, 1917-1991* Karen L. Ryan,2009-11-24

During Stalin's lifetime the crimes of his regime were literally unspeakable. More than fifty years after his death Russia is still coming to terms with Stalinism and the people's own role in the abuses of the era. During the decades of official silence that preceded the advent of glasnost Russian writers raised troubling questions about guilt, responsibility and the possibility of absolution. Through the subtle vehicle of satire they explored the roots and legacy of Stalinism in forms ranging from humorous mockery to vitriolic diatribe. Examining works from the 1917 Revolution to the fall of the Soviet Union in 1991, Karen L. Ryan reveals how satirical treatments of Stalin often emphasize his otherness, distancing him from Russian culture. Some satirists portray Stalin as a madman. Others show him as feminized, animal-like, monstrous or diabolical. Stalin has also appeared as the unquiet dead, a spirit that keeps returning to haunt the collective memory of the nation. While many writers seem anxious to exorcise Stalin from the body politic, for others he illuminates the self in disturbing ways. To what degree Stalin was and is in us is a central question of all these works. Although less visible than public trials, policy shifts or statements of apology, Russian satire has subtly yet insistently participated in the protracted process of de-Stalinization.

Self-analysis in Literary Study Daniel Rancour-Laferriere,1994-10. What makes one reader look for issues of social conformity in Kafka's *Metamorphosis* while another concentrates on the relationship between Gregor Samsa and his father? Self Analysis in Literary Study investigates how the psychoanalytic self analysis enables readers to gain a deeper understanding of literature as well as themselves. In the past scholars have largely ignored self analysis as an aid to approaching literature. The contributors in *Self Analysis in Literary Study* boldly explore how the psyche affects intellectual discovery in the realm of applied psychoanalysis. Jeffrey Berman confronts a close friend's suicide through Camus and his student's diaries kept for an English class. Language, family history and an attachment to Kafka are addressed in David Bleich's essay. Barbara Ann Schapiro writes of her attraction to Virginia Woolf during her emotional senior year of college. Other essayists include Daniel Rancour-Laferriere, Norman N. Holland, Bernard J. Paris, Steven Rosen and Michael Steig. Written for both scholars in the fields of psychology and literature and for a general audience intrigued by self analysis as a tool for gaining insight, *Self Analysis in Literary Study* answers traditional questions about literature and raises challenging new ones.

The Sign of the Cross Daniel Rancour-Laferriere,2017-09-08. This book presents a unique effort to create a new understanding of the Christian sign of the cross. At its core it traces the conscious and unconscious influence of this visual symbol through time. What began as the crucifixion of a Jewish troublemaker in Roman-occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment: a cross. The author argues that Jesus was a provocative, grandiose masochist whose suffering and death initially signified redemption for believers. This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non-believers.

however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion Intelligence Success and Failure Uri
