

The background of the cover is a detailed illustration in a Pre-Columbian style, likely from a Mesoamerican manuscript. It depicts several figures in traditional attire. One figure on the right is seated and holding a long staff or pole. Another figure on the left is standing and holding a staff. A large, ornate vessel or structure is visible in the center. The illustration is rendered in earthy tones of brown, tan, and red.

Prehistoric Copper Mining in Michigan John R. Halsey, 2018-01-01 Isle Royale and the counties that line the northwest coast of Michigan's Upper Peninsula are called Copper Country because of the rich deposits of native copper there In the nineteenth century explorers and miners discovered evidence of prehistoric copper mining in this region They used those ancient diggings as a guide to establishing their own much larger mines and in the process destroyed the archaeological record left by the prehistoric miners Using mining reports newspaper accounts personal letters and other sources this book reconstructs what these nineteenth century discoverers found how they interpreted the material remains of prehistoric activity and what they did with the stone wood and copper tools they found at the prehistoric sites This volume represents an exhaustive compilation of the early written and published accounts of mines and mining in Michigan's Upper Peninsula It will prove a valuable resource to current and future scholars Through these

early historic accounts of prospectors and miners Halsey provides a vivid picture of what once could be seen John M O Shea curator of Great Lakes Archaeology University of Michigan Museum of Anthropological Archaeology *Index of Conference Proceedings* British Library. **“And in Length of Days Understanding” (Job 12:12)** Erez Ben-Yosef,Ian W. N. Jones,2023-08-01 This two volume book presents cutting edge archaeological research primarily as practiced in the Eastern Mediterranean region These volumes key foci are inspired by the work of Thomas E Levy Volume 1 provides an in depth look at new archaeological research in the southern Levant primarily in modern Israel and Jordan inspired by Levy s commitment to understanding social political and economic processes in a long term or deep time perspective Volume 2 focuses on new research in several key areas of 21st century anthropological archaeology and archaeological science Volume 1 is organized around two major themes 1 the later prehistory of the southern Levant or the Neolithic Chalcolithic and Bronze Age and 2 new research in

biblical archaeology or the historical archaeology of the Iron Age Each section contains a combination of new perspectives on key debates and studies introducing new research questions and directions Volume 2 is organized around five major themes

- 1 the archaeology of the Faynan copper ore district of southern Jordan a key region for archaeometallurgical research in West Asia where Levy conducted field research for over a decade
- 2 new research in archaeometallurgy beyond the Faynan region
- 3 marine and maritime archaeology focusing on issues of trade and environmental change
- 4 cyber archaeology an important 21st century field Levy conceived as the marriage of archaeology engineering computer science and the natural sciences
- 5 key issues in anthropological archaeological theory

In addition to presenting the reader with an up to date view of research in each of these areas the volume also has chapters exploring the connections between these themes e g the maritime trade of metals and cyber digital archaeological approaches to metallurgy The work contains contributions from both up and coming early career researchers and key established figures in their fields This book is an essential reference for archaeologists and scholars in related disciplines working in the southern Levant and the Eastern Mediterranean

**The Cambridge World Prehistory** Colin Renfrew, Paul Bahn, 2014-06-09 The Cambridge World Prehistory provides a systematic and authoritative examination of the prehistory of every region around the world from the early days of human origins in Africa two million years ago to the beginnings of written history which in some areas started only two centuries ago Written by a team of leading international scholars the volumes include both traditional topics and cutting edge approaches such as archaeolinguistics and molecular genetics and examine the essential questions of human development around the world The volumes are organised geographically exploring the evolution of hominins and their expansion from Africa as well as the formation of states and development in each region of different technologies such as seafaring metallurgy and food production The Cambridge World Prehistory reveals a rich and complex history of the world It will be an invaluable resource for any student or scholar of archaeology and related disciplines looking to research a particular topic tradition region or period within prehistory

Wonderful Power Susan R. Martin, 1999 Long before the arrival of European settlers Native Americans in the Lake Superior basin mined and worked copper and traded it well beyond the region They directed white settlers to copper lodes and explained the mineral s significance and wonderful power Wonderful Power examines the archaeological record to relate the story of that unique industry Susan Martin has collected critical but scattered information about the uses of ancient copper to address long standing puzzles over how long it had been used where it was mined and who these ancient coppersmiths were
