economics this analysis casts a new light on recent architecture Starting with the lead up to events in the 1990s links are established between the global dominance of the North Atlantic economies architectural style and a dramatic increase in international architectural practice The widely observed homogeneity of the global consumer economy is examined in relation to branding tourism and international competition between cities and parallels are drawn with universal architectural and urban types iconic architecture and the rise of the star architect Contrasting pressures to maintain differences are identified in the break up of nation states identity politics targeted marketing and environmentalism and these are related to attempts to reinforce local identity through architecture and urban design Using social political and economic change as a guide to new directions in architecture and urban design the book ends by tracing the changes in global power revealed by the 2008 Western financial crash and its immediate impact on the built environment By comparing past patterns of cultural influence the book speculates on how architecture and urban design may come to reflect wider global trends

Contemporary Architects Ann Lee Morgan, Colin Naylor, 1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor's note

Companion to Contemporary Architectural Thought Ben Farmer, Dr Hentie J Louw, Hentie Louw, Adrian Napper, 2003-09-02 Architecture has attracted increasing worldwide attention in recent years not only because of its cultural significance but also because of concern over the performance and resource implications of buildings 101 in depth articles by international scholars and practitioners bring the subject into focus by examining issues from various viewpoints Please contact your representative for a leaflet detailing full contents and contributors It also includes sample pages and several illustrations from the book

Oxford Dictionary of National Biography 2005-2008 Lawrence Goldman, 2013-03-07 Who made modern Britain This book drawn from the award winning Oxford Dictionary of National Biography tells the story of our recent past through the lives of those who shaped national life Following on from the Oxford DNB's first supplement volume noteworthy people who died between 2001 and 2004 this new volume offers biographies of more than 850 men and women who left their mark on twentieth and twenty first century Britain and who died in the years 2005 to 2008 Here are the people responsible for major developments in national life from politics the arts business technology and law to military service sport education science and medicine Many are closely connected to specific periods in Britain's recent history From the 1950s the young Harold Pinter or the Yorkshire cricketer Fred Trueman for example From the Sixties the footballer George Best photographer Patrick Lichfield and the Pink Floyd musician Syd Barrett It's hard to look back to the 1970s without thinking of Edward Heath and James Callaghan who led the country for seven years in that turbulent decade or similarly Freddie Laker pioneer of budget air travel and the

comedians Ronnie Barker and Dave Allen who entertained with their sketch shows and sit coms A decade later you probably browsed in Anita Roddick's Body Shop or danced to the music of Factory Records established by the Manchester entrepreneur Tony Wilson In the 1990s you may have hoped that Things can only get better with a New Labour government which included Robin Cook and Mo Mowlam Many in this volume are remembered for lives dedicated to a profession or cause Bill Deedes or Conor Cruise O'Brien in journalism Ned Sherrin in broadcasting or indeed Ted Heath whose political career spanned more than 50 years Others were responsible for discoveries or innovations of lasting legacy and benefit among them the epidemiologist Richard Doll who made the link between smoking and lung cancer Cicely Saunders creator of the hospice movement and Chad Varah founder of the Samaritans With John Profumo who gave his name to a scandal policeman Malcolm Fewtrell who investigated the Great Train Robbery or the Russian dissident Aleksandr Litvinenko who was killed in London in 2006 we have individuals best known for specific moments in our recent past Others are synonymous with popular objects and experiences evocative of recent decades Mastermind with Magnus Magnusson the PG Tips chimpanzees trained by Molly Badham John DeLorean's gull wing car or the new British Library designed by Colin St John Wilson though as rounded and balanced accounts Oxford DNB biographies also set these events in the wider context of a person's life story Authoritative and accessible the biographies in this volume are written by specialist authors many of them leading figures in their field Here you will find Michael Billington on Harold Pinter Michael Crick on George Best Richard Davenport Hines on Anita Roddick Brenda Hale on Rose Heilbron Roy Hattersley on James Callaghan Simon Heffer on John Profumo Douglas Hurd on Edward Heath Alex Jennings on Paul Scofield Hermione Lee on Pat Kavanagh Geoffrey Wheatcroft on Conor Cruise O'Brien and Peregrine Worsthorne on Bill Deedes Many in this volume are naturally household names But a good number are also remembered for lives away from the headlines What in the 1980s became Thatcherism owed much to behind the scenes advice from Ralph Harris and Alfred Sherman children who learned to read with Ladybird Books must thank their creator Douglas Keen while without its first producer Verity Lambert there would have been no Doctor Who Others are ordinary people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in another factory Awarded the George Cross and the George Medal Bywater remains the only non-combatant to have received Britain's two highest awards for civilian bravery

Modernism and the Professional Architecture Journal Torsten Schmiedeknecht, Andrew Peckham, 2018-06-27 The production of this book stems from two of the editors' longstanding research interests: the representation of architecture in print media and the complex identity of the second phase of modernism in architecture given the role it played in postwar

reconstruction in Europe While the history of postwar reconstruction has been increasingly well covered for most European countries research investigating postwar architectural magazines and journals across Europe their role in the discourse and production of the built environment and particularly their inter relationship and differing conceptions of postwar architecture is relatively undeveloped Modernism and the Professional Architecture Journal sounds out this territory in a new collection of essays concerning the second phase of the reception and assimilation of modernism in architecture as it was represented in professional architecture journals during the period of postwar reconstruction 1945 1968 Professional architecture journals are often seen as conduits of established facts and knowledge The role mainstream publications play however in establishing movements trends or debates tends to be undervalued In the context of the complex undertaking of postwar reconstruction the shortage of resources political uncertainty and the biographical complexities of individual architects the chapters on key European architecture journals collected here reveal how modernist architecture and its discourse was perceived and disseminated in different European countries *Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl* Avery Library,1973

Small Town Sustainability Paul Knox,Heike Mayer,2012-11-05 In an era in which the individuality and vitality of small towns are under threat from globalization and city planning discussions tend to center on topics like metropolitan regions megaregions and global cities the authors of this volume see a need to reflect critically on the potential of small towns They show how small towns can meet the challenge of a fast paced globalized world and they use case studies to introduce movements programs and strategies capable of effectively promoting local cultures traditions identities and sustainability Small towns often play critical roles in regional economic systems When small towns focus on their specific characteristics and take advantage of their opportunities they can become stable niches within regional national and global economies and take on an

important role in shaping a sustainable future In einer Zeit in der der Prozess der Globalisierung die Besonderheiten kleiner Städte und ihre Vitalität bedroht und in der sich die meisten stadtplanerischen Diskussionen um Themen wie Metropolregionen oder Mega-Regionen und Weltstädte drehen sehen die Autoren die Notwendigkeit das Potenzial kleiner Ortschaften kritisch zu reflektieren Sie veranschaulichen wie Kleinstädte die Herausforderung einer schnelllebigen und globalisierten Welt annehmen können und stellen anhand von Fallbeispielen Bewegungen Programme und Strategien vor die örtliche Kulturen Traditionen Identitäten und Nachhaltigkeit effektiv zu fördern wissen Kleinstädte spielen oftmals eine entscheidende Rolle innerhalb regionaler Wirtschaftssysteme Wenn Kleinstädte sich auf ihre spezifischen Eigenschaften konzentrieren und ihre Möglichkeiten nutzen können sie zu stabilen Nischen in regionalen nationalen und globalen Ökonomien werden und wesentlich dazu beitragen eine nachhaltige Zukunft zu gestalten

Learning from the Japanese City Barrie Shelton, 2012-05-23 Japanese cities are amongst the most intriguing and confounding anywhere Their structures patterns of building and broader visual characteristics defy conventional urban design theories and the book explores why this is so Like its cities Japan's written language is recognized as one of the most complicated and the book is unique in revealing how the two are closely related Set perceptively against a sweep of ideas drawn from history geography science cultural and design theory Learning from the Japanese City is a highly original exploration of contemporary urbanism that crosses disciplines scales time and space This is a thoroughly revised and much extended version of a book that drew extensive praise in its first edition Most parts have stood the test of time and remain A few are replaced or removed about a hundred figures appear for the first time Most important is an entirely new sixth section This brings together many of the urban characteristics otherwise encountered in fragments through the book in one walkable district of what is arguably Japan's most convenient metropolis Nagoya The interplay between culture built form and cities remains at the heart of this highly readable book while a change in subtitle to Looking East in Urban Design reflects increased emphasis on real places and design implications

Urban Planning During Socialism Jasna Mariotti, Kadri Leetmaa, 2023-10-30 Urban Planning During Socialism delves into the evolution of cities during the period of state socialism of the 20th century summarizing the urban and architectural studies that trace their transformations The book focuses primarily on the periphery of the socialist world both spatially and in terms of scholarly thinking The case study cities presented in this book draw on cultural and material studies to demonstrate diverse and novel concepts of periphery through transformations of socialist cityscapes rather than homogenous views on cities during the period of state socialism of the 20th century In doing so the book explores the transversalities of political economic and social phenomena the places for everyday life in socialist cities the role of professional communities on production and reproduction of space and ecological thinking This book is aimed at scholarly readership in particular scholars in architecture urban planning and human geography as well as undergraduate graduate

and post graduate students in these disciplines studying the urban transformation of cities after World War II in socialist countries It will also be of interest for planning officials architects policymakers and activists in former socialist countries

Nordic Classicism John Stewart, 2018-09-06 Nordic Classicism presents the first English language survey of an important yet short lived movement in modern architectural history It was through the Nordic classical movement that Scandinavian architecture first attracted international attention It was the Nordic Pavilions rather than Le Corbusier's modernism which generated most admiration at the 1925 World Fair and it was the Nordic classical architects including Gunnar Asplund Sigurd Lewerentz and Alvar Aalto who went on to establish Scandinavia's reputation for modern design Yet this brief classical movement was quickly eclipsed by the rise of international modernism and has often been overlooked in architectural studies The book explores the lives and works of various key contributors to Nordic classicism with eleven chapters each focussing on a different architect and on one of the period's outstanding works including the Stockholm Central Library the Resurrection Chapel and the Woodland Cemetery Famous architects and their works are examined alongside many lesser known examples to provide a comprehensive and in depth account As we approach the centenary of many of the events to which the book refers now is a timely opportunity to explore the key themes of the Nordic classical movement its architects their buildings and the social and cultural changes to which they were responding *Current*

Architecture Charles Jencks, William Chaitkin, 1982 **Floor Plan Manual Housing** Oliver Heckmann, Friederike Schneider, 2017-10-10 Revised edition of the reference work The Floor Plan Manual Housing has for decades been a seminal work in the field of architecture In its 5th revised and expanded edition approximately 160 international housing projects built after 1945 are documented and analyzed The focus is on exemplary and transferrable projects and on innovative and trendsetting concepts The systematic representation of all projects allows the reader to compare and evaluate various floor plans and to be inspired by the wealth of ideas and strategies for one's own design work The introductory theoretical and historical essays have been newly written or updated and offer a structured overview of the residential housing typology and its development Fifth revised edition with new projects and contributions With upgraded visual appearance and a new key color Access to the content is facilitated by various index functions *The Architects' Journal*, 1981-02
