The Long Millennium Mark Jarzombek, 2023-12-01 This book argues that long distance trade in luxury items such as diamonds gold cinnamon scented woods ivory and pearls all of which require little overhead in

their acquisition and were relatively easy to transport played a foundational role in the creation of what we would call global trade in the first millennium CE The book coins the term dark matter economy to better describe this complex though mostly invisible relationship to normative realities The first full integration of dark matter economy with the emerging global flows took place in South India and Sri Lanka at the beginning of the millennium The book then moves to other places in the world sweet spots where a particular type of affluence was generated through the trade in luxury goods This upstream affluence manifested itself in the creation of shrines palaces temples and engineering works that all thickened the landscape of memory control and extraction and also served as a defense mechanism against intrusions from afar The book also explains the collapse of dark matter economy as a result of the cumulative energies of colonialism modernization and nationalism that make it hard for us today to come to terms with this history The Long Millennium will appeal to students and scholars alike studying the trade networks and economics of the early Middle Ages as well as anyone interested in the effect of trade on medieval society in the first millennium CE *Homing the Machine in Architecture* Galo Canizares, Zach Cohen, 2024-03-11

Homing the Machine in Architecture is a series of conversations on the ways designers practitioners historians and theorists orient themselves within the world of architectural digital fabrication To home a digital fabrication machine is to send it back to its origin point a point that can be specified by the fabricator in advance of the fabrication process or by the defaults that are pre programmed into the machine The homing process is necessary and productive since it determines the physical point at which the machine and the maker begin making every time that architectural designers begin to digitally fabricate something new they first need to home the machine This book gathers first and second hand accounts of the origins of individual digi fab practices from the emergence of advanced prototyping tools to the contemporary moment It features interviews essays and case studies organized around three questions What are the possible histories of digital fabrication in architecture How do designers orient themselves in this emergent discipline What conceptual original points do architectural designers return to when they home their machines The discourse that emerges from this collection aims to reach practicing architects using digital fabrication as well as upper level students and academics of digital architecture architectural theory and architectural history

Introducing Architectural Tectonics Chad Schwartz, 2025-08-29 The second edition of *Introducing Architectural Tectonics* is an exploration of the poetics of construction Tectonic theory is an integrative philosophy examining the relationships formed between design construction and space while creating or experiencing a work of architecture In this text author Chad Schwartz presents an introductory investigation into tectonic theory subdividing it into distinct concepts in order to make it accessible to beginning and advanced students alike The book centers on the tectonic analysis of twenty contemporary works of architecture located in over a dozen countries across the globe Germany Italy Burkina Faso the United States Chile Japan Bangladesh Mexico Spain Australia and more and designed by notable architects such as Tadao Ando Herzog de Meuron Kengo Kuma Peter Zumthor Xu Tiantian and Francis K r Although

similarities do exist between the projects their distinctly different characteristics and range of interpretations of tectonic expression provide the most significant lessons to help you learn about tectonic theory This second edition has been updated to include the tectonic analysis of four new architectural precedents From Nigeria the Makoko Floating School by NL From Burkina Faso Lyc e Schorge by K r Architecture From Mexico the Matamoros Public Market by Colectivo C733 From China Quarry 8 by DnA_Design and Architecture Written in clear accessible language these investigations examine the poetic potential of architecture presenting lessons and concepts that you can integrate into your own work whether studying in a university classroom or practicing in a professional office

Culture and Rural-Urban Revitalisation in South Africa Mziwoxolo Sirayi, Modimowabarwa Kanyane, Giulio Verdini, 2021-06-14 This book captures ground breaking attempts to utilise culture in territorial development and regeneration processes in the context of South Africa and our new normal brought by COVID 19 the fourth industrial revolution and climate change the world over The importance of culture in rural urban revitalisation has been underestimated in South Africa and the African continent at large Despite some cultural initiatives that are still at developmental stages in big cities such as Johannesburg eThekweni and Cape Town there is concern about the absence of sustainable policies and plans to support culture creativity and indigenous knowledge at national and municipal levels Showcasing alternative strategies for making culture central to development this book discusses opportunities to shift culture and indigenous knowledge from the peripheries and place them at the epicentre of sustainable development and the mainstream of cultural planning which can then be applied in the contexts of Africa and the Global South Governmental institutions research councils civil society organisations private sector and higher education institutions come together in a joint effort to explain the nexus between culture economic development rural urban linkages grassroots and technological innovations Culture and Rural Urban Revitalization in South Africa is an ideal read for those interested in rural and urban planning cultural policy indigenous knowledge and smart rural village model

Toward a New Culture of the Material Frank Bauer, Yoonha Kim, Sabine Marienberg, Wolfgang Schäffner, 2024-09-03
What happens when we begin treating multi stable ambivalent and adaptive behaviors of active matter as a formative
principle The contributions of this volume investigate the potential of the processual and untamable ranging from microbial
co designing morphogenetic experimentation and atmospheric creation to plasticity and liveliness in architecture history of
art and scientific concepts Walking the line between analog and digital forms the 19 perspectives from the Cluster of
Excellence Matters of Activity not only cross disciplinary and methodological boundaries but also aim at installing a new
material paradigm between the epistemic cultures of sciences humanities and design Investigating a new culture of the
material Interdisciplinary views on active structures adaptive materials and sustainability **Building from Tradition**
Elizabeth M. Golden, 2017-12-22 Building from Tradition examines the recent resurgence of interest in the handmade
building and the use of local and renewable materials in contemporary construction In the past raw materials were shaped to
provide shelter and to accommodate the cultural social and economic needs of individuals and communities This is still true
today as architects engineers and builders turn once again to local resources and methods not simply for constructing
buildings but also as a strategy for supporting social engagement sustainable development and cultural continuity Building
from Tradition features global case studies that allow readers to understand how building practices developed and refined by
previous generations continue to be adapted to suit a broad range of cultural and environmental contexts The book provides
a survey of historical and technical information about geologic and plant based materials such as stone earth reed and grass
wood and bamboo 24 detailed case studies examining the disadvantages and benefits to using traditional materials and
methods and how they are currently being integrated with contemporary construction practices **Liangzhu Culture** Bin
Liu, Ling Qin, 2019-11-07 The Liangzhu Culture 3 300 2 300 BC represented the peak of prehistoric cultural and social
development in the Yangtze Delta With a wide sphere of influence centred near present day Hangzhou City Liangzhu City is
considered one of the earliest urban centres in prehistoric China Although it remains a mystery for many in the West
Liangzhu is well known in China for its fine jade crafting industry its enormous well structured earthen palatial compound
and recently discovered hydraulic system and its far flung impact on contemporary and succeeding cultures The

archaeological ruins of Liangzhu City were added to the UNESCO World Cultural Heritage List in July 2019 Liangzhu Culture contextualises Liangzhu in broad socio economic and cultural backgrounds and provides new first hand data to help explain the development and structure of this early urban centre Among its many insights the volume reveals how elites used jade as a means of acquiring social power and how Liangzhu and its centre stand in comparison to other prehistoric urban centres in the world This book the first of its kind published in the English language will be a useful guide to students at all levels interested in the material culture and social structures of prehistoric China and beyond *Lineages of the Global City* Shibei Banerji, 2025 The forgotten history of the occult foundations of the early twentieth century global city
