Diouf, 2003-10-24 While most studies of the slave trade focus on the volume of captives and on their ethnic origins the question of how the Africans organized their familial and communal lives to resist and assail it has not received adequate attention But our picture of the slave trade is incomplete without an examination of the ways in which men and women responded to the threat and reality of enslavement and deportation Fighting the Slave Trade is the first book to explore in a systematic manner the strategies Africans used to protect and defend themselves and their communities from the onslaught of the Atlantic slave trade and how they assaulted it It challenges widely held myths of African passivity and general complicity in the trade and shows that resistance to enslavement and to involvement in the slave trade was much more pervasive than has been acknowledged by the orthodox interpretation of historical literature Focused on West Africa the essays collected here examine in detail the defensive protective and offensive strategies of individuals families communities and states In chapters discussing the manipulation of the environment resettlement the redemption of captives the transformation of social relations political centralization

Food in Time and Place Paul Freedman, Joyce E. Chaplin, Ken Albala, 2014-10-31 Food and cuisine are important subjects for historians across many areas of study Food after all is one of the most basic human needs and a foundational part of social and cultural histories Such topics as famines food supply nutrition and public health are addressed by historians specializing in every era and every nation Food in Time and Place delivers an unprecedented review of the state of historical research on food endorsed by the American Historical Association providing readers with a geographically chronologically and topically broad understanding of food cultures from ancient Mediterranean and medieval societies to France and its domination of haute cuisine Teachers students and scholars in food history will appreciate coverage of different thematic concerns such as transfers of crops conquest colonization immigration and modern forms of globalization

The ^ASlave Trade and the Origins of International Human Rights Law Jenny S. Martinez, 2011-06-15 Jenny Martinez shows in this groundbreaking volume that the international human rights movement has its roots in one of the nineteenth century s central moral causes the movement to ban the international slave trade Martinez focuses in particular on the international admiralty courts which tried the crews of captured slave ships The courts which were based in the Caribbean West Africa Cape Town and Brazil helped free at least 80 000 Africans from captured slavers between 1807 and 1871 Here buried in the dusty archives of admiralty courts ships logs and the British foreign office Martinez uncovers the foundations of contemporary human rights law international courts targeting states and non state transnational actors while working on behalf the world s most persecuted peoples captured West Africans bound for the slave plantations of the Americas Fueled by a powerful thesis and novel evidence Martinez s work will reshape the fields of human rights history and international human rights law The Political Economy of the Interior Gold Coast Jarvis L. Hargrove, 2015-12-09 This book

analyzes the Gold Coast and the Asante kingdom in the years following the abolition of the transatlantic slave trade and prior to the start of colonial rule The Asante state one of the largest in the Gold Coast and West Africa after the eighteenth century is the central focus of this work Studying their transition from a large scale supplier of captives to the transatlantic slave trade to traders in legitimate goods is a critical component that should be analyzed across West Africa This work highlights the political and economic relationships between the interior Asante state with surrounding African groups and Europeans chiefly British traders who entered the region in the eighteenth and nineteenth centuries Trading Spaces Emma Hart, 2024-07-06 Looks at the shift from the marketplace as an actual place to a theoretical idea and how this shaped the early American economy When we talk about the economy the market is often just an abstraction While the exchange of goods was historically tied to a particular place capitalism has gradually eroded this connection to create our current global

trading systems In *Trading Spaces* Emma Hart argues that Britain's colonization of North America was a key moment in the market's shift from place to idea with major consequences for the character of the American economy Hart's book takes in the shops auction sites wharves taverns fairs and homes of seventeenth and eighteenth century America places where new mechanisms and conventions of trade arose as Europeans re-created or adapted continental methods to new surroundings Since those earlier conventions tended to rely on regulation more than their colonial offspring did what emerged in early America was a less fettered brand of capitalism By the nineteenth century this had evolved into a market economy that would not look too foreign to contemporary Americans To tell this complex transnational story of how our markets came to be Hart looks back farther than most historians of US capitalism rooting these markets in the norms of seventeenth and eighteenth century Britain Perhaps most important this is not a story of specific commodity markets over time but rather is a history of the trading spaces themselves the physical sites in which the grubby work of commerce occurred and where the market itself was born

Splintered Jonathan Butcher, 2022-03-22 The problem with our nation's schools today is not just the low test scores in basic reading and math which are an obstacle for the economy not to mention students' futures The challenge is that K-12 instruction has been hijacked by Critical Theorists who are skeptical of representative government and the freedoms we cherish The debates over the retelling of America's past on display in local school board meetings as well as conflicts between the New York Times 1619 Project and President Donald Trump's 1776 Commission involve not just historical facts but how Americans define their nation This battle over our national identity is a cultural battle involving schools cultural institutions and the ideas we all need to share to get along with our neighbors raise families and pursue the American Dream Jonathan Butcher is one of our sharpest and most insightful analysts writing about education today The nation owes him a debt of gratitude for work demystifying an obscure academic field critical race theory and fearlessly following where it leads when imposed on our public schools abandoning the cherished belief that education can be a means of uniting our diverse country and replacing it with a pedagogy of grievance and despair Robert Pondiscio Senior Fellow American Enterprise Institute and author of *How the Other Half Learns* Jonathan Butcher's timely book on critical race theory addresses what I have described as the civil rights issue of our times Too few Americans understand how this dangerous ideology and how it has seeped down into our K-12 educational system Butcher's book is part of a collective effort to educate the American people about the infiltration and indoctrination of our educational system Dr Carol M Swain a former tenured professor at Vanderbilt and Princeton Universities

Henderson,Jeanne Scheper,Gene Melton,2024-05-31 The Specter and the Speculative Afterlives and Archives in the African Diaspora engages in a critical conversation about how historical subjects and historical texts within the African Diaspora are re fashioned re animated and re articulated as well as parodied nostalgized and defamiliarized to establish an afterlife for African Atlantic identities and narratives These essays focus on transnational transdisciplinary and transhistorical sites of memory and haunting textual visual and embodied performances in order to examine how these living archives circulate and imagine anew the meanings of prior narratives liberated from their original context Individual essays examine how historical and literary performances in addition to film drama music dance and material culture thus revitalized transcend and speak across temporal and spatial boundaries not only to reinstate traditional meanings but also to motivate fresh commentary and critique Emergent and established scholars representing diverse disciplines and fields of interest specifically engage under explored themes related to afterlives archives and haunting

Liminality in Tourism Robert S. Bristow,Ian Jenkins,2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism Liminality in Tourism Spatial and Temporal Considerations aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically

transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal Tourism Geographies
