A Modern History Of Hong Kong:

A Modern History of Hong Kong Steve Tsang, 2003-12-31 This major history of Hong Kong tells the remarkable story of how a cluster of remote fishing villages grew into an icon of capitalism. The story began in 1842 with the founding of the Crown Colony after the First Anglo Chinese war, the original Opium War. As premier power in Europe and an expansionist empire, Britain first created in Hong Kong a major naval station and the principal base to open the Celestial Chinese Empire to trade. Working in parallel with the locals, the British built it up to become a focus for investment in the region and an international centre with global shipping, banking and financial interests. Yet by far the most momentous change in the history of this prosperous capitalist colony was its return in 1997 to Mother China, the most powerful Communist state in the world.

A New Documentary History of Hong Kong, 1945-1997 Florence Mok, Fung Chi Keung Charles, 2025-03-17 In *A New Documentary History of Hong Kong 1945-1997* Florence Mok, Fung Chi Keung Charles and other contributors analyse newly released archival records from the National Archives in London, the Government Records Service in Hong Kong and other sources across the world. This documentary collection provides an updated and improved understanding of basic aspects of the city such as governance, economy, society and culture. It also aims at investigating topics that are underexplored in previous sourcebooks such as race and diasporas, gender and familial relations, medicine and healthcare, and environment and natural disasters. Overall, this book offers an innovative and comprehensive long-term perspective of Hong Kong's colonial history. This book is far more than a collection of historical documents; it is a new history of Hong Kong from 1945 to 1997. As useful as these sources are for telling the history of Hong Kong during this period, just as valuable are the introductions and commentaries by the contributors. For while these sources tell us much about Hong Kong, this book is a powerful testament to the fact that it is historians who make historical documents speak and who give them meaning. John M. Carroll, University of

Hong Kong I find a commitment to academic sharing and altruism among the editors and contributors of this sourcebook. They shared with us the documents they covered in their own research. They identified those that were most relevant to capturing the essential features of Hong Kong society in their chosen areas of study. Tai Lok Lui, Education University of Hong Kong. A significant contribution from a new generation of Hong Kong historians: this collective effort provides clear and concise accounts of various aspects of Hong Kong's history. Their insights and meticulous work in uncovering archival materials and documentary sources will enable further inquiry and foster nuanced discussions among history enthusiasts and scholars. Ray Yep, University of Bristol.

The Macanese Diaspora in British Hong Kong Catherine S. Chan, 2025-10-01. Diaspora transformed the urban terrain of colonial societies, creating polyglot worlds out of neighborhoods, workplaces, recreational clubs and public spheres. It was within these spaces that communities reimagined and reshaped their public identities vis-à-vis emerging government policies and perceptions from other communities. Through a century of Macanese activities in British Hong Kong, *The Macanese Diaspora in British Hong Kong: A Century of Transimperial Drifting* explores how mixed-race diasporic communities survived within unequal, racialized and biased systems beyond the colonizer/colonized dichotomy. Originating from Portuguese Macau yet living outside the control of the empire, the Macanese freely associated with more than one identity and pledged allegiance to multiple communal, political and civic affiliations. They drew on colorful imaginations of the Portuguese and British empires in responding to a spectrum of changes encompassing Macau's woes, Hong Kong's injustice, Portugal's political transitions, global developments in print culture and the rise of new nationalisms during the inter-war period.

Hong Kong Documentary Film Ian Aitken, 2014-03-17. Described as the lost genre, the tradition of documentary film making in Hong Kong is far less known than its martial arts films. However, documentary film has always existed in Hong Kong and often trenchantly represents its troubled relationship to itself, China and the west. Including the period of colonial film making, the high points of television documentary and the tradition of independent documentary film making, this book is the first to present a comprehensive study of this lost genre. It explores the role of public service television, including representations of the massacre at Tiananmen Square, and presents critical analysis of key films. Based on original archival research, it will be an invaluable resource for students and academics who work in the fields
