A Moment Of Light Multidimensional Poetry:

A Moment of Light Richie Richards, 2015-05-16 I recently started reading this book of poems entitled A Moment of Light and once I started I could not put it down From the first page I felt an immediate feeling of calmness and a relief of tension The author Richie Landon Richards has managed to capture his experiences and to word it in a way which mirrors and explains one's own thoughts about the matter at hand In this fantastic artwork Richie has the rare ability of expressing spiritual experiences in such a way that people like us can relate to it and find common grounds with it But in addition to that he also possesses the necessary wisdom with which to speak authoritatively and give confident explanations to the experiences we have in life Amid all the wisdom included in this work one also discovers simplicity and straightforwardness Richie pens his poetry in such a way as to appeal to readers of every age and background And at the same time I also find his work comprehensive and complete He covers several areas of everyday experiences definitely some that you might find resonance with Amongst others he addresses the feeling of isolation and depression and our great task of shining our light where we are Each of these life experiences demand deep thinking and emotional feelings and all can easily remain unexplained if not addressed by someone that knows life inside out I strongly recommend Richie's poems It will be a great addition to your collection and an excellent read during your quiet time of rest Join Richie as he takes you on a journey through life and its experiences and you will surely emerge more knowledgeable more satisfied and therefore more at rest about the personal experiences you face

Life as Creative Constraint Anna Kemp,2021-08-15 Life as Creative Constraint is the first book to focus on the extraordinary life writing of the French experimental writing group the Oulipo The Oulipo s enthusiasm for literary games and formal gymnastics has seen its work caricatured as lifeless impressively virtuoso but more interested in form than content and ultimately disengaged from the world This book examines a broad corpus of work by Georges Perec Marcel B nabou Jacques Roubaud and Anne F Garr ta to show that despite the group s early devotion to the radical impersonality of mathematics later generations of oulipians have brought the group s fascination with systems games and constraints to bear on autobiography Far from being lifeless oulipian constraints and concepts provide the tools that allow writers to engage critically and creatively with lived experience and mine the potential of the autobiographical genre The games played by these writers are not simply pastimes or cunning writing techniques but modes of survival self examination self invention and relating to the world and to others As the title of Georges Perec s masterpiece suggests they are a mode d emploi for life

Mysticism, Ineffability and Silence in Philosophy of Religion Laura E. Weed, 2023-01-13 The authors in this volume explore a wide variety of the contemporary approaches to mystical and religious experience to elucidate what religious experience is in its own terms and how its practitioners understand it This anthology features contributions that point out that contemporary studies of consciousness sociology hermeneutics neuroscience medicine and other fields are revealing that there is much more to be said for the inner life of a human s consciousness than reductionists and behaviorists will allow This book is one of very few that primarily takes the stance of academic practitioners explaining their own experience rather than that of academics trying to explain the phenomena away as really politics or sociology or delusion or psychological pathology or literary flights of fancy or an aberration of any of the other academic fields Most of the authors in this volume embrace the task of explaining and analyzing religious experience mysticism and the healing power of silence and presence using the resources of all of the academic disciplines as appropriate The essays contained analyze religious and non religious mystical and profoundly personal experiences across several world religions and in areas such as art and music as well as in solving personal crises such as family disruption and patriarchal oppression The authors address the subject matter through analyses of the frequent and destructive failures of language or just noise to capture or express the nuances of the inner life of a person It is this very ineffability of self that renders the spiritual emotional and interior life of individuals beyond cognition and perception of the straightforward sorts embraced by most cognitive disciplines The contributors come from a variety of cross disciplinary fields to bring forth the possibilities for an intuitive and creative rich and growing inner life for a human This text appeals to students researchers and practitioners

Literature and Science , 2023-12-14 Taking as a starting point the embeddedness of all disciplinary and interdisciplinary inquiry since interdisciplinarity is itself not a unitary phenomenon but encompasses many different knowledge practices embedded in widely differing political economic and ideological constituencies the essays in this volume explore in different ways some of the conversations currently taking place across disciplinary boundaries in the exciting new field of literature and science Like literature science is seen as a site of competing ideological constructions as a complex and richly ambiguous element of modern and postmodern social discourse circulating in a wider cultural community where its currency fluctuates according to complex changes in social and epistemic conditions including the relative prestige or cultural capital of science or literature within professional and disciplinary hierarchies at any given time

Modern American Poetry and the Architectural Imagination Jo Gill, 2023 Modern American Poetry and the

Architectural Imagination The Harmony of Forms assesses the relationship between architectural and poetic innovation in the United States across the twentieth century Taking the work of five key poets as case studies and drawing on the work of a rich range of other writers architects artists and commentators this study proposes that by examining the sustained and productive if hitherto overlooked engagement between the two disciplines we enrich our understanding of the complexity and interrelationship of both The book begins by tracing the rise of what was conceived of as modern and often international style architecture and by showing how poetry and architecture in the early decades of the century developed in dialogue and within a shared and often transnational context It then moves on to examine the material aesthetic and social conditions that helped shape both disciplines offering new readings of familiar poems and bringing other pertinent resources to light It considers the uses to which poets of the period put the insights of architecture and vice versa In closing Gill turns to modern and contemporary architects written accounts of their own practice in memoirs and other commentaries and examines how they have assimilated or resisted the practice and vision of poetry
