The Akbar Nāmā of Abu-I-Fazl Abū al-Faḍl ibn Muḥarrak,1977 *Rereading the Black Legend* Margaret R.

Greer,Walter D. Mignolo, Maureen Quilligan,2008-09-15 The phrase The Black Legend was coined in 1912 by a Spanish journalist in protest of the characterization of Spain by other Europeans as a backward country defined by ignorance superstition and religious fanaticism whose history could never recover from the black mark of its violent conquest of the Americas Challenging this stereotype *Rereading the Black Legend* contextualizes Spain's uniquely tarnished reputation by exposing the colonial efforts of other nations whose interests were served by propagating the Black Legend A distinguished group of contributors here examine early modern imperialisms including the Ottomans in Eastern Europe the Portuguese in East India and the cases of Mughal India and China to historicize the charge of unique Spanish brutality in encounters with indigenous peoples during the Age of Exploration The geographic reach and linguistic breadth of this ambitious collection will make it a valuable resource for any discussion of race national identity and religious belief in the European Renaissance

Luzac's Oriental List and Book Review ,1919 *Perspectives on Persian Painting* Dr Barbara Brend,2013-11-05 This is a detailed study of the illustrations to Amir Khusrau's Khamsah in which twenty discourses are followed by a brief parable and four romances Amir Khusrau 1253-1325 lived the greater part of adventurous life in Delhi he composed in Persian and also in Hindi From the point of view of manuscript illustration his most important work is his Khamsah Quintet Khusrau's position as a link between cultures of Persia and India means that the early illustrated copies of the Khamsah have a particular interest The first extant exemplar is from the Persian area in the late 14th century but a case can be made that work was probably illustrated earlier in India **Pamphlets for Sale** Royal Asiatic Society of Great Britain and Ireland,1903 □□□□ ,1903

Buchanan,2016-12-05 Gunpowder studies

are still in their infancy despite the long standing civil and military importance of this explosive since its discovery in China in the mid ninth century AD In this second volume by contributors who meet regularly at symposia of the International Committee for the History of Technology ICOHTEC the research is again rooted in the investigation of the technology of explosives manufacture but the fact that the chapters range in scope from the Old World to the New from sources of raw materials in south east Asia to the complications of manufacture in the West shows that the story is more than the simple one of how an intriguing product was made This volume is the first to develop the implications of the subject not just in the sense of relating it to changing military technologies but in that of seeing the securing of gunpowder supplies as fundamental to the

power of the state and imperial pretensions The search for saltpetre for example an essential ingredient of gunpowder became a powerful engine of sea going European trade from the early seventeenth century Smaller states like Venice were unable to form these distant connections and so to sustain a gunpowder army Stronger states like France and Britain were able to do so and became even more powerful as the demand for improved explosives fostered national strengths leading to a development of the sciences especially chemistry in the former case and of manufacturing techniques in the latter
