Night to Remember Walter Lord, 2012-03-06 1 New York Times Bestseller The definitive book on the sinking of the Titanic based on interviews with survivors by the author of The Miracle of Dunkirk At first no one but the lookout recognized the sound Passengers described it as the impact of a heavy wave a scraping noise or the tearing of a long calico strip In fact it was the sound of the world's most famous ocean liner striking an iceberg and it served as the death knell for 1 500 souls In the next two hours and forty minutes the maiden voyage of the Titanic became one of history's worst maritime accidents As the ship's deck slipped closer to the icy waterline women pleaded with their husbands to join them on lifeboats Men changed into their evening clothes to meet death with dignity And in steerage hundreds fought bitterly against certain death At 2 15 a m the ship's band played Autumn Five minutes later the Titanic was gone Based on interviews with sixty three survivors Lord's moment by moment account is among the finest books written about one of the twentieth century's bleakest nights **One Hundred and Sixty Minutes** William Elliott Hazelgrove, 2021-09-01 One hundred and sixty minutes That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission More than twenty eight ships would be involved in the rescue of Titanic survivors along with four different countries At the heart of the rescue are two young Marconi operators Jack Phillips 25 and Harold Bride 22 tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts The race to save the largest ship in the world from certain death would reveal both heroes and villains It would begin at 11 40 PM on April 14 when the iceberg was struck and would end at 2 20 AM April 15 when her lights blinked out and left 1500 people thrashing in 25 degree water Although the race to save Titanic survivors would stretch on beyond this most people in the water would die but the amazing thing is that of the 2229 people 710 did not and this was the success of the Titanic rescue effort We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man woman and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room These two men tapping out CQD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three hundred foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting edge technology of the time wireless **150 Great Books** Bonnie A.
