This book presents a consecutive story on the evolution of religions It starts with an analysis of evolution in biology and ends with a discussion of what a proper theory of religious evolution should look like It discusses such questions as whether it is humankind or religion that evolves how religions evolve and what adaptation of religions means Topics examined include inheritance and heredity religious speciation hybridization ontogenetics and epigenetics phylogenetics and systematics Calling attention to unsolved problems and relating the evolutionary subject matter to appropriate material the book integrates and interprets existing data Based on the belief that an unequivocal stand is more likely to produce constructive criticism than evasion of an issue the book

chooses that interpretation of a controversial matter which seems most consistent with the emerging picture of the evolutionary process Nothing in biology makes sense except in the light of evolution the evolutionary biologist and co founder of the so called New Synthesis in Evolutionary Biology Theodosius Dobzhansky 1900 1975 wrote in his famous essay of 1973 opposing creationism in American society Today Dobzhansky s statement is not only fully accepted in biology but has become the scientific paradigm in disciplines such as psychology archaeology and the study of religions Yet in spite of this growing interest in evolutionary processes in religion and culture the term evolution and the capability of an evolutionary account have to date still not been properly understood by scholars of the Humanities This book closes that gap Life Under the Caliphate Chris Townsend, 2017-12-15 ISIS claims to have reinstated the glorious caliphate of old a time when Islam was at the center of the world and Islamic law was the law of the land Many of their practices are considered barbaric by modern standards but followers of the Islamic State claim their ways are prescribed by righteous ancestors passed down orally and in written records Daily life under the caliphate has been turned upside down for those caught in the path of ISIS Students will learn how ISIS enforces a 1 500 year old body of laws what daily life is like for followers of the Islamic State and what it s like to live under the caliphate for those forced to endure the rule of ISIS
