## **A Philosophy Of Walking:**

A Philosophy of Walking Frédéric Gros, 2014-04-08 By walking you escape from the very idea of identity the temptation to be someone to have a name and a history The freedom in walking lies in not being anyone for the walking body has no history it is just an eddy in the stream of immemorial life In *A Philosophy of Walking* a bestseller in France leading thinker Frédéric Gros charts the many different ways we get from A to B the pilgrimage the promenade the protest march the nature ramble and reveals what they say about us Gros draws attention to other thinkers who also saw walking as something central to their practice On his travels he ponders Thoreau's eager seclusion in Walden Woods the reason Rimbaud walked in a fury while Nerval rambled to cure his melancholy He shows us how Rousseau walked in order to think while Nietzsche wandered the mountainside to write In contrast Kant marched through his hometown every day exactly at the same hour to escape the compulsion of thought Brilliant and erudite *A Philosophy of Walking* is an entertaining and insightful manifesto for putting one foot in front of the other

Talking Walking Rachel Bowlby, 2018-02-16 When something called theory first broke onto the seemingly stagnant scene of literary studies it offered bright new ways and fields for critical reading new methods and subjects and also new words to speak them The syllabus and the styles would never be the same and reading was proudly claimed as a mode of social critique The short pieces brought together in *Talking Walking* engage with all sorts of arguments then now and earlier about the uses and history of critical reading of literature and also of other cultural forms There is much on the changing styles of literary critical writing and on the place of particular writers Virginia Woolf or Jacques Derrida in contemporary critical culture There are pieces on clichés on footnotes on the language of the university job interview on the use of domesticated as a catch all negative term There are

also essays on cultural questions informed by critical theory For instance why has the topic of walking been such a fruitful thinking theme in literature and philosophy How does the history of shopping and marketing theory intersect with those of literature and subjectivity How in the light of reproductive technologies and new social forms has becoming a parent turned into a culturally prominent kind of story These are some of the questions that arise in the interview and essays that make up Rachel Bowlby's book which derives from several decades of working and writing and talking and walking within the changing contemporary landscape of literary and critical studies Old and new arrivals into this world will find pleasures of reading and matter for thinking on every page

**The Socratic Handbook** Michael Noah Weiss, 2015 In this book 34 renowned philosophical practitioners from 20 different countries present a variety of dialogue methods for philosophical practice which have never before been published in such a compact and compiled form By having Socrates and his method of maieutics the art of midwifery of the soul as he called it as one of its main sources of inspiration the book offers different methodological approaches in order to prompt people to wonder to reflect to change perspective and to think differently in short to make people philosophize about life and the way they live it Series Report of the Global Ethic Initiative Austria Schriftenreihe der Initiative Weltethos Österreich Vol 9 Subject Philosophy

**A Philosophical Walking Tour with C. S. Lewis** Stewart Goetz, 2014-12-18 Although it has been almost seventy years since Time declared C S Lewis one of the world's most influential spokespersons for Christianity and fifty years since Lewis's death his influence remains just as great if not greater today While much has been written on Lewis and his work virtually nothing has been written from a philosophical perspective on his views of happiness pleasure pain and the soul and body As a result no one so far has recognized that his views on these matters are deeply interesting and controversial and perhaps more jarring no one has yet adequately explained why Lewis never became a Roman Catholic Stewart Goetz's careful investigation of Lewis's philosophical thought reveals oft overlooked implications and demonstrates that it was at its root at odds with that of Thomas Aquinas and thereby the Roman Catholic Church

**Critique and Disclosure** Nikolas Kompridis, 2011-08-19. A provocatively argued call for shifting the emphasis of critical theory from Habermasian critique restricted to normative clarification to disclosure, a possibility enhancing approach that draws on and reinterprets ideas of Heidegger. In *Critique and Disclosure*, Nikolas Kompridis argues provocatively for a richer and more time responsive critical theory. He calls for a shift in the normative and critical emphasis of critical theory from the narrow concern with rules and procedures of Jürgen Habermas's model to a change enabling disclosure of possibility and the enlargement of meaning. Kompridis contrasts two visions of critical theory's role and purpose in the world: one that restricts itself to the normative clarification of the procedures by which moral and political questions should be settled, and an alternative rendering that conceives of itself as a possibility disclosing practice. At the center of this resituation of critical theory is a normatively reformulated interpretation of Martin Heidegger's idea of disclosure or world disclosure. In this regard, Kompridis reconnects critical theory to its normative and conceptual sources in the German philosophical tradition and sets it within a romantic tradition of philosophical critique. Drawing not only on his sustained critical engagement with the thought of Habermas and Heidegger but also on the work of other philosophers including Wittgenstein, Cavell, Gadamer, and Benjamin, Kompridis argues that critical theory must in light of modernity's time consciousness understand itself as fully situated in its time in an ever shifting and open ended horizon of possibilities to which it must respond by disclosing alternative ways of thinking and acting. His innovative and original argument will serve to move the debate over the future of critical studies forward beyond simple antinomies to a consideration of, as he puts it, what critical theory should be if it is to have a future worthy of its past.

**The Psychogeography of Urban Architecture** David Prescott-Steed, 2013. This praxis based book explores how an improvisational, creative and embodied practice such as the *derive* works to defamiliarise our experience of the late modern built environment, fostering new insight into routinised cultural behaviours. In addition to detailing the key contexts of modernity, this book includes case studies on the work of Viktor Shklovsky, Craig Raine, Georges Perec, plus rare scholarly attention to the postcards of Jim Henson's *Uncle Traveling Matt*. Tertiary students and early career researchers in the humanities, particularly cultural theory and the creative arts, will read about the work of internationally recognised artists who have responded creatively to the urban landscape in view of its habituation under advanced capitalism. The research aims to provide sufficient detail for the reader to recognise a range of cultural conditions pertaining to the historical period that frames contemporary quotidian experience and that in turn informs a wide range of reflexive creative practices. The book's hybridity, complimenting a traditional scholarly style with auto ethnographic and journalistic writing, offers the reader an

authorial honesty transparency and humanity in its intellectual practical and emotional negotiation of psychogeographic ideas
