C. Morrison,1987-01-01 Black Political Mobilization accounts for the political success of black Americans in the South Minion Morrison returns to Mississippi the center of much of the political activism of the 1960s to analyze the remarkable improvement in black electoral participation in the years following passage

of the Voting Rights Act of 1965 Mississippi's substantial black population has experienced marked electoral success despite a history of strict racial exclusion. The dramatic and widespread nature of mobilization there makes it one of the most illustrative case studies for exploring this period of political change in America. Mississippi represents a broader phenomenon of political change that sustains a new leadership class in the Southern region. Three rural Mississippi towns serve as the focal point for the study. They each have a population of under 2,000, have overwhelming Afro-American voting majorities, are poor and largely agricultural, have been affected by the civil rights movement of the 60s and have elected a black mayor since 1973. The towns are prime examples of the character and process of minority electoral politics and mobilization in the rural South. A new class of black leaders is nurtured and installed in office in an environment where a newly and highly mobilized constituency takes advantage of its majority status in the electorate. This book combines good theory with lively interviews and rich case histories to highlight an essentially new variety of participatory democracy in American politics and government.

Arms Control and Missile Proliferation in the Middle East Bernd Kubbig, Sven-Eric Fikenscher, 2012-03-29 This edited volume provides a systematic analysis of the missile threat and proliferation issue in the Middle East region. The question of how to increase the level of security in the Middle East is not a new one given the conflict-ridden nature of the region. The solution attempted for this predicament has typically revolved around intense arms build-ups, a strategy which can prove self-defeating due to the subsequent countermeasures employed by neighbouring states. Arms Control and Missile Proliferation in the Middle East focuses on the strategic proliferation of arms with a specific emphasis on missiles. This unique emphasis enables the contributors to provide a dynamic new perspective on conceptual and political disarmament efforts, thereby distinguishing this volume from many other related works on the region which deal mainly with weapons of mass destruction. The book also explores the possibility of a reduction in weapon arsenals, examining a more promising cooperative security concept which includes confidence and security building measures (CSBMs). This book will be of much interest to students of arms control, Middle Eastern politics, Gulf Security, war and conflict studies, security studies and IR.

Iranians in London Mahnaz Sekechi, 2018-06-26 This book explores the psychosocial significance of loss and exclusion in the lives of many Iranian immigrants living in London since the Iranian revolution of 1979. It addresses the experiences of middle-class Iranians who left Iran in both voluntary contexts (immigration) and in enforced contexts (exile). The author elucidates the experiences of ordinary middle-class Iranians who chose to leave Iran given the socio-political-cultural context of the changes wrought by the Islamic Republic in Iranian society. Mahnaz Sekechi argues that losses of country, liberty and security in Iran combined with varying degrees of social exclusion and downward mobility in London have led to an encapsulated sadness for many despite their capacity for creative living. The book also demonstrates the value of psychosocial analysis in understanding dislocations in general and their effects on wellbeing.

In the Shadow of Mistrust Mahmood Monshipouri, 2022-07-15 Since the 1979

Iranian Revolution the normalisation of relations between Iran and America has appeared unrealistic if not inconceivable given that the Iranian state has vigorously pursued an anti American ideology This account of US Iranian relations examines the efficacy of external pressure such as sanctions as well as domestic grassroots reform movements within the Islamic Republic The Obama presidency marked a rare high point in the Washington Tehran relationship as negotiations between the two countries and other powers produced an unprecedented nuclear deal the Joint Comprehensive Plan of Action However the Trump administration s unilateral withdrawal from the JCPOA and re imposition of new sanctions in pursuit of maximum pressure had devastating economic consequences undermining the Iranian middle class which has consistently been the voice of political moderation and supported Iran s integration into the global economy Crucially sanctions have also driven Iran further into the arms of China while rendering it an even more recalcitrant and aggressive adversary Monshipouri s central conviction is that negotiations are pivotal to dismantling the mistrust that has long characterised US Iranian relations and to seeking détente between Iran and its Arab neighbours a critical priority since gradual US withdrawal from the region is all but certain

Revolution and Dictatorship Steven Levitsky, Lucan Way, 2024-10-29 Why the world s most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure

socio political change within the Middle East and North Africa region It also offers insights into the study of regional security and the operation of threat perceptions The WholeWorld is Texting Irving Epstein,2015-06-26 The authors of this volume address multiple questions involving the nature of youth protest in the twenty first century Through their use of a case study approach they comment upon the ways in which youth protest has been influenced by the electronic and social media and evaluate the effectiveness of protest activities many of which were framed in reaction to neo liberalism and state authoritarianism A number of the authors further comment upon the utility of employing social movement theory to analyze the nature and character of protest actions while others situate such events within specific political social and cultural contexts The case studies focus upon protest activities in Bahrain Turkey Iran Cambodia South Africa China Russia Chile Spain and the U S and together they offer a comparative analysis of an important global phenomenon In so doing the authors further address issues involving the changing nature of globalized protest participation its immediate and long term consequences and the ways in which protests have encouraged a re evaluation of the nature of inequality as constructed within educational social and political spheres **Iran** Abbas Amanat,2017-10-24 A masterfully researched and compelling history of Iran from 1501 to 2009 This history of modern Iran is not a survey in the conventional sense but an ambitious exploration of the story of a nation It offers a revealing look at how events people and institutions are shaped by currents that sometimes reach back hundreds of years The book covers the complex history of the diverse societies and economies of Iran against the background of dynastic changes revolutions civil wars foreign occupation and the rise of the Islamic Republic Abbas Amanat combines chronological and thematic approaches exploring events with lasting implications for modern Iran and the world Drawing on diverse historical scholarship and emphasizing the twentieth century he addresses debates about Iran s culture and politics Political history is the driving narrative force given impetus by Amanat s decades of research and study He layers the book with discussions of literature music and the arts ideology and religion economy and society and cultural identity and heritage *State Responses to Nuclear Proliferation* Brian K. Chappell,2021-01-07 Contemporary fears of rogue state nuclear proliferation and nuclear terrorism pose unique challenges for the global community This book offers a unique approach by examining why states that have the military capability to severely damage a proliferating state s nuclear program instead choose to pursue coercive diplomacy The author argues cognitive psychological influences including the trauma derived from national tragedies like the September 11th attacks and the Holocaust and a history of armed conflict increase the threat perceptions of foreign policy decision makers when confronting a state perceived to be challenging the existing power structure by pursuing a nuclear weapon The powerful state s degree of perceived threat combined with its national security policies military power projection capabilities and public support then influence whether it will take no action use coercive diplomacy sanctions or employ military force to address the weaker state s nuclear ambitions

Executive Power and Soviet Politics Eugene Huskey,2016-06-16 Ever since the behavioral revolution reached Communist

studies more than 2 decades ago Western scholarship has tended to ignore the powerful and unwieldy institutional structure of the Soviet government Today suddenly it is clear that the dramatic political and legislative reforms of the Gorbachev years will remain incomplete as long as the issues of state bureaucratic power and executive prerogative are unresolved This volume brings together original studies of the Soviet executive under Gorbachev by specialists including Barbara Chotiner Stephen Fortescue Brnda Horrigan Ellen Jones Wayne Limberg T H Rigby and Louise Shelley Among the topics covered are the major economic national security and law enforcement ministries the presidency the cabinet and questions of presidential ministerial presidential legislative executive and party state relations
