*A Primer of Higher Space (the Fourth Dimension)* Claude Fayette Bragdon, 2005-01-01 Think of the fourth dimension not as a new region in space but as a principle of growth of change from *The Fourth Dimension as Time* This 1913 treatise on the intersection of the mystical and the mathematical implied by Einstein's 1905 special theory of relativity is now considered a classic of philosophical physics Claude Bragdon here first proposed the now mathematically commonplace concept of the hypercube or four dimensional cube he incorporated 4 D designs into some of his architectural projects and explores his radical and provocative ideas about the mathematical structure of the universe Complete with a gallery of Bragdon's gorgeous line drawings illustrating higher space this is a truly mind expanding experience Other works by Bragdon available from Cosimo Classics *More Lives Than One* *The Beautiful Necessity* *Architecture and Democracy* and *Episodes from An Unwritten History* American architect stage designer and writer CLAUDE FAYETTE BRAGDON 1866 1946 helped found the Rochester Architectural Club in the city where he made his greatest mark as a building designer with structures including Rochester Central Station Rochester Institute of Technology and the First Universalist Church he also designed Peterborough Bridge in Ontario In later life Bragdon worked on Broadway as scenic designer for 1930s productions of *Cyrano de Bergerac* and *Hamlet* among others

**C. S. Lewis on the Final Frontier** Sanford Schwartz, 2009-07-02 Sanford Schwartz offers a penetrating new reading of Lewis's celebrated *Space Trilogy* Taken together Schwartz's readings call into question Lewis's self-styled image as a dinosaur out of step with the main currents of modern thought Far from a simple struggle between an old-fashioned Christian humanism and a newfangled heresy Lewis's *Space Trilogy* should be seen as the searching effort of a modern religious apologist to sustain and enrich the former through critical engagement with the latter

**Architecture and Democracy** Claude Fayette Bragdon, 2005-11-01 Ornament in its primitive manifestations is geometrical rather than naturalistic This is in a manner strange that the abstract and metaphysical thing should precede the concrete and sensuous from *The World Order* One of the most respected philosophers of architecture in the early 20th century Bragdon here makes a plea to his fellow architects and the public at large to choose organic designs for public structures and to reject the abstract modern architecture coming into vogue in the post World War I period Examining building design on either side of the great modernizing divide of the war he argues for a softer more human aesthetic and offers numerous imaginary compositions the products of his own fanciful yet logical creativity to illustrate his points First published in 1918 this highly readable volume has much to contribute to today's discourse on how to organize the public realm Other works by Bragdon available from Cosimo Classics *More Lives Than One* *The Beautiful Necessity* *Episodes from An Unwritten History* and *A Primer of Higher Space The Fourth Dimension* American architect stage designer and writer CLAUDE FAYETTE BRAGDON 1866 1946 helped found the Rochester Architectural Club in the city where he made his
