Heinze,2011 Could life have

formed in the Primordial Soup billions of years ago Evolutionists claim that simple chemicals became concentrated in ancient oceans forming an organic broth which eventually produced living cells Is this possible In 1953 Stanley Miller became famous for his experiment which produced amino acids by passing a spark through gasses which contained the elements that make up amino acids Evolutionists hoped their students would believe without question that amino acids would produce life But Heinze reveals the facts evolutionists won t tell you The amino acids produced would not work in any living things The more recently suggested steps in Chemical evolution will not take place either The idea is scientifically bankrupt and the foundation of evolutionary thinking is destroyed Full of quotes from the best known scientists in the field *How Life Began* is a great gift for students teachers and school libraries Learn how the scientific facts speak powerfully of an intelligent Creator without whom life could never have begun Learn how to know Him personally *Christianity, Education and Modern Society* William Jeynes,Enedina Martinez,2007-10-01 The issues that these authors address in this book are some of the most salient in American society It is imperative that Americans today address these issues and establish an appropriate world view There is little question that how people resolve these issues will have a long lasting impact on the future of civilization

Why the Gospel Witnesses Agree Everett Coates,2010-11 For years my struggles over the seeming disagreements between the gospels particularly regarding Jesus birth crucifixion and resurrection and His Second Coming in tandem with my attempt to reconcile Genesis 1 through 11 with my training in evolutionary geology had been destroying my faith in the Bible and quietly leading me toward atheism I was a lost church goer until January of 1990 when God suddenly and dramatically showed me that His Word is true and evolution is not and led me to a saving faith in His Son One day I began thinking again about the gospel discrepancies knowing that there must be a simple explanation It occurred to me that since they are eyewitness accounts possibly treating them as such and combining them as law enforcement officers do with multiple eyewitness statements might solve the problem It did *Why the Gospel Witnesses Agree* and *What This Means for Us* combines the gospels at the three most crucial points in the earthly life of Jesus Christ demonstrating that the differences are not errors Rather they are the normal result of the various viewpoints of the eyewitnesses which disappear when the accounts are put together in a logical order *Transformed Thinking: A Defense of the Christian Worldview*, King James
