Reproductive Surgery in Assisted Conception Mostafa Metwally,Tin-Chiu Li,2015-04-20 To many patients and indeed health care professionals IVF is the ultimate treatment for infertility However in many cases IVF is not feasible and may not be indicated IVF remains a largely inefficient procedure that often does not succeed in achieving a pregnancy There remains a strong place for other fertility interventions many of them surgical in nature Surgical interventions can be used as a stand alone fertility treatment or as an adjuvant treatment used in conjunction with other assisted conception treatments Despite the continuing use of such techniques by reproductive surgeons there remains a clear gap in the literature regarding resources to supplement formal training in the field or to provide a reference for established and aspiring practitioners
