The Plague Dogs By Richard Adams:

The Plague Dogs Richard Adams, 2015-09-03 Two dogs Snitter and Rowf escape from a research laboratory in the Lake District where it is wrongly supposed they have been purposely infected with a deadly virus and now pose a dangerous threat to the human population As the authorities give chase the two friends make their way through the hills and across the moors along the way learning to survive on their wits and finding friendship and help from a fox they encounter They dream of finding their original owners and a safe haven but the hunt is on A lyrical and engrossing tale The Plague Dogs is a remarkable journey into the hearts and minds of two canine heroes The Plague Dogs Richard Adams, Robert Adams, 1983-12-12 **The Plague Dogs** , 2005 The Plague Dogs Richard Adams, 2002 Two dogs a fox terrier and a black Labrador escape from a research laboratory in the Lake District They team up with a fox and live wild When it is discovered that the dogs may be carriers of bubonic plague they are hunted down remorselessly **The Plague Dogs** Richard Adams, 1978 Animal Narratology Joela Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling **Novels by Richard Adams** Source Wikipedia, 2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online Commentary novels not included Pages 29 Chapters Watership Down Bunnies in an interview Adams said he began telling the story of the rabbits improvised off the top of my head as we were *Heterotopia, Radical Imagination, and Shattering Orders* Paula Arcari, 2024-12-13 This volume takes ending the oppression of other animals seriously and confronts the question What would happen to all the animals by showcasing real promissory and imagined counter sites or heterotopia where animals happen in different ways free of anthropocentric orders of value and purpose Rejecting persistent understandings of the oppression of nonhuman animals across the entire breadth of the Animal Industrial Complex A IC as either non existent unproblematic and or fundamentally unalterable open to merely being reduced in scale or made less harmful the collection offers readers a

variety of pathways towards radically disordered ways of thinking about and relating to other animals Over 14 chapters authors describe more liberatory relational reconfigurations playing out in the present and undertake conceptual imaginative and embodied explorations of liberatory futures The chapters are united by a common commitment to heterotopic disturbance to contesting and subverting the anthropo capitalo centric space in which we live Each chapter approaches this subversion in its own way using prefiguration restorying speculation radical imagination and combinations thereof to disturb or shatter orders explore the kinds of liberation and resistance their disturbance demonstrates demands or embodies and ultimately illustrate exactly what would or could happen to all the animals *Heterotopia Radical Imagination and Shattering Orders* will appeal to scholars students and individuals interested not only in challenging normalised binaries hierarchies and orders of value both human and nonhuman but in creating and realising liberatory alternatives Scholar activists activists professionals working in animal advocacy and anyone undertaking activities aimed at radically changing how other animals are understood and used will also find inspiration new insights and information that enhance their current methods and approaches Some readers may also find simply confirmation and comfort in the knowledge that so many others are working in solidarity with the disordered belief that shattering the A IC is possible

On God and Dogs Stephen H. Webb, 1998-01-15 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re-examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen

Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers

The Worlds of Wes Anderson Adam Woodward,2024-10-22 In all his films Wes Anderson turns the mundane into magic by building distinctive and eccentric worlds But how well do you know the man behind the camera Discover the inspirations of one of our most revered auteurs with The Worlds of Wes Anderson Anderson's playful and vibrant aesthetic is universally admired but how has he managed to create such a recognisable identity From Hitchcock and Spielberg to Truffaut and Varda there are countless homages and references scattered throughout Anderson's filmography while his cultural anchor points go far beyond film and into the worlds of art and literature Evocations of place and time underpin his work from mid century Paris in The French Dispatch to grand pre war Europe in The Grand Budapest Hotel while cultural institutions such as Jacques Cousteau and The New Yorker magazine are other touchstones For Wes Anderson fans and cinephiles alike this is an essential insight into the creative process of one of the world's most unique filmmakers
