**The Value of Life** Andy Crowson, 2008-07-17      The British National Bibliography Arthur James Wells, 2006      *Rebel on the Right* Larry L. Witherell, 1997 It is argued that it was the Conservative party that experienced the most serious difficulties in the decade prior to 1914 losing three consecutive elections ousting its own leader in 1911 and being divided into several factions This book accepts that argument in order to provide a more detailed picture of the political dynamics at work during this crucial period Through exploring the political manifestations of Edwardian conservatism and peeling away the layers of traditional assumptions this book makes a major contribution to our understanding of the development of modern British politics This crisis of Edwardian conservatism is found in the membership activities and ideologies of the Conservative party's right wing *Rebel on the Right* reconstructs the political career and activities of one of the more colorful controversial and prominent members of that wing      **The Railway guide and fireside companion** ,      Government Reports Announcements & Index , 1980      **Energy Abstracts for Policy Analysis** , 1978-07      *Constitutional Sentiments* András Sajó, 2011-01-01 *Constitutional Sentiments* provides new insights into the foundations of law the complexities of legal institutions and the hidden genealogies of lawmaking As the book makes clear constitutions are human creations that embody all aspects of our humanity It is an example of serious scholarship that will attract readers of all disciplines who have a keen interest in social and political life Book Jacket      *Life as Revealed Through Early American Court Records* Elmer Thomas Crowson, 1981 The editor has selected from these early records samples that reveal the true picture of life in the first permanent English colony in America P 1      **Prologue** , 2004      **The Solidarity Economy** Tehila Sasson, 2024-05-28 The untold story of the role of humanitarian NGOs in building the neoliberal order after empire After India gained independence in 1947 Britain reinvented its role in the global economy through nongovernmental aid organizations Utilizing existing imperial networks and colonial bureaucracy the nonprofit sector sought an ethical capitalism one that would equalize relationships between British consumers and Third World producers as the age of empire was ending *The Solidarity Economy* examines the role of nonstate actors in the major transformations of the world economy in the postwar era showing how British NGOs charted a path to neoliberalism in their pursuit of ethical markets Between the 1950s and 1990s nonprofits sought to establish an alternative to Keynesianism through their welfare and development programs Encouraging the fair trade of commodities and goods through microfinance consumer boycotts and corporate social responsibility these programs emphasized decentralization privatization and entrepreneurship Tehila Sasson tells the stories of the activists economists politicians and businessmen who reimagined the marketplace as a workshop for global reform She reveals how their ideas though commonly associated with conservative neoliberal policies were part of a nonprofit driven endeavor by the liberal left to envision markets as autonomous and humanizing spaces facilitating ethical relationships beyond the impersonal realm of the state Drawing on dozens of newly available repositories from nongovernmental international national and business

archives The Solidarity Economy reconstructs the political economy of these markets from handicrafts and sugar to tea and coffee shedding critical light on the postimperial origins of neoliberalism
