Look, Listen, Learn, LEAD Jeffery Smith, Kate Wolfe Maxlow, John Caggianno, Karen L. Sanzo, 2020-10-01 Look Listen Learn LEAD A District Wide Systems Approach to Teaching and Learning in PreK 12 lays out the transformational journey of Hampton City Schools HCS an urban school division of 30 schools in southeastern Virginia Our school district faces numerous challenges such as 62% of students receiving free and reduced price lunch and 14% of students holding an IEP and in 2015 2016 Hampton City Schools state accreditation rate was approximately half the statewide rate and on a downward trend In only three years that was turned around and HCS exceeded the statewide accreditation rate a more than 100% improvement with 100% of our schools accredited without conditions We attribute this in large part to our dedicated educators and their implementation of district wide systems for curriculum instruction checking for student understanding climate and culture The goal of this book is to break down the process of what it takes to bring about large scale educational change that is sustainable We describe a process for developing a strong mission and vision to undergird the work around a variety of district wide systems This book provides insights into how to improve climate and culture create a guaranteed and viable written curriculum establish a process for evaluating its implementation and create a balanced assessment framework to measure student success Complete with example templates action plans and lessons learned this book is a true example of

theory into practice to bring about sustained improvement for all learners

From Standards to Success Mark R. O'Shea, 2005-07-15 In this era of accountability and high stakes testing school leaders must find more sophisticated ways to help all students succeed But how can districts make adequate yearly progress without a coherent system for addressing state standards In *From Standards to Success* education professor Mark R O Shea introduces the Standards Achievement Planning Cycle SAPC a comprehensive protocol for meeting the standards To illustrate his multi layered approach O Shea takes readers to a fictional school as it prepares to install the SAPC We meet the superintendent who organizes the district for curriculum reform the principal who supervises standards based instruction and the teachers who collaboratively plan lessons and evaluate their students work From teacher observation to student assessment O Shea offers innovative strategies to help school leaders identify and analyze which standards are most important select appropriate curriculum materials and resources provide instructional planning time for teachers create a benchmark testing program design effective professional development Checklists at the end of each chapter highlight best practices and sample lessons show how to plan curriculum that enables students to meet state standards The result is a thorough and sensible guide to realizing the promise of standards based education

Rigorous Curriculum Design Larry Ainsworth, 2011-04-16 The need for a cohesive and comprehensive curriculum that intentionally connects standards instruction and assessment has never been more pressing For educators to meet the challenging learning needs of students they must have a clear road map to follow throughout the school year *Rigorous Curriculum Design* presents a carefully sequenced hands on model that curriculum designers and educators in every school system can follow to create a progression of units of study that keeps all areas tightly focused and connected

Becoming Scientists Rusty Bresser, Sharon Fargason, 2013 Most important to being a good science teacher is holding the expectation that all students can be scientists and think critically Providing a thinking curriculum is especially important for those children in diverse classrooms who have been underserved by our educational system OCo *Becoming Scientists* Good science starts with a question perhaps from the teacher at the start of a science unit or from the children as they wonder what makes a toy car move how food decomposes or why leaves change color Using inquiry science children discover answers to their questions in the same way that scientists do OCo they design experiments make predictions observe and describe offer and test explanations and share their conjectures with others In essence they construct their own understanding of how the world works through experimentation reflection and discussion Look into real classrooms where teachers practice inquiry science and engage students in the science and engineering practices outlined in the Next Generation Science Standards Rusty Bresser and Sharon Fargason show teachers how to do the following Build on students varied experiences background knowledge and readiness Respond to the needs of students with varying levels of English language proficiency Manage a diverse classroom during inquiry science exploration Facilitate science discussions Deepen their own science content knowledge As the authors state Inquiry science has little to do with textbooks and lectures and

everything to do with our inherent need as a species to learn about and reflect on the world around us Join your students on a journey of discovery as you explore your world via inquiry

The Power of Teacher Teams Vivian Troen, Katherine Boles, 2012 While most educators believe working in teams is valuable not all team efforts lead to instructional improvement Through richly detailed case studies The Power of Teacher Teams demonstrates how schools can transform their teams into more effective learning communities that foster teacher leadership The benefits of successful teacher teams include improved performance for both teachers and students meaningful professional development group adoption of a new curriculum shared insights into student work better classroom management support for new teachers new roles for teacher leaders and opportunities for mentor support School leaders will find guidelines methods and concrete steps for building and sustaining effective teacher teams Also included is a DVD with video case studies and one CD with reproducibles The most important reason for building teacher teams is to enhance student learning through improved instruction and that story is at the heart of this book
