Statistical Analysis of Proteomics, Metabolomics, and Lipidomics Data Using Mass Spectrometry Susmita Datta, Bart J. A. Mertens, 2016-12-15 This book presents an overview of computational and statistical design and analysis of mass spectrometry based proteomics metabolomics and lipidomics data This contributed volume provides an introduction to the special aspects of statistical design and analysis with mass spectrometry data for the new omic sciences The text discusses common aspects of design and analysis between and across all or most forms of mass spectrometry while also providing special examples of application with the most common forms of mass spectrometry Also covered are applications of computational mass spectrometry not only in clinical study but also in the interpretation of omics data in plant biology studies Omics research fields are expected to revolutionize biomolecular research by the ability to simultaneously profile many compounds within either patient blood urine tissue or other biological samples Mass spectrometry is one of the key analytical techniques used in these new omic sciences Liquid chromatography mass spectrometry time of flight data and Fourier transform mass spectrometry are but a selection of the measurement platforms available to the modern analyst Thus in practical proteomics or metabolomics researchers will not only be confronted with new high dimensional data types as opposed to the familiar data structures in more classical genomics but also with great variation between distinct types of mass spectral measurements derived from different platforms which may complicate analyses comparison and interpretation of results

Frontiers in Earth Science - Editor's Choice 2017 Valerio Acocella, 2018-03-29 2017 has been an exciting year for our innovative open access journal Frontiers in Earth Science many new articles have been published and are now indexed in Web of Science ESCI new sections have opened for submissions including Solid Earth Geophysics and our Editorial Board has been successfully leading the peer review process and providing comprehensive reviews to our authors Have a look at our archive to read about the feeding habits of dinosaurs human influence on in the African humid period volcanic hazard models or how glaciers flowing into the ocean surrounding Greenland have changed over time Launched at the end of 2013 our Journal consists of several specialties whose number has increased with time and currently stands at 19 also including a few specialties co listed in other fields <https://www.frontiersin.org/journals/earth-science> The present selection is not exhaustive as new ones are being launched and or are under consideration for development This growth has been paralleled by a yearly increase in the number of contributions and the Editorial Board members reflecting the health of the Journal Now also indexed in Web of Science Emerging Sources Citation Index ESCI Frontiers in Earth Science is ambitious to become the leading open access journal in its field The idea of creating an Editor s Choice eBook has been in our minds for a while as we wanted to create an environment for the Chief Editors to highlight their choice of representative papers in the Journal we are happy to present now our first edition The eBook offers a

quick though representative window into the different specialties giving additional visibility to some of the most interesting studies published in 2016 and 2017 It provides a glimpse into the state of the art of Earth Science on the cusp of 2020 Earth Science studies the different spheres of the Earth geosphere atmosphere hydrosphere and partly biosphere and as such it provides a holistic perspective of our planet This discipline in addition to understanding our environment enables us to face major natural challenges such as improving the management of natural resources promoting environmental sustainability and forecasting and managing natural hazards Acocella 2015 and references therein On this basis the contributions grouped in this eBook even though appearing distinct in subject methods goal and impact should be considered as different aspects of the same system Indeed the selection of these contributions aims to capture a multidisciplinary and common understanding of our planet with its interconnected processes and challenges It is important to note that in many cases it has not been easy to select a representative study per specialty and thus the papers included in this eBook should therefore not be considered as the representative ones but rather as a concise selection of key papers We hope you enjoy reading our first edition of the Editor s Choice eBook Jessica Journal Manager and Valerio Field Chief Editor Recent Advances in Thermally Activated Delayed Fluorescence Materials Eli Zysman-Colman, Sebastian Reineke, Guohua Xie, Chihaya Adachi, 2021-03-08
