Knowledge-Based Intelligent Information and Engineering Systems Rajiv Khosla, 2005-08-25 Dear

delegates friends and members of the growing KES professional community will come to the proceedings of the 9th International Conference on Knowledge Based and Intelligent Information and Engineering Systems hosted by La Trobe University in Melbourne, Australia. The KES conference series has been established for almost a decade and it continues each year to attract participants from all geographical areas of the world including Europe, the Americas, Australasia and the Pacific Rim. The KES conferences cover a wide range of intelligent systems topics. The broad focus of the conference series is the theory and applications of intelligent systems. From a pure research field, intelligent systems have advanced to the point where their abilities have been incorporated into many business and engineering application areas. KES 2005 provided a valuable mechanism for delegates to obtain an extensive view of the latest research into a range of intelligent systems algorithms, tools and techniques. The conference also gave delegates the chance to come into contact with those applying intelligent systems in diverse commercial areas. The combination of theory and practice represented a unique opportunity to gain an appreciation of the full spectrum of leading edge intelligent systems activity. The papers for KES 2005 were either submitted to invited sessions chaired and organized by respected experts in their fields or to a general session managed by an extensive International Program Committee or to the Intelligent Information Hiding and Multimedia Signal Processing IIHMSP Workshop managed by an International Workshop Technical Committee.

Communication and Networking Thanos Vasilakos, Kouichi Sakurai, Yang Xiao, Gansen Zhao, Dominik Ślęzak, 2010-11-29 Welcome to the proceedings of the 2010 International Conference on Future Generation Communication and Networking FGCN 2010, one of the partnering events of the Second International Mega Conference on Future Generation Information Technology FGIT 2010. FGCN brings together researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of communication and networking including their links to computational sciences, mathematics and information technology. In total 1 630 papers were submitted to FGIT 2010 from 30 countries which includes 150 papers submitted to the FGCN 2010 Special Sessions. The submitted papers went through a rigorous reviewing process. 395 of the 1 630 papers were accepted for FGIT 2010 while 70 papers were accepted for the FGCN 2010 Special Sessions. Of the 70 papers, 6 were selected for the special FGIT 2010 volume published by Springer in LNCS series. Fifty one papers are published in this volume and 13 papers were withdrawn due to technical reasons. We would like to acknowledge the great effort of the FGCN 2010 International Advisory Board and Special Session Co-chairs as well as all the organizations and individuals who supported the idea of publishing this volume of proceedings including SERSC and Springer. Also the success of the conference would not have been possible without the huge support from our sponsors and the work of the Organizing Committee.
