**The Craft of Character** Mark Boutros, 2020-12-24 The most complete and comprehensive guide to character I've ever read Adam Croft Character is at the heart of every story We love stories because we fall in love with characters we want to see what happens to them and we want to see them experience hope and despair International Emmy nominated writer Mark Boutros offers a guide to creating characters who are engaging emotionally driven and memorable With experience as a screenwriter novelist creative writing teacher and mentor Mark shares a mixture of theory and creative writing exercises to get you thinking about the questions to have in your mind during character creation A lot of stories are perfectly functional hitting all the right beats but often fall short due to a thin or obvious character Problems people think are related to plot are often symptoms of a deeper issue with the characters Mark highlights what is at the core of character the importance of motivation trauma obstacles and how every little detail can enrich an experience for an audience and ultimately make people care How do you get to know people By asking questions and getting to know them so you move past the shallow Do the same during character development and your story will be so much more engaging for it Each chapter focuses on an aspect important to character development and ends with exercises so you can apply the concepts to your work and write better characters The book includes Goals desires lessons Stakes to your character's goal Character flaws Developing your character's voice and world view Generating truthful obstacles How to write anti heroes and compelling villains Character and personality traits

Common mistakes in character writing Character research A character questionnaire The majority of the ideas originate from the author's screenwriting experience but they apply to all forms of story whether it be fiction writing or playwriting because the focus is on what really makes a character stand out and memorable The job of the writer is to deliver an emotional experience Character is the heart of that If you're looking for a book to help you to improve your screenplay writing fiction writing or play writing then this is for you An invaluable tool for beginner and experienced writers This is perfect for anyone interested in screenwriting books fiction writing books or character development books Praise for The Craft of Character Would 100% recommend not only for beginners but also for experienced writers looking to get to know their characters better A bit like writer character therapy reader review Both the chapters and the exercises are easy to understand and get through Mark Boutros clearly knows his stuff and seems happy to be able to help the reader rather than becoming lecturing and elitist The structure of the book also means that it is easy to dip back into when you come across a specific problem and as such it is a great little reference book which any aspiring storyteller would benefit from reader review Normally I find myself arguing with the author of craft books but here I would say 90% of what I read were things I either found helpful or flat out agreed with whole heartedly and just needed a reminder on why these things are important The exercises were a excellent touch especially as someone who is teaching writing it gave me ideas on what to do for my students reader review
