A Woman's Addiction Workbook: Your Guide to In-Depth Healing

Women and girls are now becoming addicted at greater rates than ever before, and until very recently women in recovery were dependent on treatment models based solely on work with men. Harvard addiction and trauma expert Lisa M. Najavits offers this step-by-step program to help women overcome the often-overlooked problems associated with their drug and alcohol addictions, such as body image, trauma and violence, relationships, stress, and thrill-seeking. She explores how women differ from men in their addiction and recovery, and adapts this information to help you embark on your journey to healing. A chapter on co-occurring emotional problems allows you to evaluate whether you have any of the key disorders common among women with addiction, such as depression, post-traumatic stress, eating disorders, or phobias. With this strengths-building workbook, begin to come to terms with your personal addiction story. Healing exercises in four areas--feelings, beliefs, action, and relationships--help women build self-respect. Exercises include Listen to That Small Quiet Voice, Extreme Self-Care, Self-Soothing, Become Friends with Women, Rethink, Take Charge, Share Responsibility, and Mourn. In addition to these exercises and techniques, the book offers valuable resources of recovery support information.

Harper, PhD, LPC-S, ACS, ACN,2017-11-07 Our brains are doing our best to help us out but they can be real assholes sometimes Sometimes it seems like your own brain is out to get you melting down in the middle of the grocery store picking fights with your date getting you addicted to something or shutting down completely at the worst possible moments You already told your brain firmly that it isn't good to do these things But your brain has a mind of its own That's where this book comes in With humor patience and lots of swearing Dr Faith shows you the science behind what's going on in your skull and talks you through the process of retraining your brain to respond appropriately to the non emergencies of everyday life If you're working to deal with old traumas or if you just want to have a more measured and chill response to situations you face all the time this book can help

you put the pieces of the puzzle together and get your life and brain back Here s an excerpt from the book Knowing what s going on up in your brain is HUGE So much of how we interact with the world around us is a completely normal response when we take into account our past experiences and how our brains work Freaking the fuck out Avoiding important shit we need to take care of Feeling pissed off all the time Being a dick to people we care about Putting shit in our bodies that we know isn t good for us Doing shit we know is dumb or pointless None of these things are fucking helpful But they all make sense Your brain has adapted to the circumstances in your life and started doing things to protect you bless it It s not TRYING to fuck you over even though it totally is at times As we navigate the world nasty shit happens The brain stores info about the nasty shit to try to avoid it in the future Sometimes these responses are helpful Sometimes the responses become a bigger problem than the actual problem was It s called a trauma reaction And even if you aren t dealing with a specific trauma Adaptive coping strategies bad habits and funky behaviors all wire in similar ways And research is showing that these issues are actually some of the easier ones to treat in therapy if we address what s really going on rather than just the symptoms
