Cooperation *Iran and Nuclear Weapons* Saira Khan, 2009-09-25 This book investigates what is driving Iran's nuclear weapons programme in a less hostile regional environment using a theory of protracted conflicts to explicate proliferation. Iran's nuclear weapons program has alarmed the international community since the 1990s but has come to the forefront of international security concerns since 2000. This book argues that Iran's hostility with the United States remains the major causal factor for its proliferation activities. With the US administration pursuing aggressive foreign policies towards Iran since 2000, the latter's security threat intensified. A society that is split on many important domestic issues remained united on the issue of nuclear weapons acquisition after the US war in Iraq. Consequently, Iran became determined in its drive to acquire nuclear weapons and boldly announced its decision to enrich uranium, leaving the US in no doubt about its nuclear status. This book underscores the importance of protracted conflicts in proliferation decisions and underpinning this is the assumption that non-proliferation may be achieved through the termination of intractable conflicts. The aims of this work are to demonstrate that a state's decision to acquire nuclear weapons depends largely on its engagement in protracted conflicts, which shows not only that the presence of nuclear rivals intensifies the nuclear ambition but also that non-nuclear status of rival states can promote non-proliferation incentives in conflicting states inclined to proliferate. This study will be of great interest to students of Iran, Middle Eastern politics, nuclear proliferation, and international relations theory. Saira Khan is a Research Associate in the McGill University of Montreal Joint Research Group in International Security. **REGIS**

The Shroud Codex Jerome R. Corsi, 2010-04-13 After a New Jersey priest has a near-death experience, he begins to resemble the image depicted on the Shroud of Turin, prompting a skeptical Vatican representative to investigate the claim and subsequently question the assumptions he has held for so long. **THE PRIEST** Brought back to life on an operating room table, Father Paul Bartholomew is haunted by visions of Christ as Golgotha. Then, as he celebrates Mass, blood starts running down his arms. The horrified congregation watches him collapse, his vestments soaked in the blood pouring from wounds on his wrists. Mysteriously, he now resembles in almost every physical aspect the Christ-like figure represented on the Shroud of Turin. **THE SKEPTICS** Worried lest Bartholomew's case be proved a hoax, the Vatican employs two prominent scientists to investigate. Dr. Stephen Castle, an American psychiatrist, is renowned for his book arguing that religion is a figment of human imagination. Professor Marco Gabrielli, an Italian religious researcher and chemist, has made a career of debunking supposed miracles of explaining the unexplainable. **THE MIRACLE** For centuries, the Shroud of Turin has defied science. Is this ancient remnant truly Christ's burial cloth or the biggest fraud ever perpetrated? When the priest's uncanny resemblance to the picture on the Shroud prompts Castle and Gabrielli to investigate the artifact itself, each is finally forced to face mysteries reason alone cannot explain in a journey of discovery that plumbs the farthest reaches of science and the human spirit.

Nuclear Iran: The Birth of an Atomic State David Patrikarakos, 2020-11-12 The Iranian nuclear crisis has dominated current affairs and geopolitics for over a decade Yet there is little real understanding of Iran's nuclear programme in particular its history which is now over fifty years old This ground breaking book argues that the history of Iran's nuclear programme and the modern history of the country itself are irrevocably linked and only by understanding one can we understand the other From the programme's beginnings under the Shah of Iran the book details the central role of the US in the birth of nuclear Iran and the role that nuclear weapons have played in the programme since the beginning The author's unique access to the father of Iran's nuclear programme as well as to key scientific personnel under the early Islamic Republic and to senior Iranian and Western officials at the centre of today's negotiations sheds new light on the uranium enrichment programme that lies at the heart of global concerns What emerges is a programme that has for a variety of reasons a deep resonance to Iran This is why it has persisted with it for over half a century in the face of such widespread opposition Drawing on years of research across the world David Patrikarakos has produced the most comprehensive examination of Iran's nuclear programme in all its forms to date This new edition features interviews with the main actors who saw through President Obama's Iran nuclear deal and give the inside story in how progress stalled under the Trump administration

Nuclear Iran David Patrikarakos, 2012-08-22 The Iranian nuclear crisis has dominated world politics since the beginning of the century with the country now facing increasing diplomatic isolation talk of military strikes against its nuclear facilities and a disastrous Middle East war What is Iran's nuclear programme all about What is its genesis There is little real understanding of Iran's nuclear programme in particular its history which is now over fifty years old This ground breaking book is unprecedented in its scope It argues that the history of Iran's nuclear programme and the modern history of the country itself are irretrievably linked and only by understanding one can we understand the other From the programme's beginnings under the Shah of Iran the book details the central role of the US in the birth of nuclear Iran and through the relationship between the programme's founder and the Shah of Iran himself the role that nuclear weapons have played in the programme since the beginning The

author's unique access to the father of Iran's nuclear programme as well as to key scientific personnel under the early Islamic Republic and to senior Iranian and Western officials at the centre of today's negotiations sheds new light on the uranium enrichment programme that lies at the heart of global concerns. What emerges is a programme that has for a variety of reasons a deep resonance to Iran. This is why it has persisted with it for over half a century in the face of such widespread opposition. Drawing on years of research across the world, David Patrikarakos has produced the most comprehensive examination of Iran's nuclear programme in all its forms to date.

Black Gold Stranglehold Jerome R. Corsi, Craig R. Smith, 2021-05-14. It is estimated that Americans consume more than 25 percent of the world's oil but have control over less than 3 percent of its proven supply. This extremely unbalanced pattern of consumption makes it possible for foreign governments, corrupt political leaders, terrorist organizations and oil conglomerates to place the citizens of the United States in a stranglehold of supply and demand. There is no greater proof of this than the direct relationship between skyrocketing gas prices and the exploding wealth of those who control the supply of oil. In **Black Gold Stranglehold**, Jerome R. Corsi and Craig R. Smith expose the fraudulent science that has been sold to the American people in order to enslave them: the belief that oil is a fossil fuel and a finite resource. On the contrary, this book presents authoritative research, currently known mostly in the scientific community, that oil is not a product of decaying dinosaurs and prehistoric forests. Rather, it is a natural product of the earth. The scientific evidence cited by Corsi and Smith suggests that oil is constantly being produced by the earth far below the planet's surface and that it is brought to attainable depths by the centrifugal forces of the earth's rotation. In great detail, Corsi and Smith explore the international and domestic politics of oil production and consumption. This includes the wealth and power of major oil conglomerates, the manipulation of world economies by oil-producing states and rogue terrorist regimes, and the political agenda of radical environmentalists and conservationists who obstruct the use of oil reserves currently controlled by the U.S. government. The authors offer an understanding of the dangerous situation America faces because its currency is no longer tied to any precious and truly scarce metals such as gold as it was until 1973. This situation could easily lead to the devastation of the U.S. economy if Middle Eastern countries are able to enact current plans to accept only the Euro or gold-backed currencies such as the Gold Dinar instead of the U.S. dollar as the standard currency for oil. **Black Gold Stranglehold** will dramatically change the debate about oil. The significance of its message is sure to cause thoughtful people to reconsider the current dependence of the U.S. economy on imported oil.

The Coming Oil Storm Ron Rhodes, 2010-07-01. Ron Rhodes, a leading scholar on biblical prophecy, reveals how looming tensions over oil factor into end-time global alignments and how they may lead to a dramatic shift in the balance of power in the world. Much of the world's oil is in the custody of unstable and sometimes hostile regimes. Nations around the world are positioning themselves to protect their shrinking piece of the pie of dwindling oil reserves. Global tensions continue to rise. In **The Coming Oil Storm**, Rhodes documents the role of Islam as the religion in control of most of the world's oil reserves and shows convincingly that once

Muslims are in possession of the two swords of oil and nuclear weapons they will feel empowered to act as they wish Oil could even play a role in the path to Armageddon The Coming Oil Storm is an essential guide for understanding the state of the world today and what s yet to come

Why Israel Can't Wait Jerome R. Corsi,2009-08-18 The new Israeli government headed by Prime Minister Benjamin Netanyahu has repeatedly declared that a primary foreign policy objective is to prevent Iran from obtaining nuclear weapons capability Israel is a one bomb state such that one atomic weapon even a relatively low yield bomb of the type the United States dropped on Hiroshima or Nagasaki in World War II would destroy the modern Jewish state as we know it today The Obama administration has repeatedly declared the intention of following up on the campaign promise to negotiate directly with Iran This represents a fundamental policy shift from the Bush administration s efforts to apply international sanctions through the United Nations in an effort to force Iran to quit enriching uranium Consistently Iran has insisted upon the nation s right as a signatory to the Non Proliferation Treaty to pursue the full fuel cycle code words for Iran s determination to advance uranium enrichment technology in Iran under Iranian control In recent months top Iranian government and military figures have issued warnings that the time is getting short such that Iran might well have the capability to develop and deliver at least one nuclear weapon by the end of 2009 or the beginning of 2010 At the same time the international community has expressed doubt that the Iranian government will make any serious concessions on their atomic program In press conferences and speeches President Obama has openly acknowledged the U S government now believes Iran is pursuing a nuclear weapons program At the end of the Bush administration the international press credibly reported that the Olmert government in Israel was denied fly over rights in Iran in order to launch a military strike on Iran Known as the Sampson Option an Israeli first strike on Iran s nuclear facilities becomes increasingly likely to the extent Israel feels isolated from the world community and concludes there is no chance the Obama administration will ever be able to induce Iran to stop enriching uranium regardless how seriously the president intends to push direct negotiations as a strategy We have already seen two wars launched by Israel against terrorist surrogates financed and supported by Iran the 2006 war against Hezbollah in Lebanon and the 2008 war against Hamas in the Gaza Strip Now a war between Israel and Iran is on the near horizon possibly fated to occur before the end of 2009

Rushing Ahead to Armageddon Christopher M. Jones,2010 The world seems to be on the brink as tensions in the Middle East are escalating daily Russia is strengthening its ties with China North Korea Syria and Iran arming them with sophisticated military weaponry Russia is building up its armed forces returning to Cold War military tactics including reopening ports used by the former Soviet Union Tensions between Israel and Iran have never been higher with each nation poised to strike against the other in a moment s notice Iran s nuclear ambition is well documented and is becoming a menace on the International stage With Israel s very existence at stake a preemptive strike against Iran s Russian built nuclear facilities is not out of the realm of possibility A preemptive strike by Israel could provoke a retaliatory response by Russia and her allies It seems that in a

moment's notice the events described in Ezekiel 38-39 could break out right before our eyes or is it? For many years contemporary prophecy writers have been telling us that we are living in the last days and the Gog and Magog alliance is one sure sign that the Rapture and the Second Coming of Christ are near. However, there is strong biblical evidence that the candidate often identified as Gog, Russia, may not in fact be the candidate that Ezekiel was referring to. Using the Bible as a guide, we can figure out who this obscure person is instead of using today's newspapers. With a long history of well-documented failed predictions by contemporary prophecy writers, maybe it's time that we begin to reevaluate today's popular interpretation of Ezekiel 38-39 in light of the Bible. Author's Bio: Christopher Jones is the church administrator for Faith Community Worship Center located in the San Francisco Bay Area where he also preaches part time.

Minutemen Jim Gilchrist, Jerome R. Corsi, 2006 This book is a first-hand account from the frontlines and what it says will shock you. Jim Gilchrist teams up with Jerome Corsi, the co-author of *Unfit for Command*, the book that derailed John Kerry's presidential campaign, to describe in vivid detail how the nation's southern border has disintegrated into a Wild West of human trafficking, drug smuggling, and violent gangs. Readers of this disturbing and timely book will learn how Mexico encourages the mass emigration of millions of impoverished peasants and why the Mexican government will stop at nothing to keep the border open. The Catholic Church uses its power and influence to subvert immigration laws, and why Church leaders are speaking out in favor of amnesty. American taxpayers are forced to pay the staggering economic and cultural price tag of illegal immigration, and why our government wants to keep the true costs hidden from the public. Like their Revolutionary War predecessors who defended America against a hostile foreign power, today's Minutemen have risen up to answer their nation's call against another invasion. *Minutemen* is their story as well as an urgent call to arms to all of their countrymen.

New Babylon Rising Ron Rhodes, 2019-08-13 What New Babylon Reveals to Us About the End Times What will the world look like in the last days? One significant clue the Bible offers is a fascinating look at New Babylon. More than one-tenth of the book of Revelation is devoted to prophecies about this city, the center of the antichrist's world government. But are we to understand these prophecies symbolically or literally? In *New Babylon Rising*, trusted prophecy expert Ron Rhodes offers insight into what God's Word tells us about the worldwide influence of New Babylon in the end times. Take a look at what prophetic Scripture says and discover the rampant paganism and evil that will mark this infamous city. Apprehend that God not only sees the future but has determined how it will unfold. As you explore the Bible's prophecies about the last days, you'll discover that no matter how uncertain the future looks, you can have peace knowing that God is in full control of all things.
