Low-Energy Electron Scattering from Molecules, Biomolecules and Surfaces Petr Carsky,Roman Curik,2016-04-19 Since the turn of the 21st century the field of electron molecule collisions has undergone a renaissance The importance of such collisions in applications from radiation chemistry to astrochemistry has flowered and their role in industrial processes such as plasma technology and lighting are vital to the advancement of next generation devices F **Arthur Dove** Rachael Z. DeLue,2016-03-16 Arthur Dove often credited as America s first abstract painter created dynamic and evocative images inspired by his surroundings from the farmland of upstate New York to the North Shore of Long Island But his interests were not limited to nature Challenging earlier accounts that view him as simply a landscape painter Arthur Dove Always Connect reveals for the first time the artist s intense engagement with language the nature of social interaction and scientific and technological advances Rachael Z DeLue rejects

the traditional assumption that Dove can only be understood in terms of his nature paintings and association with photographer and gallerist Alfred Stieglitz and his circle Instead she uncovers deep and complex connections between Dove s work and his world including avant garde literature popular music meteorology mathematics aviation and World War II Arthur Dove also offers the first sustained account of Dove s Dadaesque multimedia projects and the first explorations of his animal imagery and the role of humor in his art Beautifully illustrated with works from all periods of Dove s career this book presents a new vision of one of America s most innovative and captivating artists and reimagines how the story of modern art in the United States might be told
