Werke, Bd. 9: System der Philosophie. Dritter Teil: Ästhetik der reinen Gefühls. Band 2 Helmut Holzhey, Gerd Wolandt, Hermann Cohen, Hermann Cohen, Helmut Holzhey, **Cassirer's Transformation: From a Transcendental to a Semiotic Philosophy of Forms** Jean Lassègue, 2020-03-11 This book presents the transformation of Cassirer's transcendental point of view At an early stage Cassirer was confronted with a scientific crisis triggered by the emergence of various forms of objective knowledge such as the plurality of geometric axiom systems and non Euclidean geometry in relativistic physics He finally developed a solution to the problematic unity of objective knowledge by replacing the overarching notion of objectivity with that of forms of objectification This led him to consider the notion of symbolic forms as the driving force in the objectification process This concept would become instrumental in demonstrating that the objective and human sciences are not adversaries they merely differ in their modes of semiotic construction These modes cannot be summarized in a fixed list of symbolic forms but operate transversally at a level where Cassirer distinguishes between three specific operators Expression Evocation and Objectification The last part of the book investigates how the relationships between these three operators stabilize specific symbolic forms Four of these forms are then studied as examples Myth and Ritual Language Scientific Knowledge and Technology *System der Philosophie: Asthetik des reinen Gefühls, 1912 (2 v.)* Hermann Cohen, 1912 **Ästhetik im Umbruch** Mirjam Storim, 2011-05-03 Was passiert mit einer Universalsemantik wie der sthetik um 1900 als die deutsche Gesellschaft den Umbruch von einer stratifiktorischen hin zu einer funktionalen Differenzierungsform vollzieht sthetik im Umbruch fragt nach den zentralen Begriffen von sthetiken der Jahrhundertwende und ihrer Funktion in der Selbstbeschreibung der Gesellschaft Gesellschaft besteht systemtheoretisch formuliert aus nichts als dem Proze der sie konstituierenden Kommunikation und die sthetik eignet sich f r eine stratifikatorisch orientierte das Subjekt und sein Milieu ins Zentrum r ckende Selbstbeschreibung einer funktional ausdifferenzierten Gesellschaft in hohem Ma e Beispiele aus Monismus Neukantianismus und Lebensphilosophie aus katholischen sowie historisch materialialistischen Kontexten zeigen da die Denkfigur von Form und Inhalt in der sthetik mit der Dialektik von Individuum und Gesellschaft in der Ethik korreliert Das Sch ne l t sich so als ethisch relevant erkl ren Die Studie bleibt hier jedoch nicht stehen Was diese Beispiel sthetiken auf hohem Niveau herleiten findet sich in den Debatten um Schmutz und Schund im wilhelminischen Kaiserreich wieder Vertreter der Kirchen der Sozialdemokratie und andere Gruppierungen nutzen den Universalanspruch sthetisch moralischer Kommunikation zur Homogenisierung Abgrenzung und Priorisierung ihrer Milieukonstrukte Eine ganz andere Funktion der sthetik und Ethik verfolgen hingegen die Kolportagebuchh ndler sie setzen Moral und Kunst in ihren Beitr gen gezielt als Medien der Hierarchiebildung im Wirtschaftssystem ein und tragen so mit ihrer Auffassung der Gesellschaft als Massenkommunikation der funktionalen Ausdifferenzierung Rechnung **Hermann Cohen** Frederick C. Beiser, 2018 This book is the first complete intellectual biography of Hermann Cohen 1842 1918 and the only work to cover

all his major philosophical and Jewish writings Frederick C Beiser pays special attention to all phases of Cohen's intellectual development its breaks and its continuities throughout seven decades The guiding goal behind Cohen's intellectual career he argues was the development of a radical rationalism one committed to defending the rights of unending enquiry and unlimited criticism Cohen's philosophy was therefore an attempt to defend and revive the Enlightenment belief in the authority of reason his critical idealism an attempt to justify this belief and to establish a purely rational worldview According to this interpretation Cohen's thought is resolutely opposed to any form of irrationalism or mysticism because these would impose arbitrary and artificial limits on criticism and enquiry It is therefore critical of those interpretations which see Cohen's philosophy as a species of proto existentialism Rosenzweig or Jewish mysticism Adelman and Kohnke Hermann Cohen An Intellectual Biography attempts to unify the two sides of Cohen's thought his philosophy and his Judaism Maintaining that Cohen's Judaism was not a limit to his radical rationalism but a consistent development of it Beiser contends that his religion was one of reason He concludes that most critical interpretations have failed to appreciate the philosophical depth and sophistication of his Judaism a religion which committed the believer to the unending search for truth and the striving to achieve the cosmopolitan ideals of reason Either/or Robert L. Perkins,1995 In Either Or Part One Kierkegaard presents what he calls the aesthetic form of life There he focuses on a large variety of the stereotypical views of women from a sentimental and whining appraisal of her position in the world through the view that sexual exploitation is an uncontrollable natural instinct and or drive for which men are not morally responsible to the view that woman is a jest not to be taken seriously as a moral and responsible being and then that she is just there as a sexual object or plaything to be reflectively seduced on the male's terms and for his pleasure or rejection whatever suits him at the moment Needless to say this great variety of views of the uses of woman has provoked a large critique and just as predictably that critique is as varied as the intellectual tools available for the analysis of a work that is as literary as it is philosophic The present collection of essays treats these and many other of the most important issues raised in Either Or in fresh and perceptive ways Even where familiar themes are argued the authors introduce innovative interpretive models new approaches and new materials are appealed to or new rebuttal arguments against previously held positions are offered Several of the articles for instance appropriate or criticize methods or insights derived from postmodernism and or feminist philosophy an approach that would have been unlikely two decades ago Der deutsche Idealismus im Spiegel seiner Historiker Matthias Neumann,2008

Yearning for Form and Other Essays on Hermann Cohen's Thought Andrea Poma,2006-06-29 Hermann Cohen's philosophy has now finally received the recognition it deserves His thought undoubtedly has all the characteristics of a classic It faced the great problems of philosophical tradition with full critical awareness and at the same time with the capacity to open up new original routes It represents one of the last expressions of great systematic thought The papers collected in this volume deal with different aspects of Cohen's thought ethical political aesthetic and religious aspects in

particular However they all represent attempts to follow the ubiquitous presence of certain important themes in Cohen and their capacity for containing meanings that cannot be limited to a single philosophical sphere themes that are keys to reading unity of inspiration in his thought which is more deeply imbedded than the exterior architectural unity of his work The search for the fundamental themes behind Cohen is an important task if we wish to see this philosopher as a present day vital point of reference *Aesthetic Theory* Theodor W. demythologizing has been the subject of constant debate since it was first announced in 1941 It is widely held that this program indicates Bultmann's departure from the dialectical theology he once shared with Karl Barth In the 1950s Barth thus referred to their relationship as that of a whale and an elephant incapable of meaningful communication This study proposes a contrary reading of demythologizing as the hermeneutical fulfillment of dialectical theology on the basis of a reinterpretation of Barth's theological project **The Messianic Reduction** Peter Fenves, 2011 The Messianic Reduction is

Offensichtlich scheint es überall auf der Welt Praktiken zu geben, die wir unzweifelhaft als musikalische identifizieren können. Aber ist der Begriff der Musik so einfach zu universalisieren? Kann er transformiert werden, um der Vielfalt dieser Praktiken gerecht zu werden? Wie wäre er dann zu bestimmen?
