The Role of the Press and Communication Technology in Democratization Aje-Ori Anna Agbese,2007-11-21 In the 1990s Nigeria like several countries in Asia Africa Eastern Europe and Latin America underwent transition programs to return the country to democracy Nigeria s democratization in the 1990s was a civil and international movement to free Nigeria from over 20 years of authoritarian military rule Agbese examines the role and agenda of the Nigerian press in the democratization process highlighting the grave challenges the Nigerian press faced such as jail arrest and assassination in pushing for democratization in Nigeria *The Foundations of Nigeria* Toyin Falola,2003 This text captures within a single volume a wide range of themes that underline the foundations of modern Nigeria notably nationalismconstitutional development politics and government economy culture ethnicity and religion A comprehensive compendium of the colonial history of Nigeria this book combines an interdisciplinary framework of analysis with critical discourse to produce a unique and fresh interpretation of colonial history as a whole *Exporting Democracy* Peter J. Schraeder,2002 In recent years debates within academic and policymaking circles have gradually shifted from a Cold War focus on whether democracy constitutes the best form of governance to the question of whether and to what degree international actors should be actively involved in democracy promotion This book offers the first comprehensive analysis of international efforts to promote democracy during the post World War II period with an emphasis on developments since 1989 The authors assess the efforts of major industrialized democracies multilateral actors and NGOs They find that the success of these endeavors is constrained by several realities ranging from the often significant gap between the rhetoric and the reality of actual policies to the dilemma that occurs when the goal of democracy clashes with other foreign policy interests The first comprehensive analysis of international efforts to promote democracy during the post World War II period with an emphasis on developments since 1989 *An Economic History of Development in sub-Saharan Africa* Ellen Hillbom,Erik Green,2019-06-19 This is a desperately needed book It not only surveys the field of African economic history at the level of undergraduate students but provides several fresh perspectives drawing on insights from the latest research on the evolution

African Democracy Thompson, Gardner, 2016-04-17 The concepts of democracy and good governance have been at the centre of criticism of governments all over the world What democracy entails however has never been agreed most notably on the African continent African politicians who have been criticised for reigning over undemocratic regimes have insisted that the West judges them by criteria that don t apply to African circumstances Is there such a thing as African democracy Informed and intrigued by two events that happened in different eras in different countries Gardner Thompson has written an in depth historical examination of the nature of imported democracy as practised in the East African countries of Uganda where he worked as a young History teacher in the 70s Kenya and Tanzania The events were the 1971 Amin capture of power from Milton Obote in Uganda and the post election violence that rocked Kenya in 2007 2008 pitting then incumbent Mwai Kibaki against his erstwhile colleague Raila Odinga along what many read to be tribal lines Dividing the book into three sections Thompson treats democracy in the three former colonies from the perspectives of pre independence colonialism the transition to independence and governance since independence Reflecting indigenous history the colonial past and evolving culture flawed but functioning forms of government have emerged in the three states Contemporary Issues in Africa's

Development Ehimika A. Ifidon, Richard A. Olaniyan, 2018-04-18 This volume reports on the state of crisis in Africa in the early twenty first century Africa on the eve of the independence revolution was the continent of hope and high expectations By the third decade of independence optimism had been replaced by dismality African states had been beset by ethno political squabbles military rule civil wars Islamic and insurgent movements extreme poverty and disease With the ascent of redemocratization in the 1990s and of new pan Africanism derived from the formation of the African Union Africa appeared set to claim its vaunted destiny This book asks with hindsight to the first decade of the twenty first century how real was the renaissance in African life If the dismal African condition is a phase in the historical development of Africa this volume does not see any golden age in the past to which Africa aspires to return There is clearly a continuation and persistence of crisis with an absence of good governance personalisation of state power widespread disease and policy failure in education

economy and infrastructural development Although endowed with abundant human and natural resources Africa remains the least developed and most indebted continent Whither then the African Renaissance The methodologies that underpin the contributions in this book are as diverse as the specialisations of the contributors The collection questions ideologically protected assumptions and presumptions presenting Africa as it is because it is only by knowing where Africa truly stands that a proper direction can be charted for it *Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century* E. Ike Udogu,2010-02-19 *Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century* frames the discourse around the important issue of African unification against the backdrop of the region's political and economic marginalization Arguably the richest continent in the world in terms of its abundant untapped natural resources and human capital it still lags behind the other regions of the world developmentally Undeniably Africa is at the crossroads in this millennium within the context of the powerful events and effects of the New Globalization One of the central issues that academics and political actors interested in African development must tackle immediately is how to make the region politically and economically relevant in global affairs These objectives could be attained through continental amalgamation Accordingly this book debates and suggests inter alia strategies that might advance Africa's unification effort in order to provide the politico economic clout needed to spur continental development Further it argues that such a Union of African States is critical for promoting the good political life for all Africans

Environment and Planning,2000 Publishes interdisciplinary research on issues of Government and Policy with an international perspective Committed to a broad range of policy questions not just those related to government and public policy Topics covered include nonstate agents private public collaboration and NGOs nongovernmental organisations All areas of economic social and environmental institutions and policy are included Disciplines from which papers are derived include political science planning geography economics law sociology and public administration *The Politics of Deforestation in Africa* Nadia Rabesahala Horning,2018-04-24 This book explores how environmental policies are made and enforced in Africa Specifically this project explains the gap between intent and impact of forest policies focusing on three African societies facing persistent deforestation today Madagascar Tanzania and Uganda The central claim of the study is that deforestation persists because conservation policies and projects which are largely underwritten by foreign donors consistently ignore the fact that conservation is possible only under limited and specific conditions To make the case the author examines how decision making power is negotiated and exercised where communities make environmental decisions daily local level and where environmental policies are negotiated and enacted national level across three distinct African political systems *Kenya and the Politics of a Postcolony* Wanjala S. Nasong'o,2024-08-06 This book sets out to probe explore and evaluate the betrayal of anticolonial nationalism in Kenya Contemporary Kenya's emergence is rooted in the colonial enterprise its deleterious effects and the subsequent decolonization spearheaded by a fierce anti colonial nationalism

that was embodied in freedom struggles at the cultural political and military levels As a settler colony the colonial settlers hived off millions of hectares of the best land in the highland areas of Kenya and appropriated them for themselves thereby generating a large mass of the landless This land alienation constituted one of the most deeply felt grievances which together with the exclusivist exploitative and oppressive colonial system inflamed anti colonial nationalism that undergirded the struggle for independence The expectation on the part of the masses was that independence would bring about social justice restitution of the stolen lands and a government based on the will and aspirations of the governed Political developments soon after independence however demonstrated the extent of betrayal of the cause of anti colonial nationalism which has remained the reality to date This book covers the extent of this sense of betrayal from the time of independence to the present It begins by locating contemporary Kenya within the colonial context then proceeds to thematic issues of betrayal including the fall out between President Kenyatta and Vice President Odinga over ideology and issues of development which constituted the first betrayal the scourge of bureaucratic corruption and rent seeking the question of land and associated historical injustices and electoral malpractice since the return of multiparty politics in 1992 to the most recent elections of 2022 The implications of these dynamics for the future of the Kenyan polity are delineated and discussed *Conflict Resolution and Peace Education in Africa* Ernest E. Uwazie, 2003-01-01 Africa today suffers from too much political unrest and violent conflict The contributors to this edited collection recognize a missing link in efforts to foster democracy and with it political stability and peace in Africa s developing countries Democracy can be sustained only where effective means for resolving citizens disputes exist both within and outside the formal legal system The writers whose articles appear here scholars practitioners and peace advocates present their varied knowledge of conflict and war in Africa and strategies for introducing and implementing mediation from Sierra Leone to South Africa This volume is a model exchange of insights and ideas in the important field of conflict resolution as applied to Africa *Where Law Meets Reality* Moses Chrispus Okello, 2012-07-05 Considering the core debates about how to develop a transitional justice agenda that best responds to the African context this book addresses the tension between justice peace and reconciliation **Politeia** , 2004 English and Afrikaans with abstracts in English
