

"Wonderful...Mr. Spector achieves what forests of memoirs and post-mortems of Vietnam have failed to accomplish.... A coherent and often gripping account of a year in the greatest military misadventure of our century.... This is history at its best." —*The New York Times Book Review*

AFTER TET

After Tet The Bloodiest Year In Vietnam

Dale Walton

After Tet The Bloodiest Year In Vietnam:

After Tet Ronald H. Spector, 1993 Military historian and ex marine Ronald Spector marks the upcoming 25th anniversary of the Tet offensive which presaged the worst fighting that took place the year following Detailing the deterioration of race relations the growth of the drug culture and even the experience of South Vietnamese and Viet Cong soldiers this comprehensive history may stand as one of the most important books about Vietnam **The Myth of Inevitable US Defeat in Vietnam** Dale Walton, 2013-01-11 This book offers a dispassionate strategic examination of the Vietnam conflict that challenges the conventional wisdom that South Vietnam could not survive as an independent non communist entity over the long term regardless of how the United States conducted its military political effort in Indochina **Military Aspects of the Vietnam Conflict** Walter L. Hixson, 2000 The Vietnam War was in the words of a preeminent scholar of the conflict George C Herring America's longest war The Indochina conflict spanned the first generation of the larger Cold War and lasts to this day in American memory and cultural representation Although the war remains a sensitive subject for many a consensus exists that would echo the words of former Secretary of Defense Robert S McNamara in his memoir *In Retrospect* We were wrong we were terribly wrong The six volumes in this series pull together the best article literature on the History of American Involvement in Vietnam The scholars writing in the first volume explore the roots of U S intervention which followed in the wake of France's failed effort supported and financed in Washington to assert imperial control over Indochina Volume II analyzed military aspects of the Vietnam War's history Volume V focuses on the lessons and legacies of the conflict the source of a particularly sharp debate during the first administration of President Ronald W Reagan The final volume in the series analyzes the Vietnam War's extensive afterlife in memory film literature and popular discourse Available individually by volume Volume 1 The Origins of Intervention 0 8153 3531 8 Volume 2 Military Strategy and Escalation 0 8153 3532 6 Volume 3 Executive Legislative Relations Tracing the Impact of the War on U S Governmental Structures and Policies 0 8153 3533 4 Volume 4 The Diplomacy of War 0 8153 3534 2 Volume 5 The Anti War Movement 0 8153 3535 0 Volume 6 Representation Memories and Legacies 0 8153 3536 9 *The Cold War and the Color Line* Thomas BORSTELMANN, 2009-06-30 After World War II the United States faced two preeminent challenges how to administer its responsibilities abroad as the world's strongest power and how to manage the rising movement at home for racial justice and civil rights The effort to contain the growing influence of the Soviet Union resulted in the Cold War a conflict that emphasized the American commitment to freedom The absence of that freedom for nonwhite American citizens confronted the nation's leaders with an embarrassing contradiction Racial discrimination after 1945 was a foreign as well as a domestic problem World War II opened the door to both the U S civil rights movement and the struggle of Asians and Africans abroad for independence from colonial rule America's closest allies against the Soviet Union however were colonial powers whose interests had to be balanced against those of the emerging independent Third World in a multiracial anticommunist alliance

At the same time U S racial reform was essential to preserve the domestic consensus needed to sustain the Cold War struggle The Cold War and the Color Line is the first comprehensive examination of how the Cold War intersected with the final destruction of global white supremacy Thomas Borstelmann pays close attention to the two Souths Southern Africa and the American South as the primary sites of white authority s last stand He reveals America s efforts to contain the racial polarization that threatened to unravel the anticommunist western alliance In so doing he recasts the history of American race relations in its true international context one that is meaningful and relevant for our own era of globalization Table of Contents Preface Prologue 1 Race and Foreign Relations before 1945 2 Jim Crow s Coming Out 3 The Last Hurrah of the Old Color Line 4 Revolutions in the American South and Southern Africa 5 The Perilous Path to Equality 6 The End of the Cold War and White Supremacy Epilogue Notes Archives and Manuscript Collections Index Reviews of this book In rich informing detail enlivened with telling anecdote Cornell historian Borstelmann unites under one umbrella two commonly separated strains of the U S post WWII experience our domestic political and cultural history where the Civil Rights movement holds center stage and our foreign policy where the Cold War looms largest No history could be more timely or more cogent This densely detailed book wide ranging in its sources contains lessons that could play a vital role in reshaping American foreign and domestic policy Publishers Weekly Reviews of this book Borstelmann traces the constellation of racial challenges each administration faced focusing particularly on African affairs abroad and African American civil rights at home rather than highlighting the crises that made headlines By avoiding the crutch of turning points for storytelling convenience he makes a convincing case that no single event can be untied from a constantly thickening web of connections among civil rights American foreign policy and world affairs Jesse Berrett Village Voice Reviews of this book Borstelmann analyzes the history of white supremacy in relation to the history of the Cold War with particular emphasis on both African Americans and Africa In a book that makes a good supplement to Mary Dudziak s Cold War Civil Rights he dissects the history of U S domestic race relations and foreign relations over the past half century This book provides new insights into the dynamics of American foreign policy and international affairs and will undoubtedly be a useful and welcome addition to the literature on U S foreign policy and race relations Recommended Edward G McCormack Library Journal

A History of Modern Urban Operations Gregory Fremont-Barnes, 2019-11-21 This book investigates the complexities of modern urban operations a particularly difficult and costly method of fighting and one that is on the rise Contributors examine the lessons that emerge from a range of historical case studies from nineteenth century precedents to the Battle of Shanghai Stalingrad German town clearance Mandalay and Berlin during World War II and from the Battle of Algiers to the Battle for Fallujah in 2004 Each case study illuminates the features that differentiate urban operations from fighting in open areas and the factors that contribute to success and failure The volume concludes with reflections on the key challenges of urban warfare in the twenty first century and beyond

Media Management in the Age of Lyndon B. Johnson Benjamin W. Quail, 2022-01-01 This book looks

broadly at how the contentious relationships between the media and US President Lyndon B Johnson affected the national consciousness during the turbulent period of his leadership Johnson had to deal with a particularly difficult and divisive period in American history and his relationship with the press undoubtedly contributed to an atmosphere of friction within the United States A more specific purpose of this research monograph is ultimately to shine a light on the trials and tribulations that Johnson faced as a president dealing with new forms of communication in the 1960s It aims to show the difficulties that he had in adapting a very personal style of leadership which had served him well in the Senate in the role he undertook as leader of a nation Further to this it builds on this foundation to argue that Johnson developed a reactive passive stance to dealing with the media one that ultimately contributed to a loss in popularity and status as leader a blow he never recovered from during his time in office

Endurance and War Jasen J. Castillo, 2014-04-09 Scholars and military practitioners alike have long sought to understand why some country's militaries fight hard when facing defeat while others collapse In *Endurance and War* Jasen Castillo presents a new unifying theory cohesion theory to explain why national militaries differ in their staying power His argument builds on insights from the literatures on group solidarity in general and military effectiveness in particular which argue that the stronger the ties binding together individuals in a group of any kind the higher the degree of cohesion that a group will exhibit when taking collective action including fighting in war Specifically he argues that two types of ties determine the cohesion and therefore the resilience of a nation's armed forces during war the degree of control a regime holds over its citizens and the amount of autonomy the armed forces possess to focus on training for warfighting Understanding why armed forces differ in their cohesion should help U S military planners better assess the military capabilities of potential adversaries like Iran and North Korea For scholars of international politics cohesion theory can help provide insights into how countries create military power and how they win wars

War and Diplomacy Andrew Dorman, Greg Kennedy, 2008-05 Examines the rapidly changing role of diplomacy

Spies and Commandos Kenneth J. Conboy, Dale Andradé, 2000 During the Vietnam War the U S sought to undermine Hanoi's subversion of the Saigon regime by sending Vietnamese operatives behind enemy lines All the commandos were killed or captured with many reporting false information This book traces the rise and demise of this secret operation

Staying the Course October 1967 to September 1968 Erik B. Villard, *A Companion to Lyndon B. Johnson* Mitchell B. Lerner, 2012-02-13 This companion offers an overview of Lyndon B Johnson's life presidency and legacy as well as a detailed look at the central arguments and scholarly debates from his term in office Explores the legacy of Johnson and the historical significance of his years as president Covers the full range of topics from the social and civil rights reforms of the Great Society to the increased American involvement in Vietnam Incorporates the dramatic new evidence that has come to light through the release of around 8 000 phone conversations and meetings that Johnson secretly recorded as President

U.S. Army Special Warfare Alfred H. Paddock, 2002 Paddock also includes new sections on American psychological warfare in the Pacific the Army

Rangers the 1st Special Service Force and American led guerrillas in the Philippines **BOOK JACKET** **The Cambodian Campaign** John M. Shaw, 2005 When American and South Vietnamese forces led by General Creighton Abrams launched an attack into neutral Cambodia in 1970 the invasion ignited a firestorm of violent antiwar protests throughout the United States dealing yet another blow to Nixon's troubled presidency But as John Shaw shows the campaign also proved to be a major military success Most histories of the Vietnam War either give the Cambodian invasion short shrift or merely criticize it for its political fallout thus neglecting one of the campaign's key dimensions Approaching the subject from a distinctly military perspective Shaw shows how this carefully planned and executed offensive provided essential support for Nixon's decent interval and peace with honor strategies by eliminating North Vietnamese sanctuaries and supply bases located less than a hundred miles from Saigon and by pushing Communist troops off the Vietnamese border Despite the political cloud under which the operation was conducted Shaw argues that it was not only the best of available choices but one of the most successful operations of the entire war sustaining light casualties while protecting American troop withdrawal and buying time for Nixon's pacification and Vietnamization strategies He also shows how the United States took full advantage of fortuitous events such as the overthrow of Cambodia's Prince Sihanouk the redeployment of North Vietnamese forces and the late arrival of spring monsoons Although critics of the operation have protested that the North Vietnamese never did attack out of Cambodia Shaw makes a persuasive case that the near border threat was very real and imminent In the end he contends the campaign effectively precluded any major North Vietnamese military operations for over a year Based on exhaustive research and a deep analysis of the invasion's objectives planning organization and operations Shaw's shrewd study encourages a newfound respect for one of America's genuine military successes during the war **Vietnam's Forgotten Army** Andrew Wiest, 2009-10 War Life and Death in the Central Highlands James T. Gillam, 2010 Drafted into the Army in 1968 Gillam transformed from an uncertain sergeant to an aggressive soldier serving in Vietnam and Cambodia As a regular point man and occasional tunnel rat who fought below ground the killing became close range and brutal Gillam left the Army in 1970 and he was once again a college student and destined to become a university professor **The Vietnam Run** Michael Gillen, 2023-03-17 On the same day the Japanese surrender ended World War II Vietnamese nationalists declared independence from France Within weeks France sought to reestablish colonial rule American merchant seamen arriving in French ports to ship GIs back to the U S were dismayed when French troops bound for Vietnam came aboard instead Many of these seamen objected because American veterans awaited transport home and because they flew in the face of Allied war aims of national self-determination Later with the Vietnam War effort dependent on Merchant Marine logistical support seamen were among the first to protest U S involvement With firsthand recollections this book tells the story from deadly encounters with mines rockets and gunfire to evacuations of refugees and to rescues of boat people in the South China Sea **Lyndon B. Johnson** Robert Dallek, 2005 This superb one volume biography of Lyndon Baines Johnson is

by the bestselling author of *An Unfinished Life* John F Kennedy 1917 1963 **1968: The World Transformed** Carole Fink, Philipp Gassert, Detlef Junker, 1998-10-28 1968 *The World Transformed* presents a global perspective on the tumultuous events of the most crucial year in the era of the Cold War By interpreting 1968 as a transnational phenomenon authors from Europe and the United States explain why the crises of 1968 erupted almost simultaneously throughout the world Together the eighteen chapters provide an interdisciplinary and comparative approach to the rise and fall of protest movements worldwide The book represents an effort to integrate international relations the role of media and the cross cultural exchange of people and ideas into the history of that year 1968 emerges as a global phenomenon because of the linkages between domestic and international affairs the powerful influence of the media the networks of communication among activists and the shared opposition to the domestic and international status quo in the name of freedom and self determination Withdrawal Gregory A. Daddis, 2017 In a riveting sequel to his celebrated *Westmoreland's War* Daddis offers a bold new interpretation of America's first lost war Upending myths of a better war that led to victory in Vietnam *Withdrawal* is required reading for anyone hoping to understand the final years of American intervention in Southeast Asia

Tragedy of Vietnam Patrick J. Hearden, 2016-05-23 For courses on the Vietnam War 20th century world history and American diplomatic history Also appropriate as a supplemental text for U S history survey courses and history of Asia courses Brief and accessible text that provides comprehensive coverage of the causes and consequences of the Vietnam War The *Tragedy of Vietnam* provides extensive background on the Vietnam War the relevant history of Southeast Asia and the consequences of the Vietnam conflict on the region Author Patrick Hearden examines the key decisions and questions surrounding the tragic American entanglement in Vietnam providing readers with a fascinating discussion of why the United States became involved in this war and why this involvement persisted for nearly a quarter of a century This book covers the social economic ideological diplomatic and military aspects of the Vietnam War
