Aesthetic Plastic Surgery of Head and Body I. Pitanguy, 2012-12-06 My aim in writing this book is to present the truth regarding the methods of aesthetic plastic surgery of the head and body the truth as I have come to perceive it in the course of more than 20 years experience in the field After this long period of quiet sedimentation and elaboration of gradual accumulation of thoughts and ideas I feel the urge to share with my colleagues especially the younger surgeons amongst them the fruits of my experience Although the procedures used in aesthetic plastic surgery when I entered the specialty two decades ago have since evolved the basic principles have remained the same Time has given me the opportunity to improve my own techniques as well as to benefit from the work of many others who have also contributed to the progress of the specialty This long process of maturation endangers the contemporariness of a work such as this but I have taken great pains to create a detailed up to date presentation enhanced by step by step illustrations of the surgical procedures that in my hands have been of value With regard to the accomplishment which this work represents I would first like to acknowledge the help of my former teachers Dr

The Creation of Aesthetic Plastic Surgery M. Gonzales-Ulloa, 2013-11-11 In the turmoil of everyday activity when few surgeons have time or energy for bibliographic research the wonderful history of human endeavor runs the risk of remaining buried in libraries Several years ago a small group of enthusiasts was gathered together by Mario Gonzalez Ulloa to write the history of Aesthetic Plastic Surgery There was the feeling among them that experience and knowledge should be shared by all those who practice this art and this science and that its creation and progress would be alive and present with a chronicle of this surgical specialty Their chapters have been written These chapters have appeared in Aesthetic Plastic Surgery but they are now collected in book form and the individual style of each author has been preserved It is a thrilling story It is a compact information Let it be our stepping stone project in which past present and future are fused into one
