

Affrilachia
(for gurney & anne)

thoroughbred racing
and hee haw
are burdensome images
for kentucky sons
venturing beyond the mason-dixon

anywhere in appalachia
is about as far
as you could get
from our house
in the projects
yet

a mutual appreciation
for fresh greens
and cornbread
an almost heroic notion
of family
and porches
makes us kinfolk
somehow
but having never ridden
bareback
or sidesaddle

and being inexperienced
at cutting
hanging
or chewing tobacco
yet still feeling
complete and proud to say
that some of the bluegrass
is black
enough to know
that being 'colored' and all
is generally lost
somewhere between
the dukes of hazzard
and the beverly hillbillies
but
if you think
makin' 'shine from corn
is as hard as kentucky coal
imagine being
an Affrilachian
poet

Appalachia faces overwhelming challenges that plague many rural areas across the country including poorly funded schools stagnant economic development corrupt political systems poverty and drug abuse Its citizens in turn have often been the target of unkind characterizations depicting them as illiterate or backward Despite entrenched social and economic disadvantages the region is also known for its strong sense of culture language and community In this innovative volume a multidisciplinary team of both established and rising scholars challenge Appalachian stereotypes through an examination of language and rhetoric Together the contributors offer a new perspective on Appalachia and its literacy hoping to counteract essentialist or class-based arguments about the region's people and reexamine past research in the context of researcher bias Featuring a mix of traditional scholarship and personal narratives Rereading Appalachia assesses a number of pressing topics including the struggles of first-generation college students and the pressure to leave the area in search of higher quality jobs prejudice toward the LGBT community and the emergence of Appalachian and Afrilachian art in urban communities The volume also offers rich historical perspectives on issues such as the intended and unintended consequences of education activist Cora Wilson Stewart's campaign to promote literacy at the Kentucky Moonlight Schools A call to arms for those studying the heritage and culture of Appalachia this timely collection provides fresh perspectives on the region its people and their literacy beliefs and practices

What Democracy Looks Like Amy Schrager Lang, Cecelia Tichi, 2006 The convergence of activists in Seattle during the World Trade Organization meetings captured the headlines in 1999 These demonstrations marked the first major expression on U.S. soil of worldwide opposition to inequality privatization and political and intellectual repression This turning point in world politics coincided with an ongoing quandary in academia particularly in the humanities where the so-called death of theory has left the field on tenuous footing In *What Democracy Looks Like* the editors and twenty-seven contributors argue that these crises in the world and the academy are not unrelated The essays insist that in the wake of Seattle teachers and scholars of American literature and culture are faced with the challenge of addressing new points of intersection between American studies and literary studies The narrative the poem the essay and the drama need to be reexamined in ways that are relevant to the urgent social and political issues of our time Collectively urging scholars and educators to pay fresh attention to the material conditions out of which literature arises this path-breaking book inaugurates a new critical realism in American literary studies It provides a crucial link in the growing need to merge theory and practice with the goal of reconnecting the ivory tower elite to the activists on the street
