Age Discrimination Age Discrimination:

Age Discrimination Malcolm Sargeant, 2016-04-01 Age Discrimination looks at how both young and old can be penalised by prejudice against their age group Following recent changes in the law the issue of age discrimination has come to the fore The new legislation will extend legal oversight of age related discrimination to the provision of facilities goods and services as well as employment Professor Sargeant provides a thorough review of the consequences of these changes and their implications for businesses and service providers public or private This comprehensive new book like its predecessor Age Discrimination in Employment is essential to practitioners responsible for HR issues finance operations service delivery quality and customer relations and for those with a policy focus or academic interest in diversity issues **The Law on Age Discrimination in the EU** Malcolm Sargeant, 2008-01-01 The EC Directive establishing a general framework for equal treatment in employment and occupation covers a number of grounds of discrimination including age The EU's population is ageing but there is much evidence that age discrimination is widespread The Directive is a reaction to that and the consequent desire to encourage greater participation in the labour market by older workers This is the first time that age discrimination has been made unlawful by the EU and as a result there are now laws in every Member State making such discrimination unlawful The Directive and much of the national legislation however treats age discrimination differently to the other grounds for unlawful discrimination It is the only area which permits direct discrimination Age discrimination generally may still be objectively justified by a legitimate aim if the means of achieving that aim are appropriate and necessary Such aims include legitimate employment policy labour market and vocational training objectives This insightful book written by national experts in eight Member States and at the EU level considers the ways in which the Directive has been implemented in some of the Member States and the extent to which they have taken advantage of the exceptions that are inherent in the Directive Particular issues that are covered are what legislation has been adopted in each country the development of the case law that exists in some States the demographic imperative existing in each country measures taken to improve the position of young people retirement and the exit from the workforce of older workers the approach and case law of the European Court of Justice As an important contribution towards an understanding of age discrimination within the European Union this book opens a field of law that has heretofore not been considered in all its seriousness It will be of real value to lawyers human resource management professionals and those with an interest in discrimination and EU issues It is an important contribution to what will be a developing field of study **Age Discrimination in Employment** Malcolm Sargeant, 2016-04-01 Increased life expectancy and an ageing workforce have highlighted the problem of age discrimination in developed countries Malcolm Sargeant's Age Discrimination in Employment is an encyclopedic guide for HR specialists and employment lawyers to the nature of age discrimination in the workplace in a number of countries along with a discussion of the main thrust of employment law in this area including an analysis of the Employment Equality Age

Regulations 2006 The book opens with a consideration of what age discrimination is and how it manifests itself at the workplace and elsewhere It also breaks discrimination down by age discrimination against young middle and senior age employees and explores multiple discrimination including age and gender ethnicity sexual orientation and disability An important reference for HR departments policy makers and others concerned with organizational culture and development discrimination and social policy **Age Discrimination Law in Europe** Nicky ten Bokum,Paul Bartelings,2009-01-01 Mit einem Kapitel zur Schweiz *Age as an Equality Issue* Sandra Fredman,Sarah Spencer,2003-07-18 Until recently age discrimination attracted little social opprobrium However ageism has now been thrust onto the equality agenda by the spectre of an ageing population This has led to a range of policies on active ageing Most importantly legally binding legislation prohibiting age discrimination in employment will need to be in place by 2006 Remarkably little attention has been paid to the key issues To what extent is age inevitably linked with declining capacity What are the central aims of a policy on age equality and how can these be realised in law How should law and policy address age discrimination in health education and employment What lessons can be learned from the US and Europe And should young people be dealt with in the same way as older people This book answers these questions in a series of chapters by experts from a wide range of disciplines It begins by examining the nature of the ageing process and then turns to a detailed analysis of the concept of age equality In the light of this analysis the following three chapters critically assess employment education and health A separate chapter is devoted to discrimination against children The last two chapters consider the experience in the US and other European countries Past it at 40? Lucy Gaster,2002 Why do so many older people who want to work find it difficult to do so Why are employers reluctant to employ them Is it purely the effect of discrimination and ageist attitudes Or are there some other reasons What can and should be done to achieve change for the better in the future Past it at 40 provides answers to these questions It explores in detail the experiences of people over 40 trying to enter the labour market including people who have been made redundant the long term unemployed women returners people with disabilities and people still in a job but needing new skills to keep going Employers attitudes policies and practices are examined revealing a worrying lack of awareness of national and European legislation in relation to the employment of older people **Just a Number** Dr Anne-Marie Mooney Cotter,2013-02-28 Whilst workers organizations and third party analysts around the world commonly cite age as the most prevalent form of discrimination in the workplace age discrimination has not had the same high profile as discrimination on grounds of sex or race This book allows readers to better understand the issue of ageism and inequality It examines the primary role of legislation and court process in combating age discrimination at both national and international levels Including the role of NAFTA and the EU in this respect it also provides a detailed examination of the relationship between age issues and the law and will be an important resource for those involved in age discrimination and elder rights **Age Discrimination** James Davies,2007-09 Age Discrimination is a brand new title that provides detailed

analysis of the application impact and practical effect of the Employment Equality Age Regulations 2006 Publisher **Age Discrimination in the Workplace** Lisa A. Hollis-Sawyer, 2017 This case study examines age discrimination in the American workplace and reviews two examples of age discrimination cases filed against Google since 2007 to illustrate this concern in organizational practices The two different court cases presented show different aspects of plaintiffs allegations of age discrimination The 1967 Age Discrimination in Employment Act and the associated legal implications for employment decisions involving aging workers are presented Both the challenges and issues related to potential age discrimination in an organization are reviewed and organizational solutions to avoid age discrimination and ensure fair employment practices for qualified older workers are suggested **Age Discrimination** Sue Thompson, 2005 Age Discrimination is part of the Theory Into Practice series This series fills a significant gap in the market for short user friendly texts written by experts that succinctly introduce sets of theoretical ideas relate them clearly to practice issues and guide the reader to further learning

Discrimination in Employment Act of 1967 United States. Employment Standards Administration, 1978 *Age Discrimination* John Macnicol, 2006-01-12 Age discrimination is a highly topical issue in all industrialised societies against a background of concerns about shortening working lives and ageing populations in the future Based upon detailed research and adopting an interdisciplinary approach this unique study traces the history of the age discrimination debate in Britain and the USA since the 1930s It critically analyses the concepts of ageism in social relations and age discrimination in employment Case studies on generational equity and health care rationing by age are followed by an analysis of the British government s initiatives against age discrimination in employment The book then traces the history of the debate on health status and old age addressing the question of whether working capacity has improved sufficiently to justify calls to delay retirement and extend working lives It concludes with a detailed examination of the origins and subsequent working of the USA s 1967 Age Discrimination in Employment Act **Age Discrimination** Simon Cheetham, Esther White, 2006 The Employment Equality Age Regulations 2006 come into force on 1 October 2006 The aim of the regulations is to outlaw discrimination on the grounds of age which is the most widespread form of discrimination in the workplace For the first time there will be a default retirement age of 65 and employers will not be able to retire employees before that age unless it can be objectively justified Employers must give employees at least 6 months notice of the intended retirement date and also

consider requests from employees to continue working beyond the age of 65 Age discrimination in recruitment promotion and training will be outlawed and the upper age limit for unfair dismissal claims will be removed This practical guide to the new law will explain the regulations in detail and will provide answers to key questions and discuss major issues including What age discrimination means How it affects employers and employees Fair dismissal for retirement Age discrimination and education How the new law affects pensions Rights and remedies under the regulations Age discrimination The New Law is essential reading for all employment lawyers and advisers and human resource professionals

Age Discrimination James Davies, Forum On Age Staff, 2004-11 The government has recently announced its intention to bring in new legislation in 2006 with the intention of combating age discrimination in the workplace Currently UK employees over the age of 65 are not protected from unfair dismissal or eligible for statutory redundancy payments The government wants to make it easier for workers to carry on working beyond the age of 65 Mandatory retirement ages are fixed by employers which state when employees are expected to retire The new legislation will obviously have a cost related impact on UK employers in terms of pension entitlements health insurance costs employer's liability insurance redundancy pay and skill shortages The idea behind the handbook is to clarify the new legislation the subsequent requirements that employers will have to comply with and will provide good practice guidance so employers are prepared for the new law when it comes into force in 2006
