Aggression and World Order Julius Stone, 2006 With a New Introductory Essay Paradoxes of a Sharp Legal Mind Professor Julius Stone and International Aggression by Benjamin B Ferencz Efforts to enforce world peace during the twentieth century through international organizations created a demand for a legal definition of aggression A U N committee attempted to provide one in a 1956 report Stone rejected it for two reasons Citing a broad array of examples he shows that the concept of aggression eludes definition More important he argues that a definition is not necessary for the goals of international peace enforcement *Aggression and World Order* Julius Stone, 1958 **Aggression and World Order** Julius Stone, 1976 Violence, Conflict, and World Order Gregg Barak, 2007 Violence Conflict and World Order Critical Conversations on State Sanctioned Justice examines the interpersonal institutional and structural relations of injustice and violence both domestically and globally through a series of dynamic conversations that are rich with p **Aggression and World Order. A Critique of United Nations Theories of Aggression, Etc** Julius STONE, 1958 The Internationalists Oona Anne Hathaway, Scott J. Shapiro, 2017-09-12 A bold and provocative history of how an overlooked 1923 treaty was among the most transformative events in modern history On a hot summer afternoon in 1928 the leaders of the world assembled in Paris to outlaw war Within the year the treaty signed that day known as the Peace Pact had been ratified by nearly every state in the world War for the first time in history had become illegal the world over But the promise of that summer day was fleeting Within a decade of the signing of the Pact each state that had gathered in Paris to renounce war was at war And in the century that followed the Peace Pact was dismissed as an act of folly and an unmistakable failure This book argues that that understanding is inaccurate and that the Peace Pact ushered in a sustained march toward peace that lasts to this day This book tells the story of the Peace Pact by placing it in the long history of international law from the seventeenth century through the present It details the brutal world of conflict the Peace Pact helped extinguish and the subsequent era where tariffs took the place of tanks Accessible and gripping this hook will change the way we view the history of the twentieth century and show how we must work together to protect the global order the internationalists fought to make possible Jacket The Rhetorical Presidency of George H. W. Bush Martin J. Medhurst, 2006-02-15 For George H W Bush the distinction between campaigning politics and governing principles was crucial Once in office he abandoned his campaign mode and with it the rhetorical strategies that brought electoral success Not recognizing the crucial importance of rhetoric to policy formation and implementation Bush forfeited the resources of the bully pulpit and paid the price of electoral defeat In this first ever analysis of Bush s rhetoric to draw on the archives of the Bush Presidential Library scholars explore eight major events or topics associated with his presidency the first Gulf War the fall of the Berlin wall the New World Order Bush s education presidency his environmental stance the vision thing and the influence of the Religious Right The volume concludes with a cogent of the 1992 re election campaign and Bush s last gasp use of economic rhetoric Drawing

on the resources of the Bush Presidential Library and interviews with many of Bush's White House aides the scholars included in this tightly organized volume ask How well did President Bush and his administration respond to events issues and situations In the process they also suggest how a more perceptive embrace of the art of rhetoric might have allowed them to respond more successfully The Rhetorical Presidency of George H W Bush breaks important ground for our understanding of the forty first president's time in office and the reasons it ended so quickly *War, Peace and World Orders in European History* Anja V. Hartmann, Beatrice Heuser, 2002-11-01 This book explores a new way for students of International Relations to look at war peace and world orders throughout European history The contributors argue that the predominant realist paradigm that focuses on states and their self interest is not applicable to the largest period of European history because states either did not exist or were only in the making Instead they argue we have to look through the eyes of historical entities to see how they understood the world in which they lived The authors use a wide range of case studies focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them **The Crime of Aggression under the Rome Statute of the International Criminal Court** Carrie McDougall, 2021-08-12 This edition provides a comprehensively updated guide to the crime of aggression under the Statute of the International Criminal Court *The Justification of War and International Order* Lothar Brock, Hendrik Simon, 2021 In the past few decades the understanding of the relationship between nations has undergone a radical transformation The role of the traditional nation state is diminishing along with many of the traditional vocabularies which were once used to describe what has been called ever since Jeremy Bentham coined the phrase in 1780 international law The older boundaries between states are growing ever more fluid new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states which has dominated the study of international relations since the early nineteenth century This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theory It is the editors conviction that the best way to achieve this is by bridging the traditional divide between international legal theory intellectual history and legal and political history The aim of the series therefore is to provide a forum for historical studies from classical antiquity to the twenty first century that are theoretically informed and for philosophical work that is historically conscious in the hope that a new vision of the rapidly evolving international world its past and its possible future may emerge Book jacket

Foreign Policy and the Rogue State Doctrine Alex Miles,2013 Concerns over Iran s nuclear programme North Korea s nuclear brinkmanship and in the past Iraq s apparent pursuit of WMD have captured the world s attention and dominated the agenda of the American foreign policy establishment But what led policymakers and the US military to emphasise the threat of rogue states at the end of the Cold War Going behind the vivid language of the axis of evil and portrayals of undeterrable and reckless rogue states this work demonstrates how the rogue state doctrine satisfied both domestic and international goals in the Clinton and George W Bush administrations underpinning efforts to maintain US leadership and hegemony It offers a clear picture of the policymaking process taking a broad historical approach that places the actions of US officials towards Iraq Iran North Korea Libya and Cuba in a wider context Through an understanding of the long standing influences on the US approach we are better able to appreciate why for instance regime change dominated the post 9 11 agenda and led to the overthrow of Saddam Hussein Explaining in detail how the tackling of rogue states became a central aim of US foreign policy Miles examines whether there was continuity between the Clinton and Bush approach He moves on to highlight the influence of Congress on the implementation of US policies and the difficulties the US faced in selling its approach to allies and adapting its hard line strategies to reflect developments within the targeted states By considering the impulses and drivers behind the development of the rogue states approach this work will extend the scope of existing work in the field and will be of interest to scholars and policymakers alike The Rise and Decline of the Post-Cold War International Order Hanns Maull,2018 This book takes a bird s eye view of what has been happening with the international order over the last quarter century Violence Denied Jan E. M. Houben,Karel Rijk van Kooij,1999 In the course of millennia of dealing with problems of violence South Asia has not only elaborated the ideal of total avoidance of violence in a unique manner it also developed arguments justifying and rationalizing its employment under certain circumstances Some of these arguments seemingly transform all sorts of violence into non violence Historical and cultural aspects of the tensions between violence and its denial and rationalization in South Asia are taken up in the contributions of this volume which deal with topics ranging from the origins of the concept of ahi s to the iconography and interpretation of a self beheading goddess and violent heroines in Ajneya s Hindi short stories **The Case for Biblical Antichrist, Global Government, and the Man Chosen to Save America** Luis Munoz,2024-11-04 The godfather of the global mafia Rockefeller indicated that he and other globalists are relying on the right major crisis and the nations will accept the New World Order Moreover the renowned globalist and Obama s advisor Strobe Talbott said In the next century 21st nations as we know it will be obsolete all states will recognize a single global authority National sovereignty wasn t such a great idea after all And James Paul Warburg said We shall have World Government whether or not we like it The only question is whether World Government

will be achieved by consent or conquest Who are America s true enemies How are they operating inside America How are they plotting to destroy America s democracy and sovereignty Robert F Kennedy Jr on April 1 2024 told CNN I can make the argument that President Biden is a much worse threat to democracy than Trump Again Robert on April 2 2024 told Fox News President Biden has done something no other president has done which is to order media particularly social media Facebook Instagram to censor his political opponent President Biden is a much worse threat to democracy and the reason for that is President Biden is the first candidate in history the first president in history that has used the federal agencies to censor political speech to censor his opponent And he added that Biden is a genuine threat to our democracy Keep in mind that Robert K is a liberal Democrat Former president Barack Obama and his wife Michael are using their Netflix Predictive Programming movie Leave the World Behind to reveal how he and the global gang intend to put the US government under a global dictatorship Their plot includes A simple three stage maneuver that could topple a country s government from within That country s government is no other but the US government which will be the real target for a coup d etat and civil war The first maneuver to destroy America is Isolation By that they mean disabling the sectors of communication and transportation making the target as deaf dumb and paralyzed as possible The second maneuver consists of creating a synchronized chaos to terrorize the American people with covert attacks and misinformation overwhelming their defense capabilities and leaving their weapon system vulnerable to extremists and their own military Without a clear enemy or motive people would start turning on each other If done successfully the third stage would happen on its own The Obama Netflix civil war movie describes the globalists plot to create the right major crisis that they have envisioned to establish a global government The plot seems to include widespread use of state terrorism to attack America from within with tens of thousands of radical Muslim terrorists that are already in America The goal is to topple the US government declare martial law change the Constitution and put the country under a global tyranny I am using this book to show that Obama and Biden have been working in league with the evil global mafia to cement America s transition from democracy to dictatorship Also this book shows the globalists plot for world government and the man with the call and vision to lead it Barack H Obama the biblical Antichrist and awaited Mahdi of Islam Therefore Americans have a critical choice to make choose Obama s radicalized democrat gang and you will destroy America s democracy and sovereignty Choose Donald Trump and you will empower the man called to defeat the enemies of humanity and tyranny Trump is the man destined to vindicate God s name and restore America to its rightful place before God takes His people in the rapture Press Release ,1958
